The Poetry of the Americas Harris Feinsod, 2017-09-08 The Poetry of the Americas offers a lively and detailed history of relations among poets in the US and Latin America, spanning three decades from the Good Neighbor diplomacy of World War II through the Cold War cultural policies of the late 1960s. Connecting works by Martín Adán, Elizabeth Bishop, Paul Blackburn, Jorge Luis Borges, Julia de Burgos, Ernesto Cardenal, Jorge Carrera Andrade, Allen Ginsberg, Langston Hughes, José Lezama Lima, Pablo Neruda, Charles Olson, Octavio Paz, Heberto Padilla, Wallace Stevens, Derek Walcott, William Carlos Williams, and many others, Feinsod reveals how poets of many nations imagined a poetry of the Americas that linked multiple cultures, even as it reflected the inequities of the inter-American political system. This account offers a rich contextual study of the state-sponsored institutions and the countercultural networks that sustained this poetry, from Nelson Rockefeller's Office of the Coordinator for Inter-American Affairs to the mid-1960s avant-garde scene in Mexico City. This innovative literary-historical project enables new readings of such canonical poems as Stevens's Notes Toward a Supreme Fiction and Neruda's The Heights of Macchu Picchu, but it positions these alongside lesser known poetry, translations, anthologies, literary journals and private correspondences culled from library archives across the Americas. The Poetry of the Americas thus broadens the horizons of reception and mutual influence--and of formal, historical, and political possibility--through which we encounter midcentury American poetry, recasting traditional categories of U.S. or Latin American literature within a truly hemispheric vision.

Brazil, Lyric, and the Americas Charles A. Perrone, 2017-03-15 This is Perrone at his most brilliant. Erudite but accessible, thorough but playful: Brazil, Lyric, and the Americas is the latest contribution by the most knowledgeable U.S.-based scholar of the Brazilian lyric.--Severino Joao Albuquerque, University of Wisconsin Perrone retraces the dialogue of the Brazilian lyric with the poetry of the Americas in the generous spirit that the poets' utopia of solidarity will serve as a counterpoint to the harsher side of globalization.--Luiza Moreira, Binghamton University In this highly original volume,

Charles Perrone explores how recent Brazilian lyric engages with its counterparts throughout the Western Hemisphere in an increasingly globalized world. This pioneering, tour-de-force study focuses on the years from 1985 to the present and examines poetic output--from song and visual poetry to discursive verse--across a range of media. At the core of Perrone's work are in-depth examinations of five phenomena: the use of the English language and the reception of American poetry in Brazil; representations and engagements with U.S. culture, especially with respect to film and popular music; epic poems of hemispheric solidarity; contemporary dialogues between Brazilian and Spanish American poets; and the innovative musical, lyrical, and commercially successful work that evolved from the 1960s movement Tropicalia.

Jesuit Accounts of the Colonial Americas Marc André Bernier, Clorinda Donato, Hans-Jürgen Lüsebrink, 2014-09-17 In recent years scholars have turned their attention to the rich experience of the Jesuits in France and Spain's American colonies. That attention has brought a flow of new editions and translations of Jesuit accounts of the Americas; it is now time for a study that examines the full range of that work in a comparative perspective. *Jesuit Accounts of the Colonial Americas* offers the first comprehensive examination of such writings and the role they played in solidifying images of the Americas. The collection also provides a much-needed re-examination of the work of the Jesuits in relation to Enlightenment ideals and the modern social sciences and humanities – two systems of thought that have in the past appeared radically opposed, but which are brought together here under the rubric of modern ethnographic knowledge. Linking Jesuit texts, the rhetorical tradition, and the newly emerging anthropology of the Enlightenment, this collection traverses the vast expanses of Old and New World France and Spain in fascinating new ways.

Las lenguas de las Américas - the Languages of the Americas Paul Danler, Jannis Harjus, 2022-05-10 *Las lenguas de las Américas - the Languages of the Americas* takes the reader on a journey through twenty chapters addressing the languages of the Americas all the way from Canada and the USA to Argentina and Brazil. The authors are international experts who have written mainly in Spanish and English, but in a few cases also in French, Portuguese and German. The book deals with the languages of the descendants of the first Americans; it gives an insight into the American varieties of English, French, Portuguese and Spanish; it explores the outcome of the long-lasting coexistence of various autochthonous and European languages; it also looks into some very specific hybrid forms of locally or regionally unique varieties in the Americas, focusing on creolization, code-switching and translanguaging resulting from language contact. The languages and linguistic varieties dealt with in this book are numerous and so are the approaches and methods applied; most are mainly synchronic, but some are also diachronic. All in all, the book has managed to draw a succinct and representative portrait of

the multifaceted linguistic landscapes of the Americas.

Literatura femenina de España y las Américas Ana María Fagundo,1995 En este volumen, la poeta y crítica Ana María Fagundo, recopila una serie de artículos sobre escritoras españolas, latinoamericanas y estadounidenses, publicados en diferentes revistas especializadas. Los estudios sobre cada autora son, fundamentalmente, panorámicos y se centran en el análisis de los textos. Se dan cita nombres de reconocidas voces femeninas de los siglos XIX y XX como Emily Dickinson y Carmen Martín Gaité junto a otros de menor proyección pero de valiosa obra, como Elena Soriano, Olga Orozco, Alejandra Pizarnik, Concha Zardoya, Elena Andrés, Ana Diosdado y Paloma Pedrero.

Diásporas chinas a las Américas Eugenio Chang-Rodríguez,2015-09-01 Estudio sobre la cultura china y la contribución de los migrantes y sus descendientes a las naciones en las que se asentaron. Este es un volumen fundamental para los interesados en familiarizarse con el estado actual de los desplazamientos humanos y sus contribuciones económicas y culturales. La segunda ola migratoria china al Perú comenzó en 1849. El 90% de los aproximadamente 90 000 culíes contratados para el Perú trabajaron en las haciendas azucareras, algodoneras y arroceras; y los demás, en la extracción del guano, en la construcción de vías férreas y en diversos trabajos públicos. Así como se asentaron en Perú, también lo hicieron en diferentes países de América y el Caribe. ¿Cuál fue la historia de los culíes en cada uno de esos países? Eugenio Chang-Rodríguez nos la cuenta en este fascinante volumen. Diásporas chinas a las Américas contiene las investigaciones realizadas por el autor junto con prolongados viajes de estudio por las diferentes regiones de la República Popular China. Los manuscritos, entrevistas, libros, revistas, películas, videos y demás materiales citados complementan los diálogos del autor con sinólogos y ancianos conocedores y practicantes de las enseñanzas de Confucio, Lao Tse y Buda, transmitidas de padres a hijos y esenciales a su manera de ser y comportamiento.
