Bond of a Mother's Love Rocco Russo,2021-09-01 Margaret McCall, an ambitious freelance writer, believes she has discovered the story of a lifetime that had baffled the police for half a century. Backtracking to the year 1891, she focuses her investigation on Isabel Laughton, an unmarried woman who has a large mansion and wealth but is missing the thing she yearns for the most—a child. As fate would have it, Peggy, mother of a prostitute, abandons her infant grandson on Isabel's doorstep. The moment she cradles him, a bond of a mother's love is instantly felt, and Isabel raises the child as her own, naming him Shawn. For fifteen years, life is grand, keeping her secret safely intact, but then the unthinkable happens; Shawn's mother wants him back. Desperate, Isabel unleashes her vengeance and embarks on a murderous streak on all those who threaten to take him away from her. Feathers...church bells...a mysterious stranger—are they somehow connected? Margaret returns to the Laughton Estate, where she uncovers all the secrets. She learns of the madness and the reason Isabel's love for Shawn has extended beyond the grave. Now the truth has placed Margaret in a precarious situation. Isabel cannot allow sixty-four years of cover-up to be ruined in a single day. Margaret, too, must be silenced.

The Last Book on Earth the New Republicans Billy Mahoney,2020-10-22 Conspiracy theory's gone wild. This book being full of facts and therefore suggested the reader, read it as fiction. Situations and (or) scenarios are too impossible for some people to believe. Parts of this book may be disturbing to some and the reader is warned to NOT take this too seriously. This may be the scariest Halloween book you have ever read. This is the second edition to the first edition titled: the Corn Cob Pile the New Republican also available at amazon written in 2009. After 11 years of publishers asking for the second edition I released it quickly with a publishers edition / directors cut standing by. Per a publishers request I lower the cost from five dollars to one dollar as a black Friday special. I aim to please.

Truth of Birth Certificate Gail Allen,2013-05 I was born in Perth Western Australia and have always thought there .was something very wrong with the state and federal government. That led me to pursue with my research on the governments of Australia. Are history show, the federal government was formed by the people of this great nation. The problem today, the

people of Australia does not know that the commonwealth federal government and as such all Australia own their government by voting for them. This reason why we have election every three years. We choose a new government to what s right for all of us. As for me, I am a member of the Australia resistance. Agana the UN Company s government and the social engineering of the desecration of our country. I carry with me 3 very imported books, the bible, constitution and magna cart law. These books will become Australia saviour.

CHRIST RETURN Encoded in the Great Pyramid Brian Leonard Golightly Marshall,2008-07-25 Mayan Calendar experts cracked the language code, finding the date predicted when the solar system would cross into the northern hemisphere of the Milky Way Galaxy and the golden age would begin. In the Great Pyramid the same information and the end time when the last day is the same date, but it also predicts the return of Christ and He is on the planet today.The Great Pyramid conspiracy is the direct result of the Catholic Church, which hung a mask of Jesus hung upon the body of Lucifer. There is however a linking of ancient wonders within the Great Pyramid, which predicts that Brian Leonard Golightly Marshall was reborn to the earth January 11th 1944 in Australia. The key that opens the mysteries of the old Testament Hebrew pinpointing the second coming of Jesus is in the Mayan Calendar found also in the 5000 year old pyramid and is why the church destroyed the Mayans proof of Jesus far removed from the greatest enemy of Jesus the Catholic Church.

Step Inside the Truth Rick Kearns,2014-05-01 An inspirational book that was written with my friends in mind. With my knowledge of life and friendly supportive words this book was put together to open peoples eyes to the reality of life and the way we live it. I believe everyone should have the right to choose freely what they believe in and how they perceive what

reality is, hoping that in reading this book it will give them some insight to what life is truly about. I hope if you enjoy reading this book that you will look out for my next one.

A Cure for Slavery Woodrow Parker, 2018-01-29 A public nonprofit central bank can give everyone ownership of their labor, the most sacred of all inalienable rights. The NPCB can enable everyone to work without permission from an employer and convert their time and effort into money, debt-free, with nothing more than a redirection of some key, established fractional reserve rules to support the individual earning and credit through labor as opposed to debt. Book 1 semisatirically outlines the problems inherent with the present debt-as-money system. Book 2 provides a framework for the NPCB to enable any individual to claim ownership of their labor that will infuse debt-free currency into the debt-burdened private banking system. This solves debt, unemployment, most crimes, and it provides a stable financial foundation that can underwrite precarious financial institutions and support eternal profits along with all the beneficial social services, such as education, health care, infrastructure, and the environment. I introduce a public nonprofit central banking (NPCB) system that can support manufacturing designed for the ages instead of the dump education and civil service bonuses and create a consumer class of citizenry through basic income and transaction credits. If you want to build tomorrow land, this is a way to do it. Read A Cure for Slavery today, and see bright hope for the future.

Conspiracy and Triumph Aaron John Gulyas, 2021-11-22 Conspiracies have always been part of American culture, but with the rise of social media has come an increase in belief in nontraditional explanations of events. This book highlights a subset of conspiratorial beliefs that grew in popularity in the early 21st century. These beliefs and the growing cynicism of the media have left conspiracy theorists with deep distrust of those in authority. A number of theories that have arisen over the years are explored. From QAnon beliefs regarding the United States government to UFO reports and other hidden agendas, it is clear that we continue to challenge old ways of thinking.

The Birth of Now Jamie Cawley,2016-04-20 In 1870, more than 4,000 years after it was built, the Great Pyramid at Giza in Egypt was still the world's tallest man-made structure. By 2010, only 140 years later, there were more than 10,000 buildings taller than the Great Pyramid. This book is about what caused this change and what will change next. Why did change take so long to happen? Why did it start in North West Europe? The Birth of Now looks at what made the Industrial Revolution - and the financial, transport, agricultural and political revolutions - all happen at the same time. Previous ideas are reviewed - empire, geography, politics, coal or inventions - with remarkable new findings, until the 'smoking gun' is found and we know what started it all, what triggered the Birth of Now. Once it started, we see the astonishing rate of transformation in the Victorian age and, in the last part of the book, see how our view of the future is changed. The Birth of Now follows Jamie Cawley's previous break-through book, Beliefs, in transforming our understanding of the world. This book will allow readers to see the world in a new way, that will make them think and understand better what happened then and what is happening now. Ideal for anyone looking for a new perspective on the modern world, The Birth of Now is a fascinating read that will appeal to those interested in 20th century history.

Araceli, the Refugee Byron Park,2000 This is the story of a refugee's struggle to seek asylum and a green card in the United States. Araceli Sandoval, a teenage college student, fled from her homeland in 1982 after she was abducted, raped and shot by a death squad during El Salvador's tragic civil war. She survived her physical wounds, but nearly went mad from post-traumatic stress during her desperate search for peace, first in Mexico and then in the United States. This novel focuses on the life of an innocent person transformed into an outlaw and a fugitive during her flight from persecution, and then subjected to a Kafkaesque legal battle by a government determined to deport her to her native land and certain death. Byron Park, a former INS officer, is a veteran immigration lawyer in San Francisco specializing in deportation defense. He is now a partner in the law firm of Park and Taylor.
