Starmel Allah

The True History of Allah and His 5% The Gods & Earths Who Were There!,2019-03-16 This book is based on the true history of Allah the Father and His great Nation of Gods and Earths known as the Five Percenters. This is the greatest story that was never told by the Gods and the Earths during their younger years with Allah the Father from the early 1960s up until the time of his assassination on June 13, 1969. This was a time of struggle for the Black Man, Woman, and Child (the Universal Family). This was the time of the Big Five, who were: Allah the Father, who brought about the Nation of Gods and Earths known as the Five Percenters; the Honorable Elijah Muhammad, who was the last and greatest messenger of Allah, also the leader and teacher of the Black Muslims; Malcolm X of the new arrival; Dr. Martin Luther King, Jr., the civil rights leader; and the Black Panther Party on the East and West coasts. These five groups were called the Big Five, because they had the attention of every Black Man, Woman, and Child in the wilderness of North America and other parts of our planet. There was a host of other Black groups as well. This was a time when the Five Percenter's teachings were being taught/spoken so plain and simple that even a child could understand. Black people were on the rise, and it was a time for a change—for Black Man, Woman, and Child to take their place on earth. Peace!

Five Percenter Rap Felicia M. Miyakawa,2005 Hip-hop evangelism--a compelling look at a rap subgroup that explores its musical, social, and political contexts.

The Five Percenters Michael Muhammad Knight,2013-10-01 From Malcolm X to the Wu Tang Clan, the first in-depth account of this fascinating black power movement With a cast of characters ranging from Malcolm X to 50 Cent, Knight's compelling work is the first detailed account of the movement inextricably linked with black empowerment, Islam, New York, and hip-hop. Whether discussing the stars of Five Percenter rap or 1980s crack empires, this fast-paced investigation uncovers the community's icons and heritage, and examines its growing influence in urban American youth culture.

Muslim Communities in North America Yvonne Yazbeck Haddad,Jane I. Smith,1994-01-01 This book provides a look at Muslim life and institutions forming in North America. It considers the range of Islamic life in North America with its different racial-ethnic and cultural identities, customs, and religious orientations. Issues of acculturation, ethnicity, orthodoxy, and the changing roles of women are brought into focus. The authors provide insight into the lives of recent immigrants who are asking what is Islamically appropriate in a non-Muslim environment. Contrasts are drawn between Sunni

and Shi'i groups, and attention is given to the activities of some Sufi organizations. The growing Islamic community among African-American Muslims is examined, including the followers of Warith Deen Muhammed and the sectarians identified with black power, such as the Nation of Islam, Darul Islam, and the Five Percenters. The authors document the challenges and issues that American Muslims face, such as prejudice and racism; pressure from overseas Muslims; dress and education; the influence of Islamic revivalism on the development of the community in this country; and the maintenance of Muslim identity amidst the pressure for assimilation.

The Supreme Understanding ,

The Culture Is I-God Book I & II Divine39 Allah,2016-11-22 It requires only a small book to explain the truth of science, history, law, psychology, sociology, mathematics, etc. However, it requires a very large book to cover up the truth of science and/or history by using Mythology, Theology, Isms, Race, and Fiction. The Black men, women, and children continue to be economic and social slaves, because of a lack of knowledge of history and science the world over. The Great Pyramids of Gaza was built by Khufu a great Asiatic builder who sees a Black man of Nile and his family. The fallen sons and daughters of the Asiatic Nations need to learn to love instead of hate and to know of their higher self and lower self. This is the uniting of the tribes and families, for teaching and instructing all families of the planet earth, and in the universe. Upon The Nature and Significance of the Culture of the Asiatics, The Book Culture is I-God has for its primary object the construction of a map of the history of the world from an Asiatic Blackman's perspective.

