Formal Spoken Arabic FAST Course with MP3 Files Karin C. Ryding, Abdelnour Zaiback, 2004 This Arabic language-learning classic is now enhanced with a bound-in CD of MP3 files. Designed to provide beginners in Arabic with maximum linguistic and cultural exposure in a short period (about 100 hours of contact time), this book consists of sixteen lessons with dialogs and exercises dealing with day-to-day scenarios: greeting people, getting a taxi, making phone calls, asking directions, discussing the weather, and effectively communicating with police and duty officers. The lessons help the reader to navigate situations at gas stations, marketplaces, restaurants, and in their own households. Formal Spoken Arabic (FSA) is a kind of lingua franca that is more natural than speaking Modern Standard Arabic (MSA), the literary form of the language. FSA uses the shared features of the various urban colloquial dialects, defaulting to Levantine (terms common to Lebanon, Syria, and Jordan) where the spoken dialects diverge. Each lesson includes cultural notes on American-Arab interactions, notes on learner strategies for managing Arabic conversations with a limited amount of language, and grammar explanations in clear, non-technical language. Although the main dialogue for each lesson is presented in Arabic script, transcriptions are used to accelerate spoken performance. The FAST Course includes grammatical explanations, English-Arabic and Arabic-English glossaries, appendices listing common idioms, courtesy expressions and other useful terms, instructor's notes, and drills aided and accompanied by the CD. Originally created for diplomats, this is an expanded and enhanced edition of a work originally developed by the U.S. State Department as a six-week intensive, or FAST (Familiarization and Short-Term) course,

and is easily adaptable for students in Middle East area studies. Travelers heading for posts in the Arab world who quickly need to gain a basic ability to converse in day-to-day situations will find Formal Spoken Arabic FAST Course an invaluable companion.

Themes in Arabic and Hebrew Syntax J. Ouhalla, U. Shlonsky, 2012-12-06 The aim of this enterprise is to assemble together in one volume works on various syntactic aspects of Arabic and Hebrew, in the hope that it will spur further comparative work within the Semitic family at the level of richness achieved in other language families such as Germanic and Romance. Although a substantial amount of work on the syntax of Arabic and Hebrew already exists in various forms, volumes of the type we have attempted are still practically non-existent. Moreover, apart from some notable exceptions, existing studies rarely take a systematic within-family comparative stance towards the phenomena they discuss, although

cross-references between studies on Arabic and Hebrew are not uncommon. Obviously, we would ideally have preferred the volume to include papers on numerous other Semitic languages, including the languages of the Ethio Semitic branch as well as numerous spoken varieties of Arabic that have yet to be explored. Unfortunately, this was not possible due to circumstances beyond our control. We very much hope that the existence of this volume will make more inclusive volumes on the syntax of the Semitic languages only a matter of time.

With knowledge of this system, learners will be able to predict the meaning of unfamiliar words, recognize the function of words, and understand correct pronunciation of Arabic words, making vocabulary acquisition and retention easier. This unique textbook introduces measures and patterns sequentially across ten chapters, helping learners to navigate the topics in a logical manner. Without complicated jargon or technical language, this easy-to-understand textbook demystifies key topics in Arabic grammar. Comparative sentences which encapsulate the differences between measures give context, and exercises within the chapters serve to consolidate the learners' grasp of the material presented. Designed to supplement both class-based Arabic courses and independent study, The Structure of Arabic will help learners of Arabic at all levels of competency to improve their vocabulary, pronunciation, spelling, and comprehension.
