Peter Heller

The Dog Stars Peter Heller, 2013-05-07 NATIONAL BESTSELLER • From the author of *The River*: In this end-of-the-world novel more like a rapturous beginning (San Francisco Chronicle), Hig somehow survived the flu pandemic that killed everyone he knows. His gripping story is an ode to friendship between two men...the strong bond between a human and a dog, and a reminder of what is worth living for (Minneapolis Star-Tribune). Hig's wife is gone, his friends are dead, and he lives in the hangar of a small abandoned airport with his dog, Jasper, and a mercurial, gun-toting misanthrope named Bangle. But when a random transmission beams through the radio of his 1956 Cessna, the voice ignites a hope deep inside him that a better life exists outside their tightly controlled perimeter. Risking everything, he flies past his point of no return and follows its static-broken trail, only to find something that is both better and worse than anything he could ever hope for.

The Dog Stars: The hope-filled story of a world changed by global catastrophe Peter Heller, 2012-08-07 A life-affirming dystopian tale of global disaster, survival, and belief for any reader of Emily St John Mandel's *STATION ELEVEN* or Cormac McCarthy's *THE ROAD* 'THE ROAD crossed with a post-apocalyptic romance...[engages] deep emotions to spine-chilling (and suspenseful) effect' Lawrence Norfolk, Guardian Books of the Year Readers fell in love with *THE DOG STARS* 'Every bit as good as *THE ROAD*... A superbly sustained masterpiece' ***** 'A beautifully written tale of loss, survival and self-discovery ... suspenseful and touching' ***** 'A wee gem ... A great story, beautifully spun and well told' ***** 'I absolutely loved this book' ***** Hig, bereaved and traumatised after global disaster, has three things to live for - his dog Jasper, his aggressive but helpful neighbour, and his Cessna aeroplane. He's just about surviving, so long as he only takes his beloved plane for short journeys, and saves his remaining fuel. But, just once, he picks up a message from another pilot, and eventually the temptation to find out who else is still alive becomes irresistible. So he takes his plane over the horizon, knowing that he won't have enough fuel to get back. What follows is scarier and more life-affirming than he could have imagined. And his story, *THE DOG STARS*, is a book unlike any you have ever read.

The Orchard Peter Heller, 2019-10-22 "Like Mark Twain and Toni Morrison, Peter Heller has a rare talent that hooks both literary and commercial readers." -Elle magazine From the bestselling author of *The Dog Stars* and *The River*, *The Orchard* is an unforgettable coming of age tale reminding us that, even during the hardest of times, love, friendship, and the enduring power of nature will prevail. Hayley and her seven-year-old daughter, Frith, live in a rustic cabin with no electricity in the foothills of Vermont's Green Mountains. One of the world's most renowned translators of poetry from China's Tang dynasty, Hayley walked away from her career and her drug-addicted husband to raise Frith alone in a land populated not by ambition-fueled academics but by hawks, beavers, and other wild things—including their exuberant Bernese mountain mutt, Bear. They get by on what little they earn from their overgrown apple orchard and the syrup they make from their maple trees. Frith—precocious, homeschooled, and a voracious reader—considers herself queen of this backwoods paradise. She is too young to understand the pain and regret that have followed her mother here. Season after season, it is the three of them—mother, daughter, and dog—until the sunny spring day when Rose Lattimore appears at their door. Rose is an artist and kindred spirit whose unexpected friendship upends Hayley and Frith's solitary existence. Rosie takes the edge off the worries of day-to-day survival and encourages the playful aspects of living in nature: fishing, picnics, swimming in a quarry. Frith thrives under the loving care of Hayley and Rosie and, with a child's innocence, assumes their happiness will last forever. Instead, their lives are shattered by unexpected tragedy and Frith must come to terms with heartbreak and fear. Peter Heller is unique in his ability to capture the beauty and nuance of the natural world and its pull on women and men. In *The Orchard*, he pairs evocative storytelling with jewel-like poems—Hayley's translations of her most beloved Tang poet, Li Xue—that echo Hayley and Frith's life in the wilderness and tell their own tale of mother and daughter. By turns joyful and

searing, *The Orchard* examines the fragility of childhood, motherhood, romantic love, and friendship, and celebrates the enduring solace of nature. At a time when so many of us are gripped by fear and uncertainty, Heller's story is like a calming deep breath.

