Criminal Markets and Mafia Proceeds Ernesto Savona, Francesco Calderoni, 2016-03-22 This book estimates the proceeds of crime and mafia revenues for different criminal markets such as sexual exploitation, drugs, illicit cigarettes, loan sharking, extortion racketeering, counterfeiting, illicit firearms, illegal gambling and illicit waste management. It is the first time that scholars have adopted detailed methodologies to ensure the highest reliability and validity of the estimation. Overall, estimated proceeds of crime amount to € 22.8 billion: 1.5% of the Italian GDP. Of this, up to € 10.7 billion (0.7 of the GDP) may be attributable to the Italian mafias. These figures are considerably lower than the ones most frequently circulated on the news, without any details about their methodology, which were defined by a UN study as gross overestimates. Far from underestimating criminal revenues, the results of this study bring the issue of the proceeds of crime to an empirically-based debate, providing support for improved future estimates and more effective policies. The volume's contributions were inspired by a project awarded by the Italian Ministry of Interior to Transcrime, which produced the first report on mafia investments (www.investimentioc.it). This book was originally published as a special issue of Global Crime.

Financing of Organised Crime Center for the Study of Democracy, University of Trento, Teesside University, 2015 The report Financing of Organised Crime contributes to a better understanding of the financial aspects of organised crime. The analysis explores topics such as the sources and mechanisms for financing organised crime, settlement of payments, access to financing in critical moments, costs of business and the management of profits. Drawing on the results of the analysis, the report also suggests possible new approaches to tackling organised crime.

Measuring Organised Crime in Europe Tom Beken, 2004 Recent years have been characterised by growing awareness among European member states about serious shortcomings to the way organised crime is measured and assessed. Currently, organised crime reports primarily generate descriptive analyses of a past situation based on law enforcement data and do not always provide the necessary information for proactive and preventive policy strategies. Therefore an EU Action

Plan has been issued to develop a more future oriented and risk based methodology for the measurement of organised crime and to convert the traditional organised crime situation reports into strategic reports for planning purposes. This book is the outcome of two studies undertaken by a team composed of Belgian, Italian and Swedish researchers for the European Commission. It presents an overview of current practices in the measurement of organised crime in Europe and includes a discussion about the concept and the assessment of the impact of the phenomenon. Further the feasibility of the implementation of the existing EU Action Plan was studied and evaluated. As a result of applied research Measuring Organised Crime in Europe provides an in depth and comparative analysis of current practice in drafting organised crime reports across and by the EU and offers new ideas to improve their quality.

L'ergastolano Paolo Morando, 2022-05-19T00:00:00+02:00 Cinquant'anni fa, vicino a Gorizia esplodeva un'auto uccidendo tre carabinieri. Il colpevole di quella che fu chiamata la 'strage di Peteano' è Vincenzo Vinciguerra, unico reo confessò di tutta la strategia della tensione, condannato all'ergastolo. Ma è veramente tutto chiarito o esistono ancora delle verità nascoste che meritano di essere raccontate? La sera del 31 maggio 1972 una telefonata anonima ai carabinieri di Gorizia segnalò la presenza, a Peteano di una Fiat 500 abbandonata a bordo strada. All'apertura del cofano esplose una bomba, uccidendo i tre carabinieri che la stavano controllando e ferendone un quarto. Di tutte le stragi fasciste, questa è la più singolare per la presenza di un reo confessò: Vincenzo Vinciguerra di Ordine Nuovo. La sua 'assunzione di responsabilità' arrivò solo nel 1984, dopo indagini svolte prima in direzione di Lotta Continua, poi verso un gruppo di goriziani, assolti dopo oltre un anno di carcere. In seguito si scoprì che alti ufficiali dell'Arma (ma la polizia non fu da meno) protessero i neofascisti che avevano ucciso tre loro commilitoni. Anche il segretario del Msi, Giorgio Almirante, fu rinviaiato a giudizio per favoreggiamento e sfuggì al processo solo grazie a un'amnistia. Oggi Vinciguerra continua a dichiararsi combattente contro lo Stato e non ha mai usufruito di alcun permesso. Con un racconto incalzante, il libro fa luce sugli aspetti ancora in ombra della strage e sullo stesso Vinciguerra, intervistato in carcere, svelando una storia italiana ancora oggi difficile da accettare.

Combatting Illicit Trade in Tobacco Products Stanisław Tosza, John A. E. Vervaele, 2022-02-17 This book focuses on the enforcement aspect of tobacco control policy, and argues that the intense regulation of the tobacco market will never be successful as long as it can be circumvented by the availability of illicit tobacco products. Yet, current efforts to combat illicit tobacco trade are insufficient, suffering from several flaws and gaps at the regulatory and operational levels. The aim of this book is to provide an analysis of the legal framework and practice of enforcement with regard to illicit tobacco products. Combining criminological and legal perspectives, it presents and critically analyses the phenomenon of illicit tobacco trade, as well as the policies, legal frameworks and practices in six EU countries with regard to combatting this phenomenon, assessing the strengths and weaknesses of their approaches. Furthermore, it studies the relationship between the EU and

third countries (e.g. Ukraine) in terms of how the EU can influence policy and enforcement in these countries in order to counter illicit tobacco trafficking. Not exclusively focusing on the EU, the book also includes an analysis of enforcement against illicit tobacco products in the US. The EU Member States analysed in the book (Belgium, Germany, Italy, Latvia, the Netherlands and Poland) reflect the range of currently available approaches. Some of them have ratified the WHO Protocol against tobacco smuggling; others have not. They belong to different legal traditions and face different challenges due to their respective border situations. While Belgium and the Netherlands are key entry ports to the EU, Poland and Latvia represent the Eastern land border of the EU, with various regional challenges. Italy has a long maritime border, where trafficking is possible from Northern Africa and from the Middle East. It also has significant experience in fighting organised crime. Lastly, Germany is the largest market in Europe and situated in the middle of these trafficking routes.

Bombe a inchiostro Aldo Giannuli, 2013-07-05 Italia, anni Settanta. Mentre piombo e tritolo infiammano il Paese, si combatte una guerra più sotterranea e silenziosa tra le cosiddette fonti ufficiali dell'informazione e i molti rivoli della militanza democratica. Di fronte alle azioni di depistaggio dei servizi segreti deviati, nascono gruppi di controinformazione impegnati a costruire, svelare e diffondere le notizie attraverso strumenti nuovi e alternativi: non più solo i giornali, ma anche il cinema, la radio, il teatro, i fumetti, la canzone, la satira. Per la prima volta, una generazione attenta e politicizzata tenta di smascherare le menzogne del potere. Grazie a numerosi documenti inediti, Aldo Giannuli ricostruisce con il rigore dello storico una stagione tormentata, dal Sessantotto al sequestro Moro, che ha contribuito in modo fondamentale alla costruzione dell'identità italiana.
