Historical Performance and New Music Rebecca Cypess, Estelí Gomez, Rachael Lansang, 2023-11-30 The worlds of new music and historically informed performance might seem quite distant from one another. Yet, upon closer consideration, clear points of convergence emerge. Not only do many contemporary performers move easily between these two worlds, but they often do so using a shared ethos of flexibility, improvisation, curiosity, and collaboration—collaboration with composers past and present, with other performers, and with audiences. Bringing together expert scholars and performers considering a wide range of issues and case studies, *Historical Performance and New Music*—the first book of its kind—addresses the synergies in aesthetics and practices in historical performance and new music. The essays treat matters including technologies and media such as laptops, printing presses, and graphic notation; new music written for period instruments from natural horns to the clavichord; personalities such as the pioneering singer Cathy Berberian; the musically “omnivorous” ensembles A Far Cry and Roomful of Teeth; and composers Luciano Berio, David Lang, Molly Herron, Caroline Shaw, and many others. *Historical Performance and New Music* presents pathbreaking ideas in an accessible style that speaks to performers, composers, scholars, and music lovers alike. Richly documented and diverse in its methods and subject matter, this book will open new conversations about contemporary musical life.

Cataloging beyond the Notes: Annotating Bibliographic Records for Music Effectively in RDA Ralph Hartsock, Peter H. Lisius, 2022 In *Cataloging beyond the Notes: Annotating Bibliographic Records for Music Effectively in RDA*, authors Ralph Hartsock and Peter Lisius present examples illustrating the effective use of notes in the description of music, and this is especially important with RDA. Since RDA has increased granularity in the description of music, whether in score, recording, video, or data formats, the expert direction offered in *Cataloging beyond the Notes* makes it a key reference for music cataloging. Bibliographic records are presented using MARC21. An essential resource for practicing music catalogers, *Cataloging beyond the Notes* begins with a comprehensive introduction, including instructions on how to use the book, and presents examples of the granular data that informs users about specific details. In addition, the examples are augmented by

the authors' commentary, so that the result is expert guidance in a single, highly accessible publication. More than that, navigation to and from the newer RDA format is facilitated by an appendix keyed to specific RDA details. Frequently used and related terms are also covered in a glossary specific to this volume. Taken as a whole, *Cataloging beyond the Notes* belongs in every music library and on each cataloger's desk.
