*The Last Humans: The Complete Trilogy* Dima Zales, Anna Zaires, 2016-08-14 From the New York Times bestseller Dima Zales comes an action-packed sci-fi adventure set in a post-singularity future. For a limited time, get all 3 full-length novels (1000+ pages) in one convenient, discounted bundle. When invisible technology runs everything and memories can't be trusted, how does one sort the truth from the lies? Oasis, the last habitable area on post-apocalyptic Earth, is meant to be a paradise, a place where everyone is content. Vulgar, violence, insanity, and other ills are but a distant memory, and even death no longer plagues the last surviving humans. Theo, a twenty-three-year-old Youth, has never fit in with the serene, age-divided Oasis society. But it's only when he starts hearing a girl's voice in his head that he realizes that nothing is what it seems. Phoe is his imaginary friend—or is she? As secrets are unveiled, Theo is dragged into a dangerous game where the virtual and the real worlds collide. What does it mean to be human? What does it mean to be real? Theo is about to find out. Warning: This book contains some strong language. We felt it was important for the censorship theme of the novel. If such words offend you, you might not enjoy this book. If in doubt, please read the sample before buying. NOTE: This is a complete trilogy containing three full-length novels— Oasis, Limbo, and Haven.

**After Hitchcock** David Boyd, R. Barton Palmer, 2010-01-01 Alfred Hitchcock is arguably the most famous director to have ever made a film. Almost single-handedly he turned the suspense thriller into one of the most popular film genres of all time, while his *Psycho* updated the horror film and inspired two generations of directors to imitate and adapt this most Hitchcockian of movies. Yet while much scholarly and popular attention has focused on the director's oeuvre, until now there has been no extensive study of how Alfred Hitchcock's films and methods have affected and transformed the history of the film medium. In this book, thirteen original essays by leading film scholars reveal the richness and variety of Alfred Hitchcock's legacy as they trace his shaping influence on particular films, filmmakers, genres, and even on film criticism. Some essays concentrate on films that imitate Hitchcock in diverse ways, including the movies of Brian de Palma and thrillers such as *True Lies*, *The Silence of the Lambs*, and *Dead Again*. Other essays look at genres that have been influenced by Hitchcock's work, including the 1970s paranoid thriller, the Italian giallo film, and the post-*Psycho* horror film. The remaining essays investigate developments within film culture and academic film study, including the enthusiasm of French New Wave filmmakers for Hitchcock's work, his influence on the filmic representation of violence in the post-studio

Hollywood era, and the ways in which his films have become central texts for film theorists.

*Holding Up a Mirror* Anne Glyn-Jones, 1996 This penetrating analysis traces a parallel evolution across four different civilisations, Ancient Greece and Rome, Medieval Christendom and modern England. Comparing their wealth, religion and engineering, we see that decadence leads to their downfall.

The New York Times Guide to the Arts of the 20th Century: 1900-1929 ,2002 Reviews, news articles, interviews and essays capturing 100 years of art, architecture, literature, music, dance, theater, film and television.

*Hannibal Lecter's Forms, Formulations, and Transformations* Jessica Balanzategui, Naja Later, 2020-12-17 This book examines how the iconic character Hannibal Lecter has been revised and redeveloped across different screen media texts. Hannibal The Cannibal Lecter has become one of Western culture's most influential and enduring models of monstrosity since his emergence in 1981 in *Red Dragon*, Thomas Harris' first Lecter book. Lecter is now at the centre of an extensive cross-mediated mythology, the most recent incarnation of which is Bryan Fuller's television program, *Hannibal* (NBC, 2013-2015). This acclaimed series is the focus of *Hannibal Lecter's Forms, Formulations, and Transformations*, which examines how Fuller's program harnesses the iconic character to experiment with traditional boundaries of genre, medium, taste, and narrative form. Featuring chapters from established and emerging screen and popular culture scholars from around the world, the book outlines how the show operates as a striking experiment with televisual form and formula. The book also explores how this experimentation is embodied by the boundary-defying character, the savage cannibalistic serial killer, practicing psychiatrist, and cultured art enthusiast, Hannibal Lecter. The chapters in this book were originally published as a special issue of the journal, *Quarterly Review of Film and Video*.

