Gabriel Garcia Marquez and the Powers of Fiction Julio Ortega, 2014-05-23 Together with the late Jorge Luis Borges, Gabriel García Márquez, the 1982 Nobel laureate, stands at the pinnacle of Latin American literature. His work, in the words of Julio Ortega, contains its own 'deconstructive' force—a literary power capable of reshaping natural order and rhetorical

tradition in order to 'carnivalize' the Borges' library and allow us to hear the voices—and the laughter—of a culture, that of Latin America. This reshaping force invites us to read the works of García Márquez in a new way, one that bypasses the traditional, inadequate approaches through Latin American politics, history, and magical realism. In *Gabriel García Márquez and the Powers of Fiction*, noted scholars Julio Ortega, Ricardo Gutiérrez Mouat, Michael Palencia-Roth, Aníbal González, and Gonzalo Díaz-Migoyo offer English-speaking readers a new approach to García Márquez's work. Their poststructuralist readings focus on the peculiar sign-system, formal configuration, intradiscursivity, and unfolding representation in the novels *One Hundred Years of Solitude*, *No One Writes to the Colonel*, *In Evil Hour*, *The Autumn of the Patriarch*, and *Chronicle of a Death Foretold* and in several of the author's short stories. Also included as an appendix is a translation of García Márquez's Nobel Prize acceptance speech, *The Solitude of Latin America*.

Unsettling Translation Mona Baker, 2022-05-30 This collection engages with translation and interpreting from a diverse

but complementary range of perspectives, in dialogue with the seminal work of Theo Hermans. A foundational figure in the field, Hermans's scholarly engagement with translation spans several key areas, including history of translation, metaphor, norms, ethics, ideology, methodology, and the critical reconceptualization of the positioning of the translator and of translation itself as a social and hermeneutic practice. Those he has mentored or inspired through his lectures and pioneering publications over the years are now household names in the field, with many represented in this volume. They come together here both to critically re-examine translation as a social, political and conceptual site of negotiation and to celebrate his contributions to the field. The volume opens with an extended introduction and personal tribute by the editor, which situates Hermans's work within the broader development of critical thinking about translation from the 1970s onward. This is followed by five parts, each addressing a theme that has been broadly taken up by Theo Hermans in his own work: translational epistemologies; historicizing translation; performing translation; centres and peripheries; and digital encounters. This is important reading for translation scholars, researchers and advanced students on courses covering key trends and theories in translation studies, and those engaging with the history of the discipline. Garner, Los Angeles Review of Books Updated to include more than a thousand new quotations, this reader-friendly volume contains over twelve thousand famous quotations, arranged alphabetically by author and sourced from literature, history, popular culture, sports, digital culture, science, politics, law, the social sciences, and all other aspects of human activity. Mario Vargas Llosa Raymond Leslie Williams, 2014-12-01 Awarded the Nobel Prize in 2010 at the age of seventy-four, Peruvian writer Mario Vargas Llosa has held pivotal roles in the evolution and revolutions of modern Latin American literature. Perhaps surprisingly, no complete history of Vargas Llosa's works, placed in biographical and historical context, has been published—until now. A masterwork from one of America's most revered scholars of Latin American fiction, Mario Vargas Llosa: A Life of Writing provides a critical overview of Vargas Llosa's numerous novels while reinvigorating debates regarding conventional interpretations of the work. Weaving analysis with discussions of the writer's political commentary, Raymond Leslie Williams traces the author's youthful identity as a leftist student of the 1960s to a repudiation of some of his earlier ideas beginning in the 1980s. Providing a unique perspective on the complexity, nuance, and scope of Vargas Llosa's lauded early novels and on his passionate support of indigenous populations in his homeland, Williams then turns his eye to the recent works, which serve as a bridge between the legacies of the Boom and the diverse array of contemporary Latin American fiction writers at work today. In addition, Williams provides a detailed description of Vargas Llosa's traumatic childhood and its impact on him—seen particularly in his lifelong disdain for authority figures—as well as of the authors who influenced his approach, from Faulkner to Flaubert. Culminating in reflections drawn from Williams's formal interviews and casual conversations with the author at key phases of both men's careers, this is a landmark publication that will spark new lines of inquiry into an intricate body of work.
