Eastwood's Iwo Jima Anne Gjelsvik,Rikke Schubart,2013-06-25 With *Flags of Our Fathers* (2006) and *Letters from Iwo Jima* (2006), Clint Eastwood made a unique contribution to film history, being the first director to make two films about the same event. Eastwood's films examine the battle over Iwo Jima from two nations' perspectives, in two languages, and embody a passionate view on conflict, enemies, and heroes. Together these works tell the story behind one of history's most famous photographs, Leo Rosenthal's *Raising the Flag on Iwo Jima*. In this volume, international scholars in political science and film, literary, and cultural studies undertake multifaceted investigations into how Eastwood's diptych reflects war today. Fifteen essays explore the intersection among war films, American history, and Japanese patriotism. They present global attitudes toward war memories, icons, and heroism while offering new perspectives on cinema, photography, journalism, ethics, propaganda, war strategy, leadership, and the war on terror.

World War II on Film David Lührssen,2020-11-09 *World War II on Film* examines the war through the lens of 12 films. The movies selected include productions made during World War II and in each succeeding decade, providing a sense of how different generations perceive the war. *World War II on Film* provides a succinct yet well-grounded appraisal of that war as seen through 12 representative films. The book separates fact from fiction, showing where the movies were accurate and where they departed from reality, and places them in the larger context of historical and social events. Each movie chosen represents a particular aspect of the conflict, including the air war over Europe, the condition of prisoners of war, Nazi atrocities, and the British evacuation at Dunkirk. Unlike most histories of Hollywood during World War II or the genre of war movies, *World War II on Film* examines in depth the relation between the depictions of events, beliefs, attitudes, and ways of life as seen on film with reality as documented by historians or recorded by journalists or eyewitnesses to the war. The volume will appeal to high school and college readers, as well as general interest readers and film buffs.

War and the Media Paul M. Haridakis,Barbara S. Hugenberg,Stanley T. Wearden,2014-01-10 Mass communication is used by governments to support their war efforts while media images are created or manipulated to inform, persuade or guide the consumers of those images. But this book looks beyond the obvious. The contributors examine historical and

contemporary examples that reflect the role of the media or mass communication or both during wartime. The essays highlight the centrality of communication to the perpetuation and to the resolution of war, suggesting that the symbiotic relationship between communication and war is as important to understand as war itself.

History on Film/Film on History Robert A. Rosenstone, 2023-11-30 *History on Film/Film on History* has established itself as a classic treatise on the historical film and its role in bringing the past to life. In the fourth edition of this widely acclaimed text, Robert A. Rosenstone argues that to leave history films out of the discussion of the meaning of the past is to ignore a major means of understanding historical events. This book examines what history films convey about the past and how they convey it, demonstrating the need to learn how to read and understand this new visual world and integrating detailed analysis of films such as *Schindler's List*, *Glory*, *October*, and *Reds*. Advocating for the dramatic feature as a legitimate way of doing history, this edition includes a new Preface and a new chapter that focuses on films produced in Latin America, Africa, the Middle East, India, and East Asia. Examining the codes and conventions of how these films tell us about the past and providing guidance on how to effectively analyse films as historical interpretations, this book is an essential introduction to the field for students of history and film.

Divided Lenses Michael Berry, Chiho Sawada, 2017-12-31 *Divided Lenses: Screen Memories of War in East Asia* is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema. This period saw traumatic conflicts such as the Sino-Japanese War, the Pacific War, and the Korean War, and pivotal events such as the Rape of Nanjing, Pearl Harbor, the Battle of Iwo Jima, and the bombings of Hiroshima and Nagasaki, all of which left a lasting imprint on East Asia and the world. By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives, the book explores how the legacies of war have been reimagined through the lens of film. This turbulent era opened with the Mukden Incident of 1931, which signaled a new page in Japanese militaristic aggression in East Asia, and culminated with the Korean War (1950–1953), a protracted conflict that broke out in the wake of Japan's post-World War II withdrawal from Korea. *Divided Lenses* explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world. The essays in part I examine historical trends at work in various national cinemas, including China, Taiwan, Japan, Korea, and the United States. Those in part 2 focus on specific themes present in the cinema portraying this period—such as comfort women in Chinese film, the Nanjing Massacre, or nationalism—and how they have been depicted or renegotiated in contemporary films. Of particular interest are contributions drawing from other forms of screen culture, such as television and video games. *Divided Lenses* builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined, framed, and revisited through the lens of cinema and screen culture. It will interest later generations living in the shadow of these events, as well as students and scholars in the fields of cinema studies, cultural studies, cold war studies,

and World War II history.

