Theoretical Information Studies: Information In The World Mark Burgin, Gordana Dodig-crnkovic, 2020-03-24 This is the first attempt to delineate the synthetic field of the theoretical study of information, treating information as the basic phenomenon on the fundamental level of the world, encompassing nature, technology, individuals and society. The exploration of information is done within Info-computational approaches, to natural and social phenomena such as Bioinformatics, Information Physics, Informational Chemistry, Computational Physics, Cognitive and Social sciences, with special emphasis on interdisciplinary, crossdisciplinary and transdisciplinary knowledge. The book presents results of collaboration across research fields within info-computational and info-structural frameworks, in attempt to better theoretically and conceptually capture the phenomenon of information and its dynamics (such as computation and communication), as they appear on different levels of organization, on different scales and in different contexts.

The Kurdish Movement in Turkey Elsa Tulin Sen, 2025-08-21 This book examines the Kurdish movement in the context of total social movement theory. First tracing its origins as a conventionally nationalist movement, Elsa Sen draws upon Alan Touraine's concept of a total social movement to argue that from 2000 to 2015 the Kurds in Turkey pursued a policy of engaging in a peace process, channeling energy into civil society activism and electoral campaigns, and promoting an inclusive understanding of national identity for all the components of Turkish society - not just the Kurds - in a hypothetically fully functioning democracy. Both theoretically informed and drawing upon empirical research in the form of interviews with Kurdish and Turkish activists, non-activists and political representatives, the book provides a new perspective on contemporary Kurdish politics as oscillating between nationalist and social movement paradigms, with the recent decline of the latter due to the resumption of military action by the Turkish state and the Kurdistan Workers' Party after 2015.

**The Persecution of Professors in the New Turkey** Clyde R. Forsberg Jr., 2017-05-11 Scholars credit the European Renaissance and Enlightenment to the fall of Constantinople in 1453, when Greek scholars in particular were driven from the Byzantine capital, taking with them everything they had learned about their own Greek intellectual heritage and classical philosophical tradition, thanks, in part, to the scholarly enterprise of Islamic scholasticism and a spirit of intellectual cooperation that had existed until that time. The "expulsion of excellence" that followed closely on the heels of Mehmed II's military victory in 1453 proved problematic for an emergent, modern-Muslim, imperial power, which his capture of the

Byzantine capital instigated, although it was a boon to European intellectual life. Five and a half centuries later, on the night of 15 July 2016, a failed coup attempt that took place in the twin Turkish capital cities of Istanbul and Ankara paved the way for another expulsion of excellence, this time the handiwork of the ruling AK Party and its strongman-cum-dictator, Recep Tayyip Erdoğan. This volume tells the story of an American academic, Clyde R. Forsberg Jr., living and working in the AKP heartland of Turkey. A distinguished Professor in the Department of Western Languages and Literatures at Karabük University at the time, having relocated his entire family to Turkey two years prior, his children becoming fluent in Turkish by this time, and his wife, a native of Kyrgyzstan, slated to enter medical school in just a month's time, the Forsbergs were forced to flee the country after he was detained by the police and tried for "aiding and abetting a terrorist organization." Subsequently found innocent of all charges, Forsberg was nonetheless sacked, forced to clear out his office as University cameras rolled, adding insult to injury. Local online newspapers followed suit, publishing false and misleading stories about his arrest, targeting him and thus putting him and his entire family in danger. Other foreign faculty at Karabük University were likewise falsely charged, imprisoned, and, despite being found innocent of all charges, dismissed and forced to leave the country. A professional historian, American Studies scholar, and Open Society Institute alumnus, Forsberg recounts the events leading up to and following his arrest, employing a media studies approach, which asks hard questions of the role of social media in the preservation of democratic freedoms, which, in the wrong hands, became a very effective tool of the Turkish State and its suppression of democratic freedoms. In Forsberg's case, his imprisonment and subsequent suspension were for the "crime" of posting a poem online that was critical of Karabük University and the country's ruling AK Party's so-called "purge" of foreign faculty.

*The Awakening of Muslim Democracy* Jocelyne Cesari, 2014-04-14 Why and how did Islam become such a political force in so many Muslim-majority countries? In this book, Jocelyne Cesari investigates the relationship between modernization, politics, and Islam in Muslim-majority countries such as Egypt, Iraq, Pakistan, Tunisia, and Turkey - countries that were founded by secular rulers and have since undergone secularized politics. Cesari argues that nation-building processes in these states have not created liberal democracies in the Western mold, but have instead spurred the politicization of Islam by turning it into a modern national ideology. Looking closely at examples of Islamic dominance in political modernization, this study provides a unique overview of the historical and political developments from the end of World War II to the Arab Spring that have made Islam the dominant force in the construction of the modern states, and discusses Islam's impact on emerging democracies in the contemporary Middle East.

