*Introduction to Social Work* Lisa E. Cox,Carolyn J. Tice,Dennis D. Long,2017-11-29 Winner of the 2019 Textbook Excellence Award from the Textbook & Academic Authors Association (TAA) The best-selling Introduction to Social Work takes students to the root of the social work profession by covering its history, practice settings, and career paths within a unique advocacy framework. This advocacy practice and policy model comprised of four components—economic and social justice, a supportive environment, human needs and rights, and political access—provides an effective lens for viewing today's social issues. Throughout the book, an emphasis on advocacy underscores the transformative opportunities and contributions of social work on not just the clinical/client level, but also at organizational, community, national, and international levels. The Second Edition closely aligns with the latest Educational Policy and Accreditation Standards (EPAS) from the Council on Social Work Education (CSWE) and references the 2018 Code of Ethics from the National Association of Social Workers (NASW). Through the authors' inclusion of reflective practice, students will be encouraged to engage in

critical thought and contemplate a career in social work. Free Poster: What Can You Do with a Degree in Social Work?

Informants, Cooperating Witnesses, and Undercover Investigations Dennis G. Fitzgerald,2014-11-05 This book covers every aspect of the informant and cooperating witness dynamic a controversial technique shrouded in secrecy and widely misunderstood. Quoted routinely in countless newspaper and magazine articles, the first edition was the go-to guide for practical, effective guidance on this tricky yet powerful tactic. Extensively updated, topics in this second edition include changes in the FBI's informant program, changes brought on by immigration reforms, recent high-profile cases, and the changing nature of compensation and cooperation fees. It also examines the management of informant-driven search warrants and challenges posed by fabricated information.
