**Manual de Relaciones Públicas e Institucionales (3ra edición)** Antonio Ezequiel Di Génova,2024-11-01 Esta nueva edición revisada y ampliada del Manual de Relaciones Públicas e Institucionales de Antonio Ezequiel Di Génova, la tercera, contiene la necesaria actualización de los temas abordados en las dos ediciones anteriores; teniendo en cuenta, por un lado, la dinámica y constante evolución en el ejercicio profesional y por el otro, de los nuevos enfoques teóricos y nuevas técnicas de comunicación y relacionamiento que se visualizan a nivel internacional. Este Manual, en sus dos ediciones anteriores, se ha transformado en un libro referencial para profesionales y estudiantes de relaciones públicas y comunicación de habla hispana. El impresionante éxito editorial solo puede alcanzarse en virtud de las numerosas recomendaciones que generosamente los especialistas en comunicación institucional y corporativa realizan a diario. Esta obra es ideal para lectores que buscan material de estudio y análisis estratégico de la función actual de las Relaciones Públicas y al mismo tiempo, necesitan contar con una visión moderna de las herramientas clásicas de gestión y con las de última generación.

*Manual de Relaciones Públicas e Institucionales* Jordi Xifra,2014-09-04 Este manual presenta un amplio y completo recorrido por el territorio de las relaciones públicas en general y de las relaciones institucionales en particular, siendo el primer manual sobre esta última materia que se publica en lengua española. Todas las organizaciones tienen la obligación vital de comunicarse con los públicos que conforman su entorno. Si no lo hacen, no existen. Entre estos públicos adquieren cada vez más importancia los poderes públicos. Ahora bien, no se trata solo de que su entorno las conozca a través de la publicidad, sino también de influir en él para que las entienda, para que comparta sus intereses, para que se adhiera a sus causas, para que las defienda si es necesario y para que, llegado el caso, las perdone. Es decir, las organizaciones deben tener una sólida reputación que, una vez creada, debe mantenerse. Las relaciones públicas e institucionales son las estrategias centrales de la gestión del riesgo reputacional. La obra abarca el proceso estratégico de dirección de relaciones públicas e institucionales, incidiendo en todas sus etapas -investigación, metas y objetivos, estrategia y evaluación- y de manera especial en las técnicas que deben utilizarse en cada momento. Aunque se han eludido los debates teóricos en aras a una explicación clara y sistemática, el libro se inicia con la exposición de los fundamentos conceptuales, históricos y teóricos de la disciplina.

Therefore, it is essential to determine how the efficacy of research can be enhanced at various levels, especially at the academic level. Of primary relevance in this is research connected to communication, both human-to-human and through media, and interactions with information sources. understood. **The Routledge Handbook of Critical Public Relations** Jacquie L'Etang,David McKie,Nancy Snow,Jordi Xifra,2015-08-11 Critical theory has a long history, but a relatively recent intersection with public relations. This ground-breaking collection engages with commonalities and differences in the traditions, whilst encouraging plural perspectives in the contemporary public relations field. Compiled by a high-profile and widely respected team of academics and bringing together other key scholars from this field and beyond, this unique international collection marks a major stage in the evolution of critical public relations. It will increasingly influence how critical theory informs public relations and communication. The collection takes stock of the emergence of critical public relations alongside diverse theoretical traditions, critiques and actions, methodologies and future implications. This makes it an essential reference for public relations researchers, educators and students around a world that is becoming more critical in the face of growing inequality and environmental challenges. The volume is also of interest to scholars in advertising, branding, communication, consumer studies, cultural studies, marketing, media studies, political communication and sociology.

International Public Relations Ian Somerville,Owen Hargie,Maureen Taylor,Margalit Toledano,2016-08-12 International Public Relations: Perspectives from deeply divided societies is positioned at the intersection of public relations (PR) practice with socio-political environments in divided, conflict and post-conflict societies. While most studies of PR focus on the activity

as it is practiced within stable democratic societies, this book explores perspectives from contexts that have tended to be marginalized or uncharted. Presenting research from a diverse range of societies still deeply divided along racial, ethnic, religious or linguistic lines, this collection engages with a variety of questions including how PR practice in these societies may contribute to our understanding of PR theory building. Importantly, it highlights the role of communication strategies for actors that still deploy political violence to achieve their goals, as well as those that use it in building peace, resolving conflict, and assisting in the development of civil society. Featuring a uniquely wide range of original empirical research, including studies from Israel/Palestine, Mozambique, Northern Ireland, former Yugoslavia, former Czechoslovakia, Spain, Malaysia and Turkey, this groundbreaking book will be of interest not only to scholars of public relations, but also political communication, international relations, and peace and conflict studies. With a Foreword by Krishnamurthy Sriramesh, Editor of The Global Public Relations Handbook

La gestión estratégica de las relaciones públicas en organizaciones sociales Ma del Mar Soria Ibáñez, 2017-12-21 Esta obra hace un recorrido por la aplicación de la disciplina y la práctica profesional de las relaciones públicas en organizaciones sociales. Los cambios económicos, políticos y sociológicos experimentados en España en los últimos años han provocado que los movimientos ciudadanos adquieran una mayor relevancia en el espacio público. La crisis, convertida en una oportunidad, es una base para que entidades no lucrativas vean en la gestión estratégica de la comunicación una eficaz herramienta para fortalecer vínculos con su base social. Y, por supuesto, la aplicación práctica de la web 2.0 es imprescindible también en este nuevo camino organizacional.

**Manual de relaciones públicas empresariales e institucionales** José Daniel Barquero Cabrero, 1999

*Public Relations as a Creative Industry* Elisenda Estanyol, 2022-09-02 This shortform book defines and situates the role of Public Relations as a creative industry and discusses the trends and issues that the sector is facing within the wider context of the Creative Industries. Traversing and distilling both industry and scholarly research, the author will call on perspectives from a range of areas, including creativity, psychology, advertising, and marketing. Creativity and innovation are crucial elements in times of profound transformation such as those being experienced nowadays by the PR industry. The ability to generate new ideas is a competitive advantage of organizations. Nevertheless, although traditionally the focus has been on individual creativity, this book highlights the importance of organizational creativity in PR, becoming a result of teamwork and social interaction. This book will be a valuable resource for researchers and scholars looking at how creativity is an important asset in Public Relations. It will also be useful for students of Corporate Communication and Public Relations studies, for both undergraduate and postgraduate programs and PR practitioners who want to increase their creativity, learning from creative techniques and case studies.

Casos de estudio de relaciones públicas Kathy Matilla Serrano, 2016-12-22 El libro pivota sobre el tema común de la sociedad conectada que caracteriza las dos primeras décadas del siglo XXI y que no cabe duda que está modificando radical y dramáticamente nuestra realidad, sea cual sea la faceta desde la que la vivamos y, por lo tanto, la construyamos. No era objetivo de este título reflexionar sobre la disruptión tecnológica, ni sobre sus causas, ni sobre sus efectos. La literatura específica sobre este tema ha sido abundantísima en las últimas décadas y todo augura que lo seguirá siendo los próximos años. Más bien pretendíamos introducir una nueva mirada, desde la perspectiva de la asunción de los hechos. Las

tecnologías de la información han provocado un profundo cambio de paradigma que afecta la línea de flotación de la comunicación y, por lo tanto, también de las relaciones públicas. Nos interesaba conocer algunos casos en los que la conexión entre organizaciones y públicos -la sociedad conectada- orientase las investigaciones de los académicos incorporados a este proyecto editorial, desde la perspectiva del área de conocimiento de las relaciones públicas