Clint Eastwood Sara Anson Vaux Ph.D.,2014-09-26 Clint Eastwood—actor, director, composer, musician, and politician—is undeniably one of the most prolific and accomplished celebrities of the modern age. This book provides insights into Eastwood's life and entire career, from early television appearances to recent award-winning films. He established himself early in his acting career as the strong silent type and became known as the actor's director. In a career that spans seven decades, Eastwood's work has been influential for multiple generations of film audiences as well as actors, directors, and producers. This biography investigates the man who made his characters' lines such as Go ahead—make my day and Get off my lawn unforgettable, and shows why his movie roles and the films he directed are honored, studied, quoted, and remembered. The book describes everything from Eastwood's formative years and early days as a struggling actor to his family and personal life to his lifelong love of jazz music and his political leanings. The chapters describe not only his tremendous accomplishments and countless successes but also his notable failures—coverage that will intrigue readers interested in the film industry, in the acting craft, and in enduring popular cultural icons.

Aim for the Heart Howard Hughes,2009-07-30 Clint Eastwood is one of the world's most popular action stars, who has matured into a fine American producer-director. Entertaining, illuminating and packed with information, up to and including *The Changeling*, this is the first book to cover his full life in the movies, from his beginnings in 1950s B-movies and in TV's *Rawhide* to *Gran Torino* showing how as both actor and filmmaker Eastwood aims for the heart of the drama, whatever the story. Howard Hughes follows Eastwood's craft through over 50 movies. He looks at his launch into superstardom in Sergio Leone's 1960s spaghetti westerns. Back in America, he built on his success as western hero with such films as *High Plains Drifter* and *The Outlaw Josey Wales*, winning an Oscar for *Unforgiven* in 1992. He blasted his way through the seventies and eighties as Inspector Harry Francis Callahan, the last hope for law enforcement in San Francisco. He also monkeyed around in two phenomenally popular films with Clyde the orang-utan, which brought tough-guy Eastwood to a whole new audience and made him the biggest box office star of his generation. *Aim for the Heart* also looks at Eastwood's more unusual roles, including *The Beguiled*, *The Bridges of Madison County* and *Million Dollar Baby*. Since 1970, he has enjoyed parallel success as director-producer of his own Malpaso Productions, with *Bird*, *Mystic River* and *Letters from Iwo Jima*, demonstrating formidable directing credentials. *Aim for the Heart* covers all Eastwood's movies of many genres in detail, and Eastwood's story is illustrated with film stills, glimpses behind the scenes, and rare poster advertising material. *Aim for the Heart* also includes the most comprehensive credits filmography has ever compiled on Eastwood's work, as star and director.

The Enemy in Contemporary Film Martin Löschnigg,Marzena Sokołowska-Paryż,2018-08-21 Culture and conflict inevitably go hand in hand. The very idea of culture is marked by the notion of difference and by the creative, fraught