*The Republic of Turkey and its Unresolved Issues* Pınar Dinç, Olga Selin Hünler, 2025-03-28 This open access book

explores the Republic of Turkey's unresolved issues that have persisted over the past 101 years. It adopts an interdisciplinary perspective to explore the challenges facing the country to critically analyse the broader historical, political, economic, social and psychological dimensions that intersect with these challenges. It offers a rich and nuanced understanding of Turkey's complex history and contemporary issues, covering topics that have often been undermined or silenced, including but not limited to the Armenian and Dersim genocides, xeno-racism, feminist approaches to sexual morality, queer resistances, environmental movements, and the right to the city.

**Free Speech** Timothy Garton Ash, 2016-05-24 Never in human history was there such a chance for freedom of expression. If we have Internet access, any one of us can publish almost anything we like and potentially reach an audience of millions. Never was there a time when the evils of unlimited speech flowed so easily across frontiers: violent intimidation, gross violations of privacy, tidal waves of abuse. A pastor burns a Koran in Florida and UN officials die in Afghanistan. Drawing on a lifetime of writing about dictatorships and dissidents, Timothy Garton Ash argues that in this connected world that he calls cosmopolis, the way to combine freedom and diversity is to have more but also better free speech. Across all cultural divides we must strive to agree on how we disagree. He draws on a thirteen-language global online project—[freespeechdebate.com](http://freespeechdebate.com)—conducted out of Oxford University and devoted to doing just that. With vivid examples, from his personal experience of China's Orwellian censorship apparatus to the controversy around Charlie Hebdo to a very English court case involving food writer Nigella Lawson, he proposes a framework for civilized conflict in a world where we are all becoming neighbors.

*Digital Transformations in Turkey* Banu Akdenizli, 2015-03-06 Digital Transformations in Turkey analyzes the genesis, dynamics, and operations of different communication contexts in relation to digital transformations in Turkey. The contributors tackle such topics as the impact of social networking channels like Facebook, YouTube, and Twitter and the changing dimensions of social, cultural, and political ideologies. Akdenizli offers a multifaceted and balanced discussion of the role and impact of communication technologies in a country with questionable and blatant freedom of expression violations. This collection will appeal to scholars of communication, new media, and technology in emerging markets.

**Democratic Consolidation in Turkey** Cengiz Erisen, Paul Kubicek, 2016-06-10 While Turkey has made major strides in democratic reforms in the late 1990s and early 2000s, progress has, in many ways, stalled. Turkey remains democratic in the sense that attaining political power depends upon winning votes, but in recent years its leadership has taken a majoritarian view of democracy and the country has faced problems on issues such as rule of law, freedom of speech, and increased polarization. This book explores the understanding and practice of democracy in Turkey since the early 2000s, analyzing its evolution in light of the parliamentary elections held in 2015. Adopting a more holistic approach in line with the writing of Wolfgang Merkel, it recognizes that a successful, consolidated democracy has various micro and macro-level foundations.

The former includes factors such as political values, tolerance, identity, and civil society, while the latter includes political economy, party competition, and institutional development. This volume rejects purely descriptive assessments and instead employs theoretical perspectives to analyze a dynamic political environment. It brings together a range of noted specialists on Turkish politics and society, who employ different methodological approaches and frameworks to offer a distinct scholarly work on democratization in Turkey. A thorough analysis of the problems of democratic consolidation, alongside an awareness of the theoretical and methodological debates in the discipline, make this book essential reading for students, scholars and policymakers interested in Turkish politics, as well as democratization and democratic transitions more generally.

**Turkey** Martha Kneib, 2003-12-15 Turkey's natural geography has made it one of the world's crossroads, paving the way for a long history of fevered conquerors and grand empires. *Turkey: A Primary Source Cultural Guide* tells the story of Turkey from its first civilizations to the Persians, Greeks, Romans, and Turks who comprise its history. Various periods such as the rise of the Ottomans, the influence of the Byzantine Empire, and the 20th century reforms of Kemal Atatürk are each discussed in detail. Modern-day Turkey and its ongoing struggle to achieve political stability, equal human rights, and entrance into the European Union are also touched upon.

