ELABORACIÓN DE PLANES Y PROGRAMAS DE FORMACIÓN DEL PROFESORADO EN DIDÁCTICAS ESPECIALES

VV.AA.,2015-09-25 La formación del profesorado supone uno de los aspectos más relevantes de la educación del siglo XXI. El desarrollo de acciones de formación docente busca potenciar un sistema de garantía de calidad que mejore el perfil profesional del profesorado. El profesorado debe adaptarse a las nuevas metodologías, ser capaz de inspirar en el estudiante aptitudes que trasciendan al conocimiento académico, renovarse tecnológicamente, diseñar y crear materiales y contenidos adaptados a las competencias exigidas por los nuevos tiempos. Con este objetivo, este libro ofrece los elementos claves a la hora de planificar y desarrollar programas de formación docentes, que van desde la innovación, la investigación, hasta las competencias básicas, profundizando en cada una de las áreas curriculares. El conocimiento detallado de cada una de ellas permitirá al lector y estudiante de esta materia desarrollar programas de formación docente ajustados a la realidad actual y a las necesidades profesionales de especialización.

Ciencia y tecnología para el habitat popular 2008 Mariana Ortecho, Paula Peyloubet, 2021-07-20 Los trabajos que aquí se presentan son el resultado de ocho conferencias de expertos latinoamericanos, cuatro investigadores argentinos que desarrollan sus trabajos de investigación, y seis ponencias que fueron seleccionadas por un Comité Académico. Se agrega a

esta compilación un artículo introductorio que intenta presentar brevemente los procesos investigativos en torno a la producción de hábitat desde escenarios de co-construcción, participación y democratización del conocimiento. Se propuso poner en contacto a diversos grupos de investigación que trabajan en la temática de hábitat en la región a partir de enfoques epistémicos diversos y procesos metodológicos adaptados a cada problemática. Se constituyó en un espacio de intercambio y producción de experiencias, ideas y reflexiones que podrán convertirse en insumos para acciones transformadoras tanto en Políticas Habitacionales como de Ciencia y Tecnología inherentes al campo del Desarrollo Social. Por espacio de 3 días, y con la participación de más de 100 personas, se dieron debates y reflexiones que permitieron llevar adelante discusiones profundas, producto del encuentro de pensamientos y acciones en relación a hábitat. En esta publicación se intenta difundir lo más relevante de dichas discusiones, presentando brevemente los temas, de la manera más fidedigna posible.

CIENCIA Y TECNOLOGIA PARA EL HABITAT POPULAR 2007 Dante Pipa, Paula Peyloubet, Laura de Salvo, 2022-03-27 Los trabajos de investigación, investigación-acción y reflexión que aquí se presentan son el resultado de trece conferencias de expertos iberoamericanos que trabajan y son referentes de la región en la temática, y diez ponencias de investigadores que, de la misma manera, desarrollan sus trabajos de investigación en esta misma área con la riqueza complementaria que otorgan las experiencias llevadas a cabo y las correspondientes lecciones aprendidas a lo largo de años de investigación en el país. Se presentan, antecediendo a estos veintitrés trabajos, tres artículos introductorios que construyen posición frente al estado y situación de la investigación en el campo del hábitat popular. Este Seminario y con él esta publicación, por tanto, intentan reivindicar la necesidad de reinstalar la temática del hábitat popular con profundidad y fortaleza, para producir las transformaciones necesarias que eleven la calidad de vida de las comunidades pobres demostrando, a través de la participación de todos nosotros y de nuestras producciones diversas, que la construcción del conocimiento, en sus múltiples versiones, lleva en sus genes el compromiso de la utilidad social.

De la ciudad hidalga a la metrópoli globalizada. Una historiografía urbana y regional de Bogotá Montoya

Garay, Jhon Williams, 2014-03-14 La presente historiografía urbana de Bogotá se desarrolla en una secuencia que va desde 1538 hasta la primera década del 2000. La investigación examina el rol de la ciudad como punto primordial en una red nacional de ciudades que, además, conecta el país con América Latina y el mundo. El análisis de los procesos de cambio interno de la ciudad tiene un especial énfasis en el crecimiento urbano y en la cambiante morfología de la capital. Teórica y metodológicamente, el estudio se apoya en los planteamientos de la urbanización latinoamericana, la teoría de la dependencia y la teoría de sistema-mundo —conectada con la tradición en geografía urbana sobre el estudio de sistemas de ciudades—; asimismo, se auxilia en la economía política de la urbanización —desarrollada desde los años setenta en los estudios urbanos— e incorpora dos elementos tradicionales en el estudio de la ciudad: el análisis morfológico, así como las ideas de la planificación y el urbanismo. El ejercicio historiográfico se centra en el cambio en la morfología física y social de Bogotá, estrechamente vinculada a las mutaciones políticas, sociales y económicas de la nación, y su consecuente impacto en las economías regionales. De la misma manera, especialmente para el siglo XX, se añade la ideología del urbanismo como variable definitoria de los procesos de urbanización y su materialización en el crecimiento urbano, en la arquitectura y, en general, en la forma física y social de la ciudad.
