Neural Information Processing Haiqin Yang, Kitsuchart Pasupa, Andrew Chi-Sing Leung, James T. Kwok, Jonathan H. Chan, Irwin King, 2020-11-18 The two-volume set CCIS 1332 and 1333 constitutes thoroughly refereed contributions presented at the 27th International Conference on Neural Information Processing, ICONIP 2020, held in Bangkok, Thailand, in November 2020.* For ICONIP 2020 a total of 378 papers was carefully reviewed and selected for publication out of 618 submissions. The 191 papers included in this volume set were organized in topical sections as follows: data mining; healthcare analytics-improving healthcare outcomes using big data analytics; human activity recognition; image processing and computer vision; natural language processing; recommender systems; the 13th international workshop on artificial intelligence and cybersecurity; computational intelligence; machine learning; neural network models; robotics and control; and time series analysis. * The conference was held virtually due to the COVID-19 pandemic.

Service-Oriented Computing Sami Yangui, Ismael Bouassida Rodriguez, Khalil Drira, Zahir Tari, 2019-10-25 This book constitutes the proceedings of the 17th International Conference on Service-Oriented Computing, ICSOC 2019, held in Toulouse, France, in October 2019. The 28 full and 12 short papers presented together with 7 poster and 2 invited papers in this volume were carefully reviewed and selected from 181 submissions. The papers have been organized in the following topical sections: Service Engineering; Run-time Service Operations and Management; Services and Data; Services in the Cloud; Services on the Internet of Things; Services in Organizations, Business and Society; and Services at the Edge.

Investing in Low-Carbon Energy Systems Venkatachalam Anbumozhi, Kaliappa Kalirajan, Fukunari Kimura, Xianbin Yao, 2016-09-22 This book focuses on multi-level actions that have attracted considerable interest and discussion within academia, decision makers and the public as a tool to assess anthropogenic effects of low-carbon energy development. The book begins with an overview of the state of the art policies in emerging economies, which provides a starting point for understanding the concept of low-carbon green growth. A unified framework for structuring, categorizing, and integrating various regional-level actions is established on the basis of a thorough investigation into the theoretical and methodological aspects of non-conventional energy policies that have been widely adopted. Furthermore, the book brings clarity to the relationship between clean energy policies and stakeholder participation, and the significance of coordinated actions at the regional level. The findings provide novel insights and policy tools to help decision-makers in identifying ways to mobilize

private investment in low-carbon energy systems.

Management: A Focus on Leaders Annie McKee, Travis Kemp, Gordon Spence, 2012-11-01 A new view of the four functions of Management: through the lens of leadership The pace and scope of change in the world and organisations during the past 10 years is unprecedented. In this environment, staying ahead of the curve and preparing for success in work, management and leadership is challenging. Amidst the financial crises, catastrophic disasters, and business scandals frequently making headlines, Annie McKee and the Australian authors of this new text Management: a Focus on Leaders, believe there is a unique opportunity to re-focus the way students are prepared for their future in business. Show future managers how to lead in a complex, yet exciting, global environment With an engaging writing style and an outcome-driven approach, Annie McKee and Australian authors Travis Kemp and Gordon Spence directly address the many behavioural, social, cognitive and emotional challenges beyond the four functions of management. Management features exciting Australasian and global case studies and easy, student-friendly teaching tools. Unique Decision Making mini-simulations using adaptive technology allow students to make management decisions and see the impact of their decisions.

Emissions Trading Schemes under International Economic Law James Munro, 2018-08-09 The announcement by China that it will implement a national emissions trading scheme confirms the status of this instrument as the pre-eminent policy choice for mitigating climate change. China will join the dozens of existing and emerging schemes around the world - from the EU to California, South Korea to New Zealand - that use carbon units (otherwise known as emissions permits or carbon credits) to trade in greenhouse gas emissions in a multi-billion dollar global carbon market. However, to date, there has been no consensus about this pre-eminent policy instrument being regulated by international economic law through the World Trade Organization, international investment agreements, and free trade agreements. Munro addresses this issue by evaluating whether carbon units qualify as 'goods', 'services', 'financial services', and 'investments' under international economic law and showing how international economic law applies to emissions trading scheme in diverse and unexpected ways. Further, by engaging in a comparative assessment of schemes around the world, his book illustrates how and why all emissions trading schemes engage in various forms of violations of international economic law which would not, in most instances, be justified by environmental or other exceptions. In doing so, he demonstrates how such schemes can be designed or reformed in ways to ensure their future compliance.