**The Autistic Sleuth** Chris Chan, Patricia Meyer Chan, 2024-06-24 From Benedict Cumberbatch and Robert Downey Jr.'s portrayals of Sherlock Holmes, to the Scandinoir investigators Lisbeth Salander of *The Millennium Trilogy* and Saga Norén of *The Bridge*, to anime's L in *Death Note*, to Christopher Boone in *The Curious Incident of the Dog in the Night-Time*, increasing numbers of crime shows and movies have featured detectives on the autism spectrum. Portrayals of such characters have been met with acclaim and criticism. Is the entertainment industry celebrating neurodiversity or is it reinforcing stereotypes? In *The Autistic Sleuth*, over two dozen characters appearing in filmed productions from around the globe will be analyzed to explore how film and television present atypical minds through some of the world's most popular detectives.

**Spy** ,1990-08 Smart. Funny. Fearless. It's pretty safe to say that *Spy* was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented --Dave Eggers. It's a piece of garbage --Donald Trump.

*The Silence of the Lambs* Thomas Harris,1988-07-15 She is Clarice Starling, young, vulnerable FBI trainee. He is Hannibal Lecter, brilliant, evil genius. Theirs is a mesmerizing struggle between good and evil- designed to stop a killer, and guaranteed to chill your blood.

*Thinking about Movies* Peter Lehman,William Luhr,2018-10-01 A complete introduction to analyzing and enjoying a wide variety of movies, for film students and movie lovers alike *Thinking About Movies: Watching, Questioning, Enjoying, Fourth Edition* is a thorough overview of movie analysis designed to enlighten both students and enthusiasts, and heighten their enjoyment of films. Readers will delve into the process of thinking about movies critically and analytically, and find how doing so can greatly enhance the pleasure of watching movies. Divided roughly into two parts, the book addresses film studies within the context of the dynamics of cinema, before moving on to a broader analysis of the relationship of films to the larger social, cultural, and industrial issues informing them. This updated fourth edition includes an entirely new section devoted to a complete analysis of the film adaptation of *The Girl with the Dragon Tattoo*, along with many in-depth discussions of important films such as *Citizen Kane* and *Silence of the Lambs*. The chapter on television integrates a major expansion distinguishing between television in the digital era of the convergence of the entertainment and technology industries in comparison to the era of broadcast analogue television. The final chapter places film within the current context of digital culture, globalization, and the powerful rise of China in film production and exhibition. The authors clearly present various methodologies for analyzing movies and illustrate them with detailed examples and images from a wide range of films from cult classics to big-budget, award-winning movies. This helps viewers see new things in movies and also better understand and explain why they like some better than others. *Thinking About Movies: Watching, Questioning, Enjoying, Fourth Edition* is ideal for film students immersed in the study of this important, contemporary medium and art form as well as students and readers who have never taken a class on cinema before.

**Rape in Stieg Larsson's Millennium Trilogy and Beyond** B. Åström,K. Gregersdotter,T. Horeck,2012-10-16 Focusing on the sexualized violence of Stieg Larsson's bestselling Millennium trilogy - including the novels, Swedish film adaptations, and Hollywood blockbusters - this collection of essays puts Larsson's work into dialogue with Scandinavian and Anglophone crime novels by writers including Jo Nesbø, Håkan Nesser, Mo Hayder and Val McDermid.

*Silence of the Lambs* Thomas Harris,1988 A serial murderer known only by a grotesquely apt nickname-Buffalo Bill-is stalking women. He has a purpose, but no one can fathom it, for the bodies are discovered in different states. Clarice Starling, a young trainee at the FBI Academy, is surprised to be summoned by Jack Crawford, chief of the Bureau's Behavioral Science section. Her assignment: to interview Dr. Hannibal Lecter-Hannibal the Cannibal-who is kept under close watch in the Baltimore State Hospital for the Criminally Insane. Dr. Lecter is a former psychiatrist with a grisly history, unusual tastes, and an intense curiosity about the darker corners of the mind. His intimate understanding of the killer and of

Clarice herself form the core of *The Silence of the Lambs*-and ingenious, masterfully written book and an unforgettable classic of suspense fiction.

Television and Serial Adaptation Shannon Wells-Lassagne, 2017-01-20 As American television continues to garner considerable esteem, rivalling the seventh art in its cinematic aesthetics and the complexity of its narratives, one aspect of its development has been relatively unexamined. While film has long acknowledged its tendency to adapt, an ability that contributed to its status as narrative art (capable of translating canonical texts onto the screen), television adaptations have seemingly been relegated to the miniseries or classic serial. From remakes and reboots to transmedia storytelling, loose adaptations or adaptations which last but a single episode, the recycling of pre-existing narrative is a practice that is just as common in television as in film, and this text seeks to rectify that oversight, examining series from *M\*A\*S\*H* to *Game of Thrones*, *Pride and Prejudice* to *Castle*.