Multicultural America Carlos E. Cortés,2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U.S. Census data to examine multiculturalism today and tomorrow in America. This distinction is important considering the following NPR report by Eyder Peralta: Based on the first national numbers released by the Census Bureau, the AP reports that minorities account for 90 percent of the total U.S. growth since 2000, due to immigration and higher birth rates for Latinos. According to John Logan, a Brown University sociologist who has analyzed most of the census figures, The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations. Both non-Hispanic whites and blacks are getting older as a group. These groups are tending to fade out, he added. Another demographer, William H. Frey with the Brookings Institution, told The Washington Post that this has been a pivotal decade. We're pivoting from a white-black-dominated American population to one that is multiracial and multicultural. Multicultural America: A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today. Pedagogical elements include an introduction, a thematic reader's guide, a chronology of multicultural milestones, a glossary, a resource guide to key books, journals, and Internet sites, and an appendix of 2010 U.S. Census Data. Finally, the electronic version will be the

only reference work on this topic to augment written entries with multimedia for today's students, with 100 videos (with transcripts) from Getty Images and Video Vault, the Agence France Press, and Sky News, as reviewed by the media librarian of the Rutgers University Libraries, working in concert with the title's editors.

Why I Am a Five Percenter Michael Muhammad Knight, 2011-10-13 A thoughtful, insider view of The Five Percenters—a deeply complex and misunderstood community whose ideas and symbols influenced the rise of hip-hop. Misrepresented in the media as a black parallel to the Hell's Angels, portrayed as everything from a vicious street gang to quasi-Islamic revolutionaries, The Five Percenters are a movement that began as a breakaway sect from the Nation of Islam (NOI) in 1960s Harlem and went on to impact the formation of hip-hop. References to Five Percent language and ideas are found in the lyrics of wide-ranging artists, such as Nas, Rakim, the Wu-Tang Clan, and even Jay-Z. The Five Percenters are denounced by white America as racists, and orthodox Islam as heretics, for teaching that the black man is Allah. Michael Muhammad Knight (the Hunter S. Thompson of Islamic literature -The Guardian) has engaged this culture as both white and Muslim; and over the course of his relationship with The Five Percenters, his personal position changed from that of an outsider to an accepted participant with his own initiatory name (Azreal Wisdom). This has given him an intimate perch from which to understand and examine the controversial doctrines of this influential movement. In Why I Am a Five Percenter, Knight strips away years of sensationalism to offer a serious encounter with Five Percenter thought. Encoded within Five Percent culture is a profound critique of organized religion, from which the movement derives its name: Only Five Percent can act as poor righteous teachers against the evil Ten Percent, the power structure which uses religion to deceive the Eighty-Five Percent, the deaf, dumb, and blind masses. Questioning his own relationship to the Five Percent, Knight directly confronts the community's most difficult teachings. In Why I Am a Five Percenter, Knight not only illuminates a thought system that must appear bizarre to outsiders, but he also brilliantly dissects the very issues of insiders and outsiders, territory and ownership, as they relate to religion and privilege, and to our conditioned ideas about race.

After the Projects Lawrence J. Vale, 2019 America is in the midst of a rental housing affordability crisis. More than a quarter of those that rent their homes spend more than half of their income for housing, even as city leaders across the United States have been busily dismantling the nation's urban public housing projects. In After the Projects, Lawrence Vale investigates the deeply-rooted spatial politics of public housing development and redevelopment at a time when lower-income Americans face a desperate struggle to find affordable rental housing in many cities. Drawing on more than 200 interviews with public housing residents, real estate developers, and community leaders, Vale analyzes the different ways in which four major American cities implemented the federal government's HOPE VI program for public housing transformation, while also providing a national picture of this program. Some cities attempted to minimize the presence of the poorest residents in their new mixed-income communities, but other cities tried to serve as many low-income households as possible. Through

examining the social, political, and economic forces that underlie housing displacement, Vale develops the novel concept of governance constellations. He shows how the stars align differently in each city, depending on community pressures that have evolved in response to each city's past struggles with urban renewal. This allows disparate key players to gain prominence when implementing HOPE VI redevelopment. A much-needed comparative approach to the existing research on public housing, *After the Projects* shines a light on the broad variety of attitudes towards public housing redevelopment in American cities and identifies ways to achieve more equitable processes and outcomes for low-income Americans.