interaction between conflicting concepts and values. The same can be said of all key ideas in the study of culture, such as identity and diversity, memory and trauma, the translation of cultures and globalization, dislocation and emplacement, mediation and exclusion. This series publishes theoretically informed original scholarship from the fields of literary and cultural studies as well as media, visual, and film studies. It fosters an interdisciplinary dialogue on the multiple ways in which conflict supports and constrains the production of meaning, on how conflict is represented, how it relates to the past and projects the present, and how it frames scholarship within the humanities. Modernist America Richard Pells, 2011-03-29 America's global cultural impact is largely seen as one-sided, with critics claiming that it has undermined other countries' languages and traditions. But contrary to popular belief, the cultural relationship between the United States and the world has been reciprocal, says Richard Pells. The United States not only plays a large role in shaping international entertainment and tastes, it is also a consumer of foreign intellectual and artistic influences. Pells reveals how the American artists, novelists, composers, jazz musicians, and filmmakers who were part of the Modernist movement were greatly influenced by outside ideas and techniques. People across the globe found familiarities in American entertainment, resulting in a universal culture that has dominated the twentieth and twenty-first centuries and fulfilled the aim of the Modernist movement--to make the modern world seem more intelligible. Modernist America brilliantly explains why George Gershwin's music, Cole Porter's lyrics, Jackson Pollock's paintings, Bob Fosse's choreography, Marlon Brando's acting, and Orson Welles's storytelling were so influential, and why these and other artists and entertainers simultaneously represent both an American and a modern global culture.

Armed Forces Robert Eberwein, 2007-06-13 In war films, the portrayal of deep friendships between men is commonplace. Given the sexually anxious nature of the American imagination, such bonds are often interpreted as carrying a homoerotic subtext. In *Armed Forces*, Robert Eberwein argues that an expanded conception of masculinity and sexuality is necessary in order to understand more fully the intricacy of these intense and emotional human relationships. Drawing on a range of examples from silent films such as *What Price Glory* and *Wings* to sound era works like *The Deer Hunter*, *Platoon*,

Three Kings, and Pearl Harbor , he shows how close readings of war films, particularly in relation to their cultural contexts, demonstrate that depictions of heterosexual love, including those in romantic triangles, actually help to define and clarify the nonsexual nature of male love. The book also explores the problematic aspects of masculinity and sexuality when threatened by wounds, as in *The Best Years of Our Lives*, and considers the complex and persistent analogy between weapons and the male body, as in *Full Metal Jacket* and *Saving Private Ryan* .

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet,2020-12-16 *Combat Death in Contemporary American Culture: Popular Cultural Conceptions of War since World War II* explores how war has been portrayed in the United States since World War II, with a particular focus on an emotionally charged but rarely scrutinized topic: combat death. Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks: melodrama, adventure, and horror. Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable. Horror no longer serves its traditional purpose of making the bloody realities of war repulsive, but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure. Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination.

American Media and the Memory of World War II Debra Ramsay,2015-02-11 For three generations of Americans, World War II has been a touchstone for the understanding of conflict and of America's role in global affairs. But if World War II helped shape the perception of war for Americans, American media in turn shape the understanding and memory of World War II. Concentrating on key popular films, television series, and digital games from the last two decades, this book explores the critical influence World War II continues to exert on a generation of Americans born over thirty years after the conflict ended. It explains how the war was configured in the media of the wartime generation and how it came to be repurposed by their progeny, the Baby Boomers. In doing so, it identifies the framework underpinning the mediation of World War II memory in the current generation's media and develops a model that provides insight into the strategies of representation that shape the American perspective of war in general.

Race in American Film Daniel Bernardi,Michael Green,2017-07-07 This expansive three-volume set investigates racial representation in film, providing an authoritative cross-section of the most racially significant films, actors, directors, and movements in American cinematic history. Hollywood has always reflected current American cultural norms and ideas. As such, film provides a window into attitudes about race and ethnicity over the last century. This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject, examining aspects of race and ethnicity in American film through the historical context, themes, and people involved. This three-volume

set highlights the most important films and artists of the era, identifying films, actors, or characterizations that were considered racist, were tremendously popular or hugely influential, attempted to be progressive, or some combination thereof. Readers will not only learn basic information about each subject but also be able to contextualize it culturally, historically, and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity—and grasp how the subject is perceived now through the lens of history.

