The Art of the Sonnet Stephen Burt, David Mikics, 2010 Few poetic forms have found more uses than the sonnet in English, and none is now more recognizable. It is one of the longest-lived of verse forms, and one of the briefest. A mere fourteen lines, fashioned by intricate rhymes, it is, as Dante Gabriel Rossetti called it, a moment's monument. From the Renaissance to the present, the sonnet has given poets a superb vehicle for private contemplation, introspection, and the expression of passionate feelings and thoughts. The Art of the Sonnet collects one hundred exemplary sonnets of the English language (and a few sonnets in translation), representing highlights in the history of the sonnet, accompanied by short commentaries on each of the poems. The commentaries by Stephen Burt and David Mikics offer new perspectives and insights, and, taken together, demonstrate the enduring as well as changing nature of the sonnet. The authors serve as guides to some of the most-celebrated sonnets in English as well as less-well-known gems by nineteenth- and twentieth-century poets. Also included is a general introductory essay, in which the authors examine the sonnet form and its long and fascinating history, from its origin in medieval Sicily to its English appropriation in the sixteenth century to sonnet writing today in the United States, the United Kingdom, and other English-speaking parts of the world. --Book Jacket.

The Columbia Anthology of British Poetry Carl R. Woodring, James Shapiro, 1995-12-07 A sweeping compendium of British verse from Old and Middle English to the present, including the best work of poets from every corner of the British Isles, The Columbia Anthology of British Poetry offers the most up-to-date and comprehensive single volume available. Carl

Woodring and James Shapiro, the same experienced editorial team who brought students and lovers of literature The Columbia History of British Literature, now present a volume that resonates with contemporary significance, yet also takes into account the centuries-old poetic tradition that planted Great Britain centrally in the canon of Western Literature. The Columbia Anthology pays tribute to the renowned works that any include--Chaucer, Spenser, Shakespeare, Milton, Blake, Eliot, Auden. But the book also resurrects the voices of excellent poets, particularly women--such as Queen Elizabeth I, Anne Ingram, and Christina Rossetti--who have been unjustifiably ignored until recently. Contemporary British poetry is fully represented as well, with the work of Thom Gunn, Seamus Heaney, Liz Lochhead, and Paula Meehan bringing The Columbia Anthology up to the minute. Unencumbered by extensive notes that divert attention from the spirit of verse, The Columbia Anthology of British Poetry allows readers to discover the poems for themselves. It is a collection poetry lovers will want on their shelves for years to come, to read and enjoy again and again.

Laura Barbara L. Estrin, 1994-12-15 How do men imagine women? In the poetry of Petrarch and his English successors—Wyatt, Donne, and Marvell—the male poet persistently imagines pursuing a woman, Laura, whom he pursues even as she continues to deny his affections. Critics have long held that, in objectifying Laura, these male-authored texts deny the imaginative, intellectual, and physical life of the woman they idealize. In Laura, Barbara L. Estrin counters this traditional view by focusing not on the generative powers of the male poet, but on the subjectivity of the imagined woman and the imaginative space of the poems she occupies. Through close readings of the Rime sparse and the works of Wyatt, Donne, and Marvell, Estrin uncovers three Lauras: Laura-Daphne, who denies sexuality; Laura-Eve, who returns the poet's love; and Laura-Mercury, who reinvents her own life. Estrin claims that in these three guises Laura subverts both genre and gender, thereby introducing multiple desires into the many layers of the poems. Drawing upon genre and gender theories advanced by Jean-François Lyotard and Judith Butler to situate female desire in the poem's framework, Estrin shows how genre and gender in the Petrarchan tradition work together to undermine the stability of these very concepts. Estrin's Laura constitutes a fundamental reconceptualization of the Petrarchan tradition and contributes greatly to the postmodern reassessment of the Renaissance period. In its descriptions of how early modern poets formulate questions about sexuality, society and poetry, Laura will appeal to scholars of the English and Italian Renaissance, of gender studies, and of literary criticism and theory generally.

