**Patricia Fumero**

El proceso de la civilización Elias, Norbert,2021-10-01 A lo largo del siglo XX la sociología se ha dedicado, fundamentalmente, a estudiar situaciones estables. Hace tiempo que desplazó de su centro de interés las lentes transformaciones de las estructuras de la personalidad y de la sociedad. En este trabajo, esos procesos de largo alcance constituyen el interés primordial de Norbert Elias al analizar las siguientes preguntas: ¿Cómo se ha desarrollado la sociedad de Occidente? y ¿En qué consistió ese desarrollo?

**Latin American Literature in Transition 1800-1870: Volume 2** Ana Peluffo,Ronald Briggs,2022-12-08 Latin American Literature in Transition 1800-1870 uses affect as an analytical tool to uncover the countervailing forces that shaped Latin American literatures and cultures during the first six decades of the nineteenth century. Chapters provide perspectives on colonial violence and its representation, on the development of the national idea, on communities within and beyond the nation, and on the intersectional development of subjectivity during and after processes of cultural and political independence. This volume includes interdisciplinary approaches to nineteenth-century Latin American cultures that range from visual and art history to historiography to comparative literature and the study of literary and popular print culture. This book engages with the complex and sometimes counterintuitive relationship between felt ideas of community and the political changes that shaped these affective networks and communities.

**Secularism and the Pursuit of Transcendence, Volume I** Stanley E. Porter,Wendy J. Porter,2025-02-20 We live in a secular age, or so we have been told. Nevertheless, the Christian church strongly believes that we still experience—and in fact are surrounded by—acts of transcendence, encounters with God that often defy imagination and explanation. And yet we do try to explain such phenomena, whether theologically, experientially, biblically, historically, philosophically, literarily, or even (or especially) artistically. These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton, Ontario. They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence. Transcendence has been a longstanding topic among the best thinkers of this and previous ages, and the same is true for these volumes, which include contributions by Charles Taylor, Robert Wuthnow, Merold Westphal, and Christina Gschwandtner—but also by a wide range

of others who address the question from divergent vantage points. The responses vary as much as the orientations of those involved, in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence—or even to perceive the Transcendent's pursuit of us.

*La literatura y el ocio en la sociedad cortesana del Siglo de Oro* Jesús Gómez, 2021 *La literatura y el ocio en la sociedad cortesana del Siglo de Oro* es un estudio histórico sobre el ideal del ocio laborioso, diferenciado de la ociosidad que consiste en no hacer nada. El enfoque resulta novedoso, ya que escasean las investigaciones sobre la historia moderna del otium, complementaria del negotium, quizá por haber sido considerada un tema de importancia menor con relación al trabajo. La principal hipótesis desarrollada tiene que ver con la revaloración del ocio laborioso ocurrida en el contexto de la sociedad cortesana de los siglos XVI y XVII, cuya herencia persiste con posterioridad a que se hubiesen producido las nuevas condiciones económicas y sociales propiciadas por la Revolución Industrial, desde el siglo XIX, de las que surgirá el ocio de masas. Durante el periodo preindustrial, sin embargo, también se produjeron manifestaciones culturales y festivas asociadas a diversas formas del ocio, analizadas a lo largo de los seis capítulos que conforman el libro. El primero resume un estado de la cuestión en el que se cuestiona la oposición absoluta, establecida por parte de la crítica, entre el ocio cortesano y el ocio de tipo letrado o humanista, de tradición ciceroniana. Después de abordar en el segundo apartado la tipología y las diferentes clases de ocio: lúdico, festivo y cultural, el tópico remedio literario de la ociosidad sirve, en el apartado tercero, de punto de partida para comprender la utilidad de la literatura desde la época renacentista, y también para justificar las diferentes variedades genéricas de la ficción literaria entonces predominantes, como la prosa dialogada y la narrativa que culmina en Cervantes, considerado desde esta nueva perspectiva. Para completar el panorama histórico-literario, el apartado cuarto se dedica al ocio poético de la tradición clásica española, articulado desde Garcilaso a Góngora, cuya ruptura condujo a la plena afirmación romántica de la autonomía del arte por el arte, mientras que el apartado quinto versa sobre el ocio teatral, analizando su importancia en el desarrollo de la controversia sobre la licitud del teatro que originada tras el triunfo de la comedia nueva, cuyo máximo exponente fuera Lope de Vega, perdura hasta la Memoria compuesta por Jovellanos a finales del siglo XVIII, marcando el final de una etapa en las valoraciones tradicionales que identificaban en exclusiva el ocio con la ociosidad. En el apartado sexto y último, se resume la evolución secular del homo otiosus desde su revalorización en la sociedad cortesana hasta el cambio que ha culminado en nuestra actual sociedad del espectáculo, o del entretenimiento, donde ha variado sustancialmente la función desempeñada por el ocio literario que, en el contexto de la Europa de las cortes, se había manifestado como parte del ocio laborioso opuesto, más que al trabajo, al vicio de la inútil ociosidad.