The Last and Greatest Battle John Bateson, 2015-01-02 Nearly every day an active-duty soldier in the United States military resorts to suicide, and nearly every hour a veteran does the same. In recent years the problem of military suicides has reached epidemic proportions, but it's all too easy for most of us to gloss over the headlines or tune out the details. In *The Last and Greatest Battle*--the first book devoted exclusively to the problem of military suicides--John Bateson brings this neglected crisis into the spotlight. Bateson, the former executive director of a nationally certified suicide prevention center, surveys the history of suicide in the United States military from the Civil War to the present day and outlines a plan to save lives and ultimately end the tragedy of military suicides. He uses the stories of individual soldiers to illuminate the unique challenges faced by American troops today. Transitioning from the front lines to the home front is difficult for many service members, and many need help both during and after their deployments. But even though the military is spending millions of dollars on suicide prevention programs, record numbers of soldiers continue to take their lives. To that end, Bateson outlines a plan of action. If the military works to remove stigma, to make treatment more effective and more accessible, and to limit risk factors for suicide in the first place by taking measures like reducing the number and length of deployments and adjusting pre-deployment training to take into account the way that wars are waged today, an end to the problem of military suicide is as possible as it is essential.

The Films of Clint Eastwood Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood, the great old man of American film, is still controversial after all these years. Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper*, a particularly controversial film and a devastating personal account of the horrors of war. Additional essays within the collection address his films that deserve more recognition than they have received to date. The chapters vary by topic and identify themes ranging from aging, race, and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work. As a collection, these essays show that none of these themes account for Eastwood's entire vision, which is multifaceted and often contradictory, dramatizing complex issues in powerful, character-driven narratives.

Screen Writings Bert Cardullo, 2010-03-01 'Screen Writings: Genres, Classics, and Aesthetics' offers close readings of genre films and acknowledged film classics in an attempt to explore both the aesthetics of genre and the definition of 'classic' - as well as the changing perception of so-called classic movies over time. Implicitly theoretical as much as it is unashamedly

practical, this book is a model not only of film analysis, but also of the enlightened deployment of cultural studies in the service of cinema study.

Social Life in the Movies James J. Dowd, 2020-10-27 Through an analysis of hundreds of Hollywood movies, this book examines some of the most contentious social issues of our time, including racism, social inequality, sexism, and gerontophobia. With studies of some of the most enduring film genres in Hollywood's history, including romantic films such as *Casablanca*, war movies from World War II through the Iraq and Afghanistan conflicts, alienation films, including *Five Easy Pieces* and *Lost in Translation*, the school movie, from *Goodbye, Mr. Chips* to other films set in academia, including *Dead Poets Society* and *Dangerous Minds*, the book outlines and demonstrates the sociological approach to viewing films and highlights the socially conservative nature of much Hollywood movie production, which draws on common stereotypes and reinforces dominant cultural values - but is also capable of challenging and serving to change them.

Clint Eastwood John H. Foote, 2008-12-30 Now a two-time Academy Award winner for best director, twice winner of the Directors Guild of America Award for best director, and recipient of countless other critics prizes and nominations in multiple capacities, Clint Eastwood stands alongside Martin Scorsese and Steven Spielberg as one of the finest directors working in modern cinema. Here, John Foote examines the long, impressive, and unlikely film career of a man who fought against expectations to forge his own way and become one of this generation's finest filmmakers. Each chapter examines a different film, beginning with *Play Misty for Me* (1971) and *High Plains Drifter* (1973) and extending to his 21st-century films *Space Cowboys* (2000), *Blood Work* (2002), *Mystic River* (2003), *Million Dollar Baby* (2004), *Flags of Our Fathers* (2006), *Letters from Iwo Jima* (2006), and *Changeling* (2008). This book is, in the author's own words, a study of how Eastwood managed to quietly get to this level—and a celebration of his gifts as an artist. Eastwood has evolved not only as a director, but also as an actor, a screenwriter, a producer, and a score composer, to become one of the most revered figures in Hollywood. Perhaps it is because he started out in Hollywood with such little influence on the final product that he now demonstrates such a strong desire to collaborate with others and provide help wherever he can. In addition to casting off his reputation as a hack and accumulating two Oscar nominations for Best Actor over the past 15 years, he has guided other actors to no less than three Academy Award wins. The executives love him because he has made them money over the years—occasionally even making one for them in exchange for financial backing on other projects. Critics love him because of the care he takes in creating his films. Audiences love him because he has never lost his sense of entertainment, even as his artistry has matured.