**Media in New Turkey** Bilge Yesil, 2016-06-30 In *Media in New Turkey*, Bilge Yesil unlocks the complexities surrounding and penetrating today's Turkish media. Yesil focuses on a convergence of global and domestic forces that range from the 1980 military coup to globalization's inroads and the recent resurgence of political Islam. Her analysis foregrounds how these and other forces become intertwined, and she uses Turkey's media to unpack the ever-more-complex relationships. Yesil confronts essential questions regarding: the role of the state and military in building the structures that shaped Turkey's media system; media adaptations to ever-shifting contours of political and economic power; how the far-flung economic interests of media conglomerates leave them vulnerable to state pressure; and the ways Turkey's politicized judiciary criminalizes certain speech. Drawing on local knowledge and a wealth of Turkish sources, Yesil provides an engrossing look at the fault lines carved by authoritarianism, tradition, neoliberal reform, and globalization within Turkey's increasingly far-reaching media.

**Israel and the Cyprus Question** Gabriel Haritos, 2023-05-18 Providing a detailed account of Israel's foreign policy towards the Cyprus question between 1946 and the declaration of Cypriot independence in August 1960, Gabriel Haritos examines the international and regional factors which shaped Israel's approach to diplomatic relations with the independent Republic of Cyprus. Based on newly available archival material from the Israeli Ministry of Foreign Affairs, declassified at the author's request, and on archival material collected from both sides of the Cypriot divide, Haritos highlights previously unknown events, and the key personalities involved in Israel's political and diplomatic interactions over the Cyprus question.

In doing so, he offers key insights into the Middle Eastern aspect of the unresolved Cyprus conflict.

**Social Media and Politics in Turkey** , Erkan Saka,2019-11-20 This book focuses on media and zeroes in some critical and oppositional aspects of internet usage within Turkey. It does not radically challenge some works on Turkey's recent grand narrative but presents empirical and minor accounts to this. However, in elaborating the long history of relatively resilient and multilayered oppositional digital media networks in Turkey, this book insists that an idea of authoritarian turn may be misleading as the internet communications are exposed to repressive measures and surveillance tactics from the very beginning of the country's recent past. While discussing from citizen journalism practices to political trolls and from Gezi Park protests to disinformation campaigns, this book pays tribute to digital activists and points out that mobilizing through digital networks can present glimmers of hope in challenging authoritarian regimes.

**Religion and Democratizations** Jeffrey Haynes,2013-09-13 This book examines key debates on religion and democratization from three main perspectives: Religious traditions have core elements which are more or less conducive to democratization and democracy; Religious traditions may be multi-vocal – but at any moment there may be dominant voices more or less receptive to and encouraging of democratization; Religious actors rarely if ever determine democratization outcomes. However, they may in various ways and with a range of outcomes be of significance for democratization. The contributions are divided into two sections: (1) Religion, democratization and democracy, and (2) Secularization, democratization and democracy. Overall, they examine the three assertions in the bullet points above. The book's starting point is that in general around the world, religions have left their assigned place in the private sphere. This means they have in many cases become recognisably politically active in various ways and with assorted outcomes. This re-emergence from political marginality dates back until at least the 1980s. At that time, the US sociologist, Jose Casanova noted that 'what was new and became news ... was the widespread and simultaneous refusal of religions to be restricted to the private sphere'. This involved a remodelling and re-assumption of public roles by religion, which theories of secularisation had long condemned to social and political marginalisation. This book was published as a special issue of Democratization.

Muhammad in the Digital Age Ruqayya Yasmine Khan,2015-11-15 The early twenty-first century has experienced an unrivaled dissemination of information and misinformation about Islam, its prophet Muhammad, and its followers, largely facilitated by the fact that the tragedy of 9/11 roughly coincided with the advent of the digital age. In the first collection of its

kind, Ruqayya Khan has compiled essays that treat Muhammad and the core elements of Islam as focal points in an exploration of how the digital era—including social media and other expressions—have both had an effect on and been affected by Islam. Scholars from a variety of fields deal with topics such as the 2005 cartoon controversy in Denmark and the infamous 2012 movie trailer “Innocence of Muslims” that some believe sparked the attacks on the US consulate in Benghazi, as well as how the digitization of ancient texts have allowed the origins of Islam to be studied in new ways. Other essays examine how Muhammad’s wives have been represented in various online sources, including a web comic; the contrasting depictions of Muhammad as both a warrior and peacemaker; and how the widespread distribution of “the look” of Islamic terrorists has led to attacks on Sikhs, whose only point of resemblance to them may be a full beard. These findings illuminate the role of the Internet in forms of representation, advocacy, and engagement concerning Islam and Muslims in our world today.
