Migration, Women and Social Development Lourdes Arizpe,2014-08-04 This book presents a selection of major research texts by Prof. Dr. Lourdes Arizpe Schlosser, a Mexican Pioneer in Anthropology. A global intellectual leader on culture, social development, sustainability, women's studies and indigenous groups, her texts provide both an outlook on the evolution of specific social scientific concepts and historical debates and a long-term and meta-analytical perspective integrating academic and policy discussions. By linking debates from different fields, the book helps readers to understand why people and groups make the choices they make and how the principles of social life must change to meet the challenges that new generations face in building social sustainability and effective environmental management in the twenty-first century.

Law and Market Society in Mexico George M. Armstrong,1989-01-19 A new theory to explain the problems Mexico has had in developing a viable market economy is presented in this innovative book. The theory bases the difficulties not on the current popular view of dependency, domestic response to foreign influence, but on Mexican culture and traditions. Armstrong traces patterns of Mexican history and lawmaking from the time of the Spanish conquistadores through the present. He demonstrates that the country has never developed a materialistic culture of egoism and autonomy, necessary in a market economy, but instead reinforces communitarian paternalism. The ideologies imported by the intelligentsia (such as nineteenth century liberalism and twentieth century socialism) are shown to have had little impact on Mexico because the implicit premises of these philosophies have been incompatible with social conditions and aspirations in that nation. Armstrong argues that the blend of Spanish and traditional Indian cultures which focus on communitarian and paternalistic attitudes have constricted entrepreneurship, innovation, and commerce. Law and Market Society in Mexico begins in New Spain. The author explores the patterns of land tenure by the conquistadores and collective ownership among the Indians. Both the land and labor in Mexico were generally not articles of commerce, with systems such as mortmain, entail, and debt peonage in place. Current government stewardship is seen as far more intense than the level of regulation the United States has been accustomed to. This perceptive work is ideal for courses on Latin American studies, politics, and history.

Matters of Justice Helga Baitenmann,2020-05-01 After the fall of the Porfirio Díaz regime, pueblo representatives sent hundreds of petitions to Pres. Francisco I. Madero, demanding that the executive branch of government assume the judiciary's control over their unresolved lawsuits against landowners, local bosses, and other villages. The Madero administration tried to use existing laws to settle land conflicts but always stopped short of invading judicial authority. In contrast, the two main agrarian reform programs undertaken in revolutionary Mexico—those implemented by Emiliano Zapata and Venustiano Carranza—subordinated the judiciary to the executive branch and thereby reshaped the postrevolutionary state with the support of villagers, who actively sided with one branch of government over another. In Matters of Justice Helga Baitenmann offers the first detailed account of the Zapatista and Carrancista agrarian reform programs as they were implemented in practice at the local level and then reconfigured in response to unanticipated inter- and intravillage conflicts. Ultimately, the Zapatista land reform, which sought to redistribute land throughout the country, remained an unfulfilled utopia. In contrast, Carrancista laws, intended to resolve quickly an urgent problem in a time of war, had lasting effects on the legal rights of millions of land beneficiaries and accidentally became the pillar of a program that redistributed about half the national territory.

La no efectividad del ejercicio del derecho del tanto como garante del principio de igualdad constitucional para la mujer en materia agraria Perla Araceli Barbosa Muñoz,Dennys Laura Aledo Barajas,2023-06-28 La igualdad de género es un

principio consagrado en el artículo 4° Constitucional que estipula que hombres y mujeres son iguales ante la ley. Para que así lo sea, la igualdad debe traducirse en oportunidades reales y efectivas en todos los ámbitos de la vida, no sólo sociales sino también jurídicos. Sin embargo, una realidad que persiste en el campo mexicano es precisamente la desigualdad de género, la cual afecta a las mujeres en la adquisición de parcelas por medio del ejercicio del derecho tanto. Es un problema que vienen padeciendo desde hace muchos años y no se ha logrado desaparecer, aún y cuando existen disposiciones legales que intentan terminar con esta desigualdad. La no efectividad del ejercicio del derecho del tanto como garante del principio de igualdad constitucional para la mujer en materia agraria, es una obra que realiza un estudio sobre el derecho del tanto concedido por la Ley Agraria a las mujeres campesinas en México, para la adquisición de la titularidad de derechos parcelarios al igual que los varones, partiendo del principio de igualdad constitucional, derecho que no ha logrado materializarse atendiendo a la brecha de género que aún persiste en los ejidos, derivado de las condiciones económicas, de marginación, discriminación y pobreza de las mujeres, que les impide la posibilidad de comprar derechos agrarios a su propio esposo o concubino en igualdad de circunstancias que los hombres. El libro reúne las experiencias de las mujeres del Ejido la Aldea, Municipio de Morelia, Michoacán, quienes luchan contra esa desigualdad normalizada que les impide ejercer el derecho del tanto, y son una muestra de la situación que viven las mujeres en los ejidos. Con esta obra se pretende contribuir en la búsqueda del equilibrio e igualdad que legalmente ya se ha trazado entre las mujeres y los hombres del campo.