**Women in Popular Culture** Laura L. Finley, 2023-03-24 Winner, 2024 RUSA Outstanding Reference Award Including more than 300 alphabetically listed entries, this 2-volume set presents a timely and detailed overview of some of the most significant contributions women have made to American popular culture from the silent film era to the present day. The lives and accomplishments of women from various aspects of popular culture are examined, including women from film, television, music, fashion, and literature. In addition to profiles, the encyclopedia also includes chapters that provide a historical review of gender, domesticity, marriage, work, and inclusivity in popular culture as well as a chronology of key achievements. This reference work is an ideal introduction to the roles women have played, both in the spotlight and behind it, throughout the history of popular culture in America. From the stars of Hollywood's Golden Age to the chart toppers of the 2020s, author Laura L. Finley documents how attitudes towards these icons have evolved and how their influence has shifted throughout time. The entries and essays also address such timely topics as feminism, the #MeToo movement, and the gender pay gap.

Psycho Paths Philip L. Simpson, 2000 Philip L. Simpson provides an original and broad overview of the evolving serial killer genre in the two media most responsible for its popularity: literature and cinema of the 1980s and 1990s. The fictional serial killer, with a motiveless, highly individualized modus operandi, is the latest manifestation of the multiple murderers and homicidal maniacs that haunt American literature and, particularly, visual media such as cinema and television. Simpson theorizes that the serial killer genre results from a combination of earlier genre depictions of multiple murderers, inherited Gothic storytelling conventions, and threatening folkloric figures reworked over the years into a contemporary mythology of violence. Updated and repackaged for mass consumption, the Gothic villains, the monsters, the vampires, and the werewolves of the past have evolved into the fictional serial killer, who clearly reflects American cultural anxieties at the start of the twenty-first century. Citing numerous sources, Simpson argues that serial killers' recent popularity as genre monsters owes much to their pliability to any number of authorial ideological agendas from both the left and the right ends of

the political spectrum. Serial killers in fiction are a kind of debased and traumatized visionary, whose murders privately and publicly re-empower them with a pseudo-divine aura in the contemporary political moment. The current fascination with serial killer narratives can thus be explained as the latest manifestation of the ongoing human fascination with tales of gruesome murders and mythic villains finding a receptive audience in a nation galvanized by the increasingly apocalyptic tension between the extremist philosophies of both the New Right and the anti-New Right. Faced with a blizzard of works of varying quality dealing with the serial killer, Simpson has ruled out the catalog approach in this study in favor of in-depth analysis of the best American work in the genre. He has chosen novels and films that have at least some degree of public name-recognition or notoriety, including *Red Dragon* and *The Silence of the Lambs* by Thomas Harris, *Manhunter* directed by Michael Mann, *Henry: Portrait of a Serial Killer* directed by John McNaughton, *Seven* directed by David Fincher, *Natural Born Killers* directed by Oliver Stone, *Zombie* by Joyce Carol Oates, and *American Psycho* by Bret Easton Ellis.

**Encyclopedia of American Popular Fiction** Geoff Hamilton, Brian Jones, 2010-05-12 Covers contemporary authors and works that have enjoyed commercial success in the United States but are typically neglected by more literary guides. Provides high school and college students with everything they need to know to understand the authors and works of American popular fiction.

Deleuze and the Animal Colin Gardner, 2017-04-01 Becoming-animal is a key concept for Deleuze and Guattari; the ambiguous idea of the animal as human and nonhuman life infiltrates all of Deleuze's work. These 16 essays apply Deleuze's work to analysing television, film, music, art, drunkenness, mourning, virtual technology, protest, activism, animal rights and abolition. Each chapter questions the premise of the animal and critiques the centrality of the human. This collection creates new questions about what the age of the Anthropocene means by 'animal' and analyses and explores examples of the unclear boundaries between human and animal.

**New York Magazine** , 1991-04-08 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

**Stories and Portraits of the Self** Helena Carvalhão Buescu, João Ferreira Duarte, 2007 In contemporary societies privatization has long ceased to be just an economic concept; rather, it must increasingly be made to refer to the ongoing shrinking of the public space under the impact of the representation of individual lives and images, which cuts across all discourses, genres and media to become one of the primary means of production of culture. This volume is intended to cover such an historical, social and intellectual ground, where self-representation comes to the fore. Targeting mostly an academic

readership but certainly also of interest to the general educated public, it collects a wide range of essays dealing with diverse modes of life writing and portraying from a variety of perspectives and focusing on different historical periods and media. It thus offers itself as a major contribution to a better understanding of the world we live in: its past legacy and present configuration.