The River Peter Heller, 2019-03-05 NATIONAL BESTSELLER • From the author of *The Guide* and *The Dog Stars* comes the story of two college students on a wilderness canoe trip—a gripping tale of a friendship tested by fire, white water, and violence. A fiery tour de force ... I could not put this book down. It truly was terrifying and unutterably beautiful.—*The Denver Post* Wynn and Jack have been best friends since college orientation, bonded by their shared love of mountains, books, and fishing. Wynn is a gentle giant, a Vermont kid never happier than when his feet are in the water. Jack is more rugged, raised on a ranch in Colorado where sleeping under the stars and cooking on a fire came as naturally to him as breathing. When they decide to canoe the Maskwa River in northern Canada, they anticipate long days of leisurely paddling and picking blueberries, and nights of stargazing and reading paperback Westerns. But a wildfire making its way across the forest adds unexpected urgency to the journey. One night, with the fire advancing, they hear a man and woman arguing on the fog-shrouded riverbank; the next day, a man appears on the river, paddling alone. Is this the same man they heard? And if he is, where is the woman? From this charged beginning, master storyteller Peter Heller unspools a headlong, heart-pounding story of desperate wilderness survival.

Burn Peter Heller, 2024-08-13 From the best-selling author of *The Dog Stars* and *The Last Ranger*, a novel about two men—friends since boyhood—who emerge from the woods of rural Maine to a dystopian country racked by bewildering violence Every year, Jess and Storey have made an annual pilgrimage to the most remote corners of the country, where they camp, hunt, and hike, leaving much from their long friendship unspoken. Although the state of Maine has convulsed all summer with secession mania—a mania that has simultaneously spread across other states—Jess and Storey figure it's a fight reserved for legislators or, worst-case scenario, folks in the capital. But after weeks hunting off the grid, the men reach a small town and are shocked by what they find: a bridge blown apart, buildings burned to the ground, and bombed-out cars abandoned on the road. Trying to make sense of the sudden destruction all around them, they set their sights on finding their way home, dragging a wagon across bumpy dirt roads, scavenging from boats left in lakes, and dodging armed men—secessionists or U.S. military, they cannot tell—as they seek a path to safety. Then, a startling discovery drastically alters their path and the stakes of their escape. Drenched in the beauty of the natural world and attuned to the specific cadences of male friendship, even here at the edge of doom, *Burn* is both a blistering warning about a divided country's political strife and an ode to the salvation found in our chosen families.

Celine Peter Heller, 2018-01-02 NATIONAL BESTSELLER • From the author of *The River* and *The Dog Stars* comes another gorgeously wrought story—equal parts character study and mystery—a young woman asks Celine, a badass Brooklyn

private eye, to investigate the death of her father, a nature photographer (Entertainment Weekly). Celine is not your typical private eye. With prep school pedigree and a pair of opera glasses for stakeouts, her methods are unconventional but extremely successful. Working out of her jewel box of an apartment nestled under the Brooklyn Bridge, Celine has made a career out of tracking down missing persons nobody else can find. But when a young woman named Gabriela employs her expertise, what was meant to be Celine's last case becomes a scavenger hunt through her own memories, the secrets there and the surprising redemptions. Gabriela's father was a National Geographic photographer who went missing in Wyoming twenty years ago and while he was assumed to have been mauled by a grizzly his body was never found. Celine and her partner set out to Yellowstone National Park to follow a trail gone cold but soon realize that somebody desperately wants to keep this case closed. Combining ingenious plotting with crystalline prose and sweeping natural panoramas, Peter Heller gives us his finest work to date.

Dystopian States of America Matthew B. Hill, 2022-09-13 *Dystopian States of America* is a crucial resource that studies the impact of dystopian works on American society—including ways in which they reflect our deep and persistent fears about environmental calamities, authoritarian governments, invasive technologies, and human weakness. *Dystopian States of America* provides students and researchers with an illuminating resource for understanding the impact and relevance of dystopian and apocalyptic works in contemporary American culture. Through its wide survey of dystopian works in numerous forms and genres, the book encourages readers to connect with these works of fiction and understand how the catastrophically grim or disquieting worlds they portray offer insights into our own current situation. In addition to providing more than 150 encyclopedia articles on a large and representative sample of dystopian/apocalyptic narratives in fiction, film, television, and video games (including popular works that often escape critical inquiry), *Dystopian States of America* features a suite of critical essays on five themes—war, pandemics, totalitarianism, environmental calamity, and technological overreach—that serve as the foundation for most dystopian worlds of the imagination. These offerings complement one another, enabling readers to explore dystopian conceptions of America and the world from multiple perspectives and vantage points.

The River Peter Heller, 2020-04-28 Wynn and Jack have been best friends since their first day at college, bought together by their love of books and the great outdoors. When they decide to canoe down the Maskawa river in northern Canada, they anticipate the ultimate wilderness experience: no phones, no fellow travellers, no going back. But as a wildfire makes its way towards them, their trip suddenly becomes a desperate race for survival. And when a man suddenly appears, claiming his wife has vanished, the fight against the raging flames becomes a much deadlier game of cat and mouse.