The Truth Behind Hip Hop ,

Roc the Mic Right H. Samy Alim, 2006-09-27 Complementing a burgeoning area of interest and academic study, *Roc the Mic Right* explores the central role of language within the Hip Hop Nation (HHN). With its status convincingly argued as the best means by which to read Hip Hop culture, H. Samy Alim then focuses on discursive practices, such as narrative sequencing and ciphers, or lyrical circles of rhymers. Often a marginalized phenomenon, the complexity and creativity of Hip Hop lyrical production is emphasised, whilst Alim works towards the creation of a schema by which to understand its aesthetic. Using his own ethnographic research, Alim shows how Hip Hop language could be used in an educational context and presents a new approach to the study of the language and culture of the Hip Hop Nation: 'Hiphopography'. The final section of the book, which includes real conversational narratives from Hip Hop artists such as The Wu-Tang Clan and Chuck D, focuses on direct engagement with the language. A highly accessible and lively work on the most studied and read about language variety in the United States, this book will appeal not only to language and linguistics researchers and students, but holds a genuine appeal to anyone interested in Hip Hop or Black African Language.

Esotericism in African American Religious Experience ,2014-11-06 In *Esotericism in African American Religious Experience: "There is a Mystery" ...*, Stephen C. Finley, Margarita Simon Guillory, and Hugh R. Page, Jr. assemble twenty groundbreaking essays that provide a rationale and parameters for Africana Esoteric Studies (AES): a new trans-disciplinary enterprise focused on the investigation of esoteric lore and practices in Africa and the African Diaspora. The goals of this new

field — while akin to those of Religious Studies, Africana Studies, and Western Esoteric Studies — are focused on the impulses that give rise to Africana Esoteric Traditions (AETs) and the ways in which they can be understood as loci where issues such as race, ethnicity, and identity are engaged; and in which identity, embodiment, resistance, and meaning are negotiated.

Islam through Objects Anna Bigelow, 2021-06-03 *Islam through Objects* represents the state of the field of Islamic material cultural studies. With contributions from scholars of religion, anthropologists, art historians, folklorists, historians, and other disciplines, Anna Bigelow brings together a wide range of perspectives on Islamic materiality to debunk myths of Islamic aversion to material aspects of religion. Each chapter focuses on a single object in daily use by Muslims—prayer beads, coins, amulets, a cistern well, clothing, jewellery, bodily and domestic adornments—to consider both generic and particular aspects of the object in question. These narratives will engage the reader by describing and analyzing each object in terms of its provenance, materials, uses, and history, as well as the broader history, variety and uses of the object in Islamic history and cultures. Temporal, regional, and sectarian variations in the styles, uses, and theological perspectives are also considered. Framed by an introduction that assesses the various approaches to Islamic material culture in recent scholarship, *Islam through Objects* provides a template for the study of religion and material culture, which engages current theory, subtle and nuanced narratives, and the creative and imaginal capacities of Muslims through history.

Black Star, Crescent Moon Sohail Daulatzai, 2012 Linking discontent and unrest in Harlem and Los Angeles to anticolonial revolution in Algeria, Egypt, and elsewhere, Black leaders in the United States have frequently looked to the anti-imperialist movements and antiracist rhetoric of the Muslim Third World for inspiration. Daulatzai maps the shared history between Black Muslims, Black radicals, and the Muslim Third World, showing how Black artists and activists imagined themselves not as national minorities but as part of a global majority, connected to larger communities of resistance. From publisher description.

Negropedia Patrice Evans, 2011-10-04 Patrice Evans is The Assimilated Negro, a hyperobservant, savagely pop-savvy instigator bent on pranking the crap out of our modern racial discourse. Since the debut of his popular “Ghetto Pass” column for Gawker.com, Evans has been the rare voice capable of speaking to junkies for both White Castle and Colson Whitehead with equal insight and aplomb. His first book, Negropedia, is a wide-ranging, deeply idiosyncratic tour through the tricky racial landscape of the Obama era, aimed at pop-culture consumers at the intersecting fan bases of South Park and Chappelle’s Show, Scott Pilgrim and The Boondocks. Whether deconstructing Lil Wayne’s “no homo hypocrisy,” outlining the all-important Clair Huxtable code for finding a mate, or assessing Susan Sontag’s street cred, Evans provides a stream of daring outsider anthropology.