Monthly Catalog of United States Government Publications, 1988

Energy Efficiency Fereidoon Sioshansi, 2013-02-14 Energy Efficiency: Towards the End of Demand Growth is a detailed guide to new energy efficiency technologies and policy frameworks affecting the profitability of efficiency projects. The contributions drawn together by F.P. Sioshansi feature insights from recognized thought leaders, detailed examinations of evolving technologies, and practical case studies yielding best practices for project planners, implementers and financiers.

This volume challenges the more is better paradigm in energy production, examining efficiency technologies and measurement across the supply chain. - Comparative financial analysis of efficiency vs. increased generation - Case studies from four continents highlight the examples of successful technologies and projects - Explains how existing and developing regulatory frameworks impact cost and implementation

Zero-Waste Atiq Zaman,Tahmina Ahsan,2019-12-06 This book analyses 'zero-waste' (ZW) as an emerging waste management strategy for the future, which considers waste prevention through innovative design and sustainable consumption practices. Drawing on a diverse range of case studies from Australia, Bangladesh, Japan, New Zealand, Sweden, and the USA, this book explores why urban waste management systems still remain a major challenge for almost all cities around the world. Rejecting waste as an 'end-of-life' problem, Atiq Zaman and Tahmina Ahsan instead consider waste prevention through the ZW model, in which resources are utilized and consumed with minimum environmental degradation. In addition, the authors give extended discussion on why embracing the ZW concept will be beneficial for the circular economy (CE). Providing a strategic zero-waste framework and an evaluation tool to measure waste management performance aimed towards ZW goals, this book will be of great relevance to students, scholars, and policymakers with an interest in waste management, sustainable consumption, urban planning, and sustainable development.

Nuclear Science Abstracts ,1964

Nordic Edge Andrew Scott,Rod Campbell,2021-07-02 Climate and energy. Work/life balance. Mining taxes. Progress on policy issues like these is essential, and yet they have become subject to the most rancorous partisanship, the precipitation of culture wars, and have brought down governments. It is impossible to make any progress without major political upheaval. Or so it seems in Australia. Yet Nordic countries have taken a 'ja, we can' approach to these and other issues such as independent foreign policy, prison reform, gender equality, retraining for workforce participation and media diversity. Their experience shows that progress in these areas is not only possible, but can be achieved while increasing prosperity and community wellbeing. The Nordic Edge explores policies adopted by Sweden, Finland, Denmark, Norway and Iceland and the exciting possibilities they provide to overcome Australia's seemingly intractable problems. Leading Australian and Nordic thinkers and policy practitioners, including Sweden's recent Foreign Minister, outline proven approaches to help Australia become a fairer, happier, wealthier and more environmentally responsible country. Re-enter Australia's policy debates with optimism, new ideas and a Nordic edge. Contributors: Professor Andrew Scott; Rod Campbell; Dr Richard Denniss; Matt Grudnoff; Tom Swann; former Swedish Foreign Minister Margot Wallström; Dr Lenita Freidenvall; Professor Marian Sawyer; James Fleming; Richie Merzian; Dan Cass; Audrey Quicke; Ebony Bennett; Dr Maria Rae; and Associate Professor Anna Eriksson, with a foreword by Ben Oquist.

Thorium Ronald Legarski,Yash Patel,Zoltan Csernus,2025-05-19 Thorium: Its Isotopes, Reaction Rates, and Fuel

Creation Methods is an in-depth technical and scientific guide to the nuclear fuel of the future—Thorium. Designed to serve as both a foundational reference and an applied engineering manual, this book explores the core principles, mathematical models, and real-world methods necessary to understand and implement Thorium-based nuclear energy. Beginning with the discovery and natural occurrence of Thorium, the book covers its isotopic properties, neutron behavior, decay chains, and conversion into Uranium-233. Readers are guided through advanced topics such as fuel cycle kinetics, reactor burnup, fabrication techniques, and integration into Small Modular Reactors (SMRs) and hybrid systems. From molten salt technologies to MOX fuels and energy transfer modeling, the book offers a clear path from atomic-level theory to full-scale energy applications. This work is co-authored by three leaders at the intersection of nuclear physics, engineering, and energy systems infrastructure. Drawing from decades of combined expertise, the authors provide a rare and comprehensive perspective that unifies nuclear science, material science, cybersecurity, and telecommunications into one cohesive vision for a sustainable nuclear future. Whether you're an advanced student, reactor engineer, energy researcher, or policymaker, this book delivers the insights, equations, and strategies needed to advance the future of clean nuclear power.