Ecocollapse Fiction and Cultures of Human Extinction Sarah E. McFarland, 2021-01-28 This work analyzes 21st-century realistic speculations of human extinction: fictions that imagine future worlds without interventions of as-yet uninvented technology, interplanetary travel, or other science fiction elements that provide hope for rescue or long-term survival. Climate change fiction as a genre of apocalyptic and post-apocalyptic writing usually resists facing the potentiality of human species extinction, following instead traditional generic conventions that imagine primitivist communities of human survivors with the means of escaping the consequences of global climate change. Yet amidst the ongoing sixth great extinction, works that problematize survival, provide no opportunities for social rebirth, and speculate humanity's final end may address the problem of how to reject the impulse of human exceptionalism that pervades climate change discourse and post-apocalyptic fiction. Rather than following the preferences of the genre, the ecocollapse fictions examined here manifest apocalypse where the means for a happy ending no longer exists. In these texts, diminished ecosystems, specters of cannibalism, and disintegrations of difference and othering render human self-identity as radically malleable within their confrontations with the stark materiality of all life. This book is the first in-depth exploration of contemporary fictions that imagine the imbrication of human and nonhuman within global species extinctions. It closely interrogates novels from authors like Peter Heller, Cormac McCarthy and Yann Martel that reject the impulse of human exceptionalism to demonstrate what it might be like to go extinct.

The Skeleton Box Bryan Gruley, 2013-06-04 Mysterious break-ins are plaguing the small town of Starvation Lake. Oddly, the intruder takes nothing--yet the Bingo Night Burglaries leave the entire town uneasy. Worry turns into panic when a break-in escalates to murder. Suddenly, Gus Carpenter, editor of the Pine County Pilot, is forced to investigate the most difficult story of his life. Not only is the victim his ex-girlfriend Darlene's

mother, but her body was found in the home of Bea Carpenter--Gus's own mother. Suffering from worsening dementia and under the influence of sleeping pills, Bea remembers little of the break-in. With the help of Luke Whistler, a former Detroit Free Press reporter who came north looking for slower days and some old-fashioned newspaper work, Gus sets out to uncover the truth behind the murder. But when the story leads him to a lockbox his mother has kept secret for years, Gus doesn't realize that its contents could forever change his perception of Starvation Lake, his own family, and the value of the truth.

Cowboy Apocalypse Rachel Wagner, 2025-02-25 Charts the myth of the “good guy with a gun,” connecting America’s frontier beginnings with visions of the end of the world In the midst of widespread mass shootings in America, a common motif stands out: the perpetrators of these attacks often view themselves as vigilante saviors, whose job it is to regulate society in a way that exterminates their enemies. In this fascinating critique, Rachel Wagner makes the case that this unfortunate phenomenon is best understood through the idea of the cowboy apocalypse. She shows that across much US media, from video games and blockbuster movies to novels and TV, a story arc has been created that provides a complete myth about the end of the world and the future after that. In these stories, the cowboy messiah is envisioned as a good guy with a gun. But he doesn't save the world. He just saves his world: he protects his family and others he deems worthy while embracing the chance to wipe the global slate clean and start fresh, with survivors testing their mettle on a new frontier. Wagner illuminates the links between Christian apocalypticism, American gun culture, and the romanticization of the white male-dominated American frontier, showing how the vigilante has come to be regarded as a new savior figure, out to protect the world for white supremacy and patriarchy. She also offers ways to respond with other powerful cultural myths, making

use of media to tell other stories. *Cowboy Apocalypse* offers a new means of making sense of how guns profoundly shape American life, and how we might engage with them otherwise.

Geometry of Grief Michael Frame, 2021-09-08 “With poignancy and audacity, Frame builds an unexpected bridge between mathematical beauty and human sorrow, illuminating both.” —Francis Su, author of *Mathematics for Human Flourishing* We all know the euphoria of intellectual epiphany—the thrill of sudden understanding. But coupled with that excitement is a sense of loss: a moment of epiphany can never be repeated. In *Geometry of Grief*, mathematician Michael Frame draws on a career’s worth of insight—including his work with a pioneer of fractal geometry Benoit Mandelbrot—as he delves into this understanding of loss. Grief, Frame reveals, can be a moment of possibility. Frame investigates grief as a response to an irrevocable change in circumstance. This reframing allows us to see parallels between the loss of a loved one and the loss of the elation of first understanding a tricky concept. From this foundation, Frame builds a geometric model of mental states. An object that is fractal, for example, has symmetry of magnification: magnify a picture of a mountain or a fern leaf—both fractal—and we see echoes of the original shape. Similarly, nested inside great loss are smaller losses. By manipulating this geometry, Frame shows us, we may be able to redirect our thinking in ways that help reduce our pain. Small-scale losses, in essence, provide laboratories to learn how to meet large-scale losses. Interweaving original illustrations, clear introductions to advanced topics in geometry, and wisdom gleaned from his own experience, Frame’s poetic book is a journey through the beautiful complexities of mathematics and life. “Intriguing.” —Nature “Poignant and beautiful.” —Steven Strogatz, New York Times bestselling author of *Infinite Powers* “A wonderful memoir.” —Choice
