The Perfect House Witold Rybczynski, 2013-02-26 Palladio is the Bible, Thomas Jefferson once said. You should get it and stick to it. With his simple, gracious, perfectly proportioned villas, Andrea Palladio elevated the architecture of the private house into an art form during the late sixteenth century -- and his influence is still evident in the ample porches, columned porticoes, grand ceilings, and front-door pediments of America today. In *The Perfect House*, bestselling author Witold Rybczynski, whose previous books (*Home*, *A Clearing in the Distance*, *Now I Sit Me Down*) have transformed our understanding of domestic architecture, reveals how a handful of Palladio's houses in an obscure corner of the Venetian Republic should have made their presence felt hundreds of years later and halfway across the globe. More than just a study of one of history's seminal architectural figures, *The Perfect House* reflects Rybczynski's enormous admiration for his subject and provides a new way of looking at the special landscapes we call home in the modern world.

The Perfect \$100,000 House Karrie Jacobs, 2007-05-29 A home of one's own has always been a cornerstone of the American dream, fulfilling like nothing else the desire for comfort, financial security, independence, and with a little luck, even a touch of distinctive character, or even beauty. But what we have come to regard as almost a national birthright has recently begun to elude more and more prospective homebuyers. Where housing is concerned, affordable and well-crafted rarely exist together. Or do they? For years, founding editor-in-chief of *Dwell* magazine and noted architecture and design critic Karrie Jacobs had been confronting this question both professionally and personally. Finally, she decided to see for herself whether it was possible to build the home of her own dreams for a reasonable sum. *The Perfect \$100,000 House* is the

story of that quest, a search that takes her from a two-week crash course in housebuilding in Vermont to a road trip of some 14,000 miles. In the course of her journey Jacobs encounters a group of intrepid and visionary architects and builders working to revolutionize the way Americans think about homes, about construction techniques, and about the very idea of community. By her trip's end Jacobs, has not only had a practical and sobering education in the economics, aesthetics, and politics of homebuilding, but has been spurred to challenge her own deeply held beliefs about what constitutes an ideal home. *The Perfect \$100,000 House* is a compelling and inspiring demonstration that we can live in homes that are sensible, modest, and beautiful.

House Michael Ruhlman, 2006-03-07 Michael Ruhlman's uncanny knack for taking a wide range of subjects and making them completely his own has gained him acclaim and popularity. In his latest offering, he owns the subject both figuratively and literally: his home. *House* really began in 1901 when a family moved into a brand-new house in Cleveland Heights—full of hope for the future and pride in their stunning home. But as time moved on, upkeep began to wane and, in the end, the house went on the market. And there it stayed for quite some time, until the Ruhlman family decided to buy the dilapidated building. With the always-tedious home-buying process and expensive repairs soaring into the hundreds of thousands of dollars, the American Dream can seem like the American Nightmare. Detailing the purchase and renovation of a single family home, *House* explores the importance of the place we live in, our yearning to establish it, and the importance of the actual structure, its impact on our intellectual and spiritual lives, and on the struggles of a family. Packed with useful information and stories written with a storyteller's flair, *House* is a dramatic narrative by a gifted writer who eloquently concludes that be it ever so humble, a castle or a row house downtown, there's truly no place like home.

Tiny House in the Trees Celia Bonaduce,2018-11-20 A woman branches out in this novel from the author and TV producer whose credits include *Extreme Makeover: Home Edition* and HGTV's *House Hunters*. House enough to hold her dreams . . . Aspiring engineer Molly McGinnis is one master's thesis away from conquering the universe. But in the meantime, she's struggling to make ends meet, working at a tree farm while stowing away in a Tiny House on builder Bale Barrett's property. Of course, she only plans to hide out until the weather improves, or until she finishes her own Tiny House project . . . But when Bale discovers her, rather than send the hapless designer packing, he offers her a place to stay and solid advice, on her thesis—and her life. Just as Molly feels like she's getting back on her feet, things start to fall apart, like her project, and her romantic illusions about her outrageously good-looking boss, Quinn. It's enough to make a girl wonder if by focusing on the trees, she's missing the forest . . . The House That Jane Built Tanya Lee Stone, 2015-06-23 This is the story of Jane Addams, the first American woman to receive the Nobel Peace Prize, who transformed a poor neighborhood in Chicago by opening up her house as a community center. Ever since she was a little girl, Jane Addams hoped to help people in need. She wanted to live right in the middle of the roughest, poorest communities and create a place where people could go to find food, work, and help. In 1889, she bought a house in a run-down Chicago neighborhood and turned it into a settlement home, adding on playgrounds, kindergartens, and a public bath. By 1907, Hull House included thirteen buildings. And by the early 1920s, more than 9,000 people visited Jane's home each week. An inspiration to all, Jane Addams continues to be a role model to girls and women of all ages. This title has Common Core connections.

The Suburban You Mark Falanga, 2004-09-21 You are about to discover that living in the suburbs is a whole lot funnier than you ever thought possible. For this country's 145,892,494 (give or take) suburbanites, Mark Falanga is an utterly deadpan (and thoroughly entertaining) spokesman. Mark Falanga is a slick urban dweller, at the top of his game professionally, with a gorgeous corporate executive wife and a hip coterie in the coolest neighborhood in the city. But when baby makes three, Mark and his family enter the twilight zone called the suburbs, where public schools are good, many wives stay home, and children ride their tricycles in the driveway. Nothing is the same ever again. With the dry wit of David Sedaris, and Dave Barry's love of the absurd, Falanga details his new, suburban landscape from the point of view of a bewildered but gung-ho everyman. From the complex political pecking order in the neighborhood, with its ultracompetitive block parties and its consuming holiday-card rivalry, to the surprises lurking on every corner—such as the twelve-year-old pyromaniac next door and the suspiciously broad-shouldered “lady” on the commuter train—The Suburban You describes in slyly understated prose the vicissitudes of life in the 'burbs.