**Early Modern Dynastic Marriages and Cultural Transfer** Joan-Lluis Palos, Magdalena S. Sanchez, 2017-05-15 Toward the end of the fifteenth century, the Habsburg family began to rely on dynastic marriage to unite an array of territories, eventually creating an empire as had not been seen in Europe since the Romans. Other European rulers followed the

Habsburgs' lead in forging ties through dynastic marriages. Because of these marriages, many more aristocrats (especially women) left their homelands to reside elsewhere. Until now, historians have viewed these unions from a primarily political viewpoint and have paid scant attention to the personal dimensions of these relocations. Separated from their family and thrust into a strange new land in which language, attire, religion, food, and cultural practices were often different, these young aristocrats were forced to conform to new customs or adapt their own customs to a new cultural setting. Early Modern Dynastic Marriages and Cultural Transfer examines these marriages as important agents of cultural transfer, emphasizing how marriages could lead to the creation of a cosmopolitan culture, common to the elites of Europe. These essays focus on the personal and domestic dimensions of early modern European court life, examining such areas as women's devotional practices, fashion, patronage, and culinary traditions.

**Política y Academia** Martha Soledad Montero González,Esaú Ricardo Páez Guzmán,Alejandro Álvarez Barreto,Violeta Pankova,Claudia Edid Herrera Escalante,Daniel Eduardo Riaño Pérez,David Ospina,Katherine Salazar,Oscar Leonardo Ortiz Velásquez,Manuel Cujabán,Yerson Y. Carrillo-Ardila,2021-08-03 ¿Qué es hoy una producción académica? ¿Bajo qué normas y estatutos se conforma un libro que se supone académico? Plantear estas preguntas es ya sumergirse en problemas propios de lo que ha quedado de la universidad moderna, de lo que es luego de haber sido víctima de un lento pero constante desmantelamiento. Donde, a grandes rasgos, se remplazó el rigor de la problematización por la efectividad del dato; donde, frente a la complejidad del análisis, el funcionamiento de un concepto, se posicionó la estadística, la gráfica, el cálculo y el porcentaje. Sustituciones que no son ajenas a los movimientos propios de una época, pues es claro que la época en la que se constituyó la universidad no es la nuestra y lo que nos va quedando son las trasformaciones que aparecen. Lo que hemos heredado del modelo de universidad moderno responde a otras necesidades, a otros reclamos, a otros intereses, que no se reducen solamente a un nuevo modo de constitución de la universidad, sino que han modificado el estatuto del saber mismo, su legitimidad, su formación y formulación.

Perspectivas sociológicas Flabián Nievas,2018-04-13 En estas páginas se reúnen cuatro perspectivas clásicas de la teoría sociológica y se exponen y definen herramientas fundamentales para el conocimiento de cuatro desarrollos fundamentales de la disciplina: individualismo metodológico, holismo, el pensamiento relacional de Norbert Elias y el materialismo dialéctico. Con la convicción de que es cada vez más necesario acercar los contextos en los que fueron desarrollados los fundamentos de la ciencia sociológica a las nuevas generaciones que se inclinan por estos estudios, esta obra tiene como horizonte deslindar planteos y discusiones de conocimiento excluyente para cualquiera que se encuentre en los comienzos de su carrera.

**Identities Through Fashion** Ana Marta González,Laura Bovone,2013-08-15 Fashion has become a fertile field of study for academics across disciplines, now that the rules, once tightly fixed, have been deconstructed. This volume brings together academics from various disciplines - philosophy, sociology, medicine, anthropology, psychology and psychiatry - to examine

fashion's complex relationship with post-industrial societies. Herein the authors address, from the standpoint of their respective disciplines, what crucial functions fashion fulfils in the modern world, especially as it relates to the construction and deconstruction of the self. This volume is the result of a conference held by the Social Trends Institute at which the authors presented original papers. The Social Trends Institute is a non-profit research centre that offers institutional and financial support to academics in all fields who research and explore emerging social trends and their effects on human communities. The Institute focuses its research on four main subject areas: family, bioethics, culture and lifestyles, and corporate governance.

