Oltre il disagio. Il lavoro educativo tra scuola, famiglia ed esperienze di comunità Gennaro Pagano ,Fausta Sabatano,2020-04-09 L'impegno educativo nell'ambito del disagio, della marginalità, della devianza, richiede un'identità teorica forte che in qualche modo faccia da bussola per aiutare l'educatore a navigare le «agitate acque» dell'emergenza sociale. Un'intenzionalità pedagogica che deve esprimersi in un movimento continuo di andata e ritorno tra teoria e prassi, affinché quest'ultima non cada nell'improvvisazione, nell'estemporaneo, nel casuale, o in una forma più o meno esplicita di buon senso, e la riflessione teorica non divenga fine a se stessa, perdendosi nell'astrazione. Il Metodo Integra nasce da un'attività di continua autoriflessione e condivisione di pratiche educative, dal dialogo costante tra teoria e prassi, a valle di anni di lavoro in contesti di particolare difficoltà. Una difficoltà legata alla carenza del tessuto sociale che rende una storia difficile enormemente più difficile, proprio perché il contesto non sostiene la difficoltà: il bambino con difficoltà spesso vive in una famiglia difficile, in un quartiere difficile, in una città difficile, in una Regione difficile. Educare in queste situazioni significa riuscire ad incarnare le teorie e orientare le pratiche nel confronto con questo quotidiano, con questi bambini e ragazzi, non smettendo mai di immaginare con loro e per loro un'altrimenti e un'altrove.

La scelta dell'inclusione. Progettare l'educazione in contesti di disagio sociale Fausta Sabatano, 2020-05-08 La scelta dell'inclusione parte da un coinvolgimento personale. Scegliere di includere vuol dire, prima di ogni cosa, scegliere di includersi, di mettersi in discussione, di ripercorrere la propria storia, di lavorare sulle proprie emozioni, sulla consapevolezza dei propri punti di forza e di debolezza. La scelta di includere è relativa all'includere l'altro come egli è, senza investirlo e caricarlo di aspettative proprie, ma impegnandosi a fornirgli gli strumenti necessari affinché un giorno sia lui a poter scegliere chi e come essere. La scelta di includere è prima di tutto una scelta etica, ed è proprio dalla dimensione etica, ossia dalla volontà di restituire alla nostra società l'integrità che perde ogniqualvolta una persona resta esclusa, che scaturisce la seconda dimensione, quella culturale e scientifica. La scienza, in particolare quella pedagogica, ponendosi al servizio dei processi di inclusione nei contesti reali, esprime la sua natura di scienza sociale, empirica e pratica, oltre che eidetica, che si alimenta nel confronto diretto con le esperienze e i contesti reali di cui si interessa. Questo volume intende, dunque, offrire spunti di riflessione teorico-metodologici e strumenti per progettare e gestire un servizio educativo in condizioni di difficoltà, a partire da un'esperienza concreta, dalla sua genesi e dal suo sviluppo. In tal senso, si descrive quanto è stato realizzato in oltre dieci anni di attività di ricerca, di formazione e di educazione con bambini e genitori che vivono situazioni di devianza e rischio sociale.

Manuale di metodologia operativa per gli operatori dei Servizi Sociali Luigi Buffone, 2012-10-21 Il volume vuole offrire agli insegnanti, agli studenti del corso di qualifica d'Operatore dei servizi sociali, a tutti coloro i quali si accingono a "lavorare" nel campo socio-assistenziale, un valido strumento operativo da poter utilizzare per costruire la propria professionalità e comprendere i diversi metodi per poter programmare ed organizzare le attività di lavoro. Questo volume unico tratta differenti argomenti con concetti semplici e chiari per permettere a chi legge di comprendere i reali obiettivi che ci si prefigge di raggiungere nel corso di qualifica per gli operatori dei servizi sociali. La disciplina - Metodologie operative dei servizi sociali - ha l'obiettivo di far acquisire al futuro operatore competenze a: livello teorico-culturale: capacità di lettura critica delle situazioni problematiche e dei bisogni degli utenti, capacità di pianificare, progettare interventi per la soluzione dei problemi; conoscenze teoriche su: utenti (anziani, disabili, bambini, tossicodipendenti, alcolisti, malati mentali ecc.), malattie croniche invalidanti, malattie ricorrenti nella prima infanzia, alimentazione, servizi socio-assistenziali presenti sul territorio, normativa esistente in campo socio-assistenziale, figure professionali dei servizi sociali; livello tecnico-pratico: abilità tecniche di osservazione, abilità tecniche di comunicazione e rapporti interpersonali, abilità ludiche e d'animazione, capacità operativa guidata e acquisizione della capacità professionale. Ho tentato di illustrare nel presente volume il duplice livello del percorso formativo, cosciente dell'importanza di poter mettere a disposizione uno strumento capace di creare curiosità e desiderio di approfondimento, di riflessione, non trascurando l'esigenza di un ricorrente processo di integrazione

e di sintesi fra le distinte materie di studio. Esprimo simpatia e gratitudine a tutti coloro che hanno cooperato alla elaborazione del testo.

Dimensioni della didattica. Tra riflessione e progettualità Renza Cerri Musso,2002 Questo volume intende offrire alcune coordinate specifiche per una lettura più puntuale sistematicamente strutturata della questione educativa. Ciò attraverso il tentativo di orientare alla costante interazione del momento operativo con quello riflessivo, di soffermarsi su spazi finora poco attraversati con sguardo didattico, di collegare la ricerca pedagogico/didattica con la complessità di dati e interpretazioni prodotti dalle altre scienza dell'educazione, di proporre alcune contaminazioni metodologiche in contesti inconsueti. Sempre tenendo ferma l'attenzione sulla dinamica di relazione fra gli attori del processo formativo.
