Witzen richtet sich an Leser, die sowohl über gute Deutschkenntnisse als auch über gute Englischkenntnisse verfügen. Aufgrund von kulturellen und sprachlichen Unterschieden kann der Humor eines Witzes bei der Übersetzung oft verloren gehen. Dieses Buch bringt Witze zusammen, die in beiden Sprachen funktionieren. Sparta's German Children Helen Roche,2013-12-31 From the eighteenth century until 1945, German children were taught to model themselves on the young of an Ancient Greek city-state: Sparta. From older children, from teachers in the classroom, and from higher authority first in Prussia, then in Imperial and National Socialist Germany, came images of Sparta designed to inculcate ideals of endurance, discipline and of military self-sacrifice. Identification with Sparta could also be used to justify ideas of domination over Germany's eastern neighbours. Helen Roche is the first to examine this still sensitive topic systematically and in depth. She collects and analyses official and published German evocations of Sparta but also, and remarkably, reconstructs the experiences of German children taught to be 'little Spartans' in the Prussian Cadet Corps and National Socialist elite schools, the Napolas. In treating the final, and gravest, period of this process, the author has personally collected testimony from numerous surviving German witnesses who attended the Napolas as children in the early 1940s. That testimony is presented here, in a work which is likely to prove definitive, not only for its treasury of new information, but for its elegant - and humane - analysis.

Visuelle Medien im DaF-Unterricht Marc Hieronimus, 2014 Visual media are omnipresent. The improvement of printing and imaging techniques in the 20th and the long unfinished digital revolution since the turn of the 21st century have resulted in a visualisation of the environment that is unique in Human history. The humanities respond with a delay, that appropriate reflection and institutionalisation may necessitate. Meanwhile, the development of visual media and the „business“ of image-based language teaching continue. The contributions to this book are intended to help bridge the gap between image development and deliberate image using. Part one provides approaches to visual didactics, evaluation criteria for compound media (p.e. coursebook plus CD-ROM), and basic knowledge of image science and the stepchild comics. Part two treats motionless images like street art, advertising, portrait, historical photograph and comics in GFL courses. The third part about the wide range of moving images addresses documentaries and short films, commercials, picturisation of poems and video use in speech training. The concluding fourth part deals with social networks, German learning apps and queer media in GFL lessons.

Sie thematisiert die Rolle der Sprache in der politischen und des Politischen in der sprachlichen Bildung und damit die Verknüpfung von edukativen Praktiken, politischen Diskursen und Sprachhandeln. Angesichts sich rasch wandelnder Rahmenbedingungen - etwa im Hinblick auf Dynamiken sozialer, kultureller und sprachlicher Diversifikation, Digitalisierungsprozesse wie auch Prävention und Bewältigung von gesellschaftlichen Krisen - geben sie demokratiepädagogische Denkanstöße und Entwicklungsimpulse.