*The Force of Fashion in Politics and Society* Beverly Lemire,2016-12-05 Throughout history, fashion has emerged as one of the most powerful driving forces determining the political, economic and social ramifications of the production, distribution and circulation of goods. Indeed fashion, especially in relation to clothing and textiles, shapes the relationship between self and society in unique ways. In this light, the collected papers in this volume position fashion as the lens - the critical mediating force - through which to analyse and understand cultural, economic and political shifts within a broad spectrum of societies in Europe, Asia, Africa and America from the seventeenth to twenty-first centuries. Topics include a seventeenth-century failing fashion region, the material politics of marketing American abolitionist fashions, the construction of a fashionable ethos for French perfumes, and the use and meanings of clothing and textiles in the politics of Nigerian silk robes and early modern domestic décor in Europe. This volume represents an important shift in scholarship towards a more in-depth understanding of the role of fashion in early modern and modern times and will appeal to international readers interested in material culture, fashion, consumer studies and cultural anthropology, among other areas.

*Norbert Elias and Empirical Research* T. Landini,F. Dépelteau,2014-07-17 Norbert Elias has been recognized as one of the key social scientists of the 20th century at least in sociology, political science and history. This book will address Norbert Elias's approach to empirical research, the use of his work in empirical research, and compare him with other theorists.

*The Middle Classes in Latin America* Mario Barbosa Cruz,A. Ricardo López-Pedreros,Claudia Stern,2022-07-13 As a collective effort, this volume locates the formation of the middle classes at the core of the histories of Latin America in the last two centuries. Featuring scholars from different places across the Americas, it is an interdisciplinary contribution to the world histories of the middle classes, histories of Latin America, and intersectional studies. It also engages a larger audience about the importance of the middle classes to understand modernity, democracy, neoliberalism, and decoloniality. By including research produced from a variety of Latin American, North American, and other audiences, the volume incorporates trends in social history, cultural studies and discursive theory. It situates analytical categories of race and gender at the core of class formation. This volume seeks to initiate a critical and global conversation concerning the ways in which the analysis of the middle classes provides crucial re-readings of how Latin America, as a region, has historically been

understood.

**Bigger Than Bones** Haley Jenkins,2019-07-22 This volume was first published by Inter-Disciplinary Press in 2016. A murderer's hands are transplanted onto an innocent pianist, an asexual child's life is threatened by the world of sex and what really happens when pregnancy takes over a woman's body? Marginalization, eating disorders, altered bodies, breastfeeding, silent films, the truth behind angels and zombies, these topics are all explored in this exciting volume. Where do we draw the line between 'the body' and 'the other'? What does it really mean to meld the body with the biomechanical? Taking evidence from popular culture and well-known theorists worldwide, Bigger Than Bones explores how we are more than just our skeletal blueprint, that the body - and the perceptions of the body - give way to many layers of debate and inquiry. From being displaced by left-handedness to obtaining wings made from the dead, this collection provides a wide variety of material focused on the body's transformation, as well as the horror and the gifts it brings.

**Globalised Football** Nina Clara Tiesler,Joao Nuno Coelho,2013-10-31 When studying the social phenomena in and around football, five major aspects of globalisation processes become evident: international migration, the global flow of capital, the syncretistic nature of tradition and modernity in contemporary culture, new experiences of time and space and the revolution in information technologies. In an exploration of these themes the collection provides insight into academic studies of football in Portugal, Germany, England, Spain, Brazil, Angola, Mozambique, China, Japan, South Korea, Russia and the USA. At examining football-related phenomena under the headings of nations and migration, myths and business, the city and the dream, it shows how modernised football itself is object and subject in processes of both neo-liberal globalisation and counter hegemonic globalisation. While the contributions highlight characteristics of particular local and national contexts, the volume focuses on global centre-periphery-relations and migration trajectories of football professionals by analysing recent developments in post-colonial Portuguese speaking areas: The high ranking of Portuguese football not only serves in national(ist) discourses or in order to emancipate the country from a marginal position, it also turns Portugal into a football-talent exporter, confronting it partly with the same ambiguous consequences as Brazil and the African countries, who lose their football talents to the European centre. The receiving countries, again, include Portugal. This book was previously published as a special issue of Soccer in Society

The Sacred & the Digital F.G. (Frank) Bosman,2019-04-18 Video game studies are a relative young but flourishing academic discipline. But within game studies, however, the perspective of religion and spirituality is rather neglected, both by game scholars and religion scholars. While religion can take different shapes in digital games, ranging from material and referential to reflexive and ritual, it is not necessarily true that game developers depict their in-game religions in a positive, confirming way, but ever so often games approach the topic critically and disavowingly. The religion criticisms found in video games can be categorized as follows: religion as (1) fraud, aimed to manipulate the uneducated, as (2) blind obedience towards an invisible but ultimately non-existing deity/ies, as (3) violence against those who do not share the same set of religious rules, as (4) madness, a deranged alternative for logical reasoning, and as (5) suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience. The critical depictions of religion in video games by their developers is the focus of this special issue.