Federal Register ,1987-02

Low-rank Coals for Power Generation, Fuel and Chemical Production Zhongyang Luo,Michalis Agraniotis,2017-06-22

Low-Rank Coals for Power Generation, Fuel and Chemical Production provides a thorough introduction to lignite (brown coal) and subbituminous coals and explores how they can be used efficiently and economically in place of hard coal. The book examines the undesirable characteristics of low-quality coals, such as high moisture content, low calorific value, and aggressive ash characteristics, and the resulting refinements to standard technologies and practices required for successful combustion, gasification, and pyrolysis. The first part of this book provides a comprehensive and systematic review of the properties of low-rank coals and corresponding preparation methods, such as drying, cleaning, and upgrading. Power generation from low-rank coals is the focus of Part 2, with chapter topics ranging from high efficiency pulverized coal combustion and circulating fluidized bed combustion to emerging areas such as chemical looping and oxyfuel combustion. The final contributions address the important subjects of coal-to-liquids, polygeneration and coke production using low-rank coals, as well as the critical issue of carbon capture and storage. This book is a valuable resource for power generation engineers and researchers seeking to maximize the opportunities provided by these cheaper coal feedstocks for efficient and environmentally compatible power generation. - Presents the most in-depth treatment of low-rank coals available - Addresses both power generation and fuel production - Includes coverage that spans pulverized coal combustion and emerging technologies, such as CFBC, UCG, CLC, and oxyfuel combustion

The Far East and Australasia 2003 Europa Publications,2002 A unique survey of each country in the region. It includes an extensive collection of facts, statistics, analysis and directory information in one accessible volume.

Designing with Solar Power Deo Prasad, Mark Snow, 2014-04-23 Designing with Solar Power is the result of international collaborative research and development work carried out within the framework of the International Energy Agency's Photovoltaic Power Systems Programme (PVPS) and performed within its Task 7 on 'Photovoltaic power systems in the built environment'. Each chapter of this precisely detailed and informative book has been prepared by an international expert in a specific area related to the development, use and application of building-integrated photovoltaics (BiPV). Chapters not only cover the basics of solar power and electrical concepts, but also investigate the ways in which photovoltaics can be integrated into the design and creation of buildings equipped for the demands of the 21st century. The potential for BiPV, in both buildings and other structures, is explored together with broader issues such as market deployment, and international marketing and government strategies. In addition, more than 20 contemporary international case studies describe in detail how building-integrated photovoltaics have been applied to new and existing buildings, and discuss the architectural and technical quality, and the success of various strategies. Packed with photographs and illustrations, this book is an invaluable companion for architects, builders, designers, engineers, students and all involved with the exciting possibilities of building-integrated photovoltaics.

Microeconomics Douglas McTaggart, Christopher Findlay, Michael Parkin, 2012-10-04 High quality, engaging content for students...ultimate flexibility for educators The seventh edition of this benchmark Australian text continues to offer students a comprehensive and relevant introduction to economics whilst offering educators the ability to customise and deliver content – your way. Microeconomics 7th edition provides a streamlined approach to study and recognises the difficulties some students may face in comprehending key concepts. By leaving the more technical content and application until later, students can enjoy the more exciting policy material from the beginning and engage with the content early. Through compelling examples, clear explanations and the latest instructive on-line resources, the text draws students into the content and reinforces learning through practice and solving problems which are relevant to them. The authors train students to think about issues in the way real economists do, and learn how to explore difficult policy problems and make more informed decisions by offering a clear introduction to theory and applying the concepts to today's events, news, and research.

APAIS, Australian Public Affairs Information Service, 1985 Vol. for 1963 includes section Current Australian serials; a subject list.

Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume, covering metals and minerals, contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information, plus a statistical summary.

Economics Douglas McTaggart, Christopher Findlay, Michael Parkin, 2015-05-20 High quality, engaging content for students...ultimate flexibility for educators The seventh edition of this benchmark Australian text continues to offer students

a comprehensive and relevant introduction to economics whilst offering educators the ability to customise and deliver content – your way. Energy Australia Price Fact Sheet Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Energy Australia Price Fact Sheet PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the

information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Energy Australia

Price Fact Sheet PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Energy Australia Price Fact Sheet free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Energy Australia Price Fact Sheet Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality?

Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Energy Australia Price Fact Sheet is one of the best book in our library for free trial. We provide copy of Energy Australia Price Fact Sheet in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Energy Australia Price Fact Sheet. Where to download Energy Australia Price Fact Sheet online for free? Are you looking for Energy Australia Price Fact Sheet PDF? This is definitely going to save you time and cash in something you should think about.