Power in Verse Jane Hedley, 2010-11 English lyric poetry from Wyatt to Donne falls into three consecutive stylistic phases. Tottel's Miscellany presided over the first, making the lyrics of Wyatt and Surrey available for imitation by mid-century poets like Barnabe Googe, George Turberville, and George Gascoigne. The Shepheardes Calender and Sidney's Defense of Poesy ushered in the second, the Elizabethan or &Golden& phase of the 1580s and 1590s. In the third phase Donne and Jonson, reacting against the stylistic orientation of the Elizabethan poets, reconceived the status of &poesy& and resituated the lyric for a post-Elizabethan audience. Chapter 7 is shared between Donne and Jonson, post-Elizabethan writers who used metonymy to subvert the metaphoric stance of Elizabethan poetry. In a Postscript Hedley takes on the &metaphysical conceit& for a final demonstration of the explanatory power of Jakobson's theory of language. Professor Hedley uses the semiotic theory of Roman Jakobson to create stylistic profiles for each of these three phases of early Renaissance poetry. Along with the poetry itself she reexamines contemporary treatises, &defenses,& and ¬es of instruction& to highlight key features of poetic practice. She proposes that early and mid-Tudor poetry is &metonymic,& that the collective orientation of the Elizabethan poets is &metaphoric,& and that Donne and Jonson bring metonymy to the fore once again. Chapter 1 sets out the essentials of Jakobson's theory. Hedley uses particular poems to show what is involved in claiming that a writer or a piece of writing has metaphoric or a metonymic basis. Chapter 2 explains how the metaphoric bias of Elizabethan poetry was produced, as &poesy& became part of England's national identity. This chapter broadens out beyond the lyric to include other modes of writing whose emergence belongs to an Elizabethan &moment& in the history of English literature. Beyond chapter 2, each chapter has a double purpose: to create stylistic profile for a single poetic generation and to highlight a particular aspect or feature of the poetry as an index of difference from one generation to the next. In the third chapter Hedley shows how Wyatt and Surrey used deixis metonymically to give their poems particular occasions. Chapter 4 explains how the metonymic bias of the mid-Tudor poets affected their use of metaphor, and highlights Gascoigne's appreciation of a metaphor as a social gambit or an instrument of moral suasion. Chapters 5 and 6 are centered in the Elizabethan period, but with perspectives into earlier and subsequent phases of metonymic writing. In chapter 5, a comprehensive discussion of the sonnet and the sonnet sequence shows how metaphoric writing cooperates with the &poetic function& of language. Chapter 6 deals with love poetry, as a social/political activity whose orientation differs radically from one generation of English Petrarchists to the next.

Sonnet Sequences and Social Distinction in Renaissance England Christopher Warley, 2005-07-28 Since the 1970s there has been a broad and vital reinterpretation of the nature of literary texts, a move away from formalism to a sense of literature as an aspect of social, economic, political, and cultural history. While the earliest New Historicist work was criticized for a narrow and anecdotal view of history, it also served as an important stimulus for post-structuralist, feminist,

Marxist, and psychoanalytical work, which in turn has increasingly informed and redirected it. Recent writing on the nature of representation, the historical construction of gender and of the concept of identity itself, on theatre as a political and economic phenomenon, and on the ideologies of art generally, reveals the breadth of the field. Cambridge Studies in Renaissance Literature and Culture is designed to offer historically oriented studies of Renaissance literature and theatre which make use of the insights afforded by theoretical perspectives. The view of history envisioned is above all a view of our history, a reading of the Renaissance for and from our own time. Book jacket.

The Dorothy Dunnett Companion Elspeth Morrison, 2001-07-10 Here is a lovingly assembled, essential A-Z companion to Dorothy Dunnett's brilliant Lymond Chronicles and the first five novels in the House of Niccolò series. Elspeth Morrison has re-created the author's exhaustive original research, documenting her myriad sources and literary references. Foreign phrases are translated; poems and quotations presented in full; historical figures and events fleshed out; subtle allusions—and there are many—noted. From the origins of the Arabic drink qahveh to a recipe for quince paste, from the medical uses of ants and alum, to Zacco, Zenobia, and Zoroaster, this easy-to-use A-to-Z reference richly illuminates the intricacies of the complex and far-flung Renaissance world Dorothy Dunnett's creations so colorfully inhabit.

Hunting and the Ivory Tower Douglas Higbee, David Bruzina, 2018-05-11 Seventeen hunter-scholars explore the hunting experience and question common negative stereotypes. Despite the academy having a reputation for supporting broad and open inquiry in scholarship, some academics have not extended this open-minded support to colleagues' personal pursuits. A variety of scholars enjoy hunting, which has been stereotyped by some as an activity of the unsophisticated. In *Hunting and the Ivory Tower*, Douglas Higbee and David Bruzina present essays by seventeen hunter-scholars who explore the hunting experience and question negative assumptions about hunting made by intellectuals and academics who do not hunt. Higbee and Bruzina suspect most academics' understanding of hunting is based on brief television news reports of hunter-politicians and commercials for reality TV shows such as *Duck Dynasty*. The editors contend that few scholars appreciate the complexities of hunting or give much thought to its ethical, ecological, and cultural ramifications. Through this anthology

they hope to start a conversation about both hunting and academia and how they relate. The contributors to this anthology are academics from a variety of disciplines, each with firsthand hunting experience. Their essays vary in style and tone from the scholarly to the personal and represent the different ways in which scholars engage with their avocation. The essays are grouped into three sections: the first focuses on the often-fraught relation between hunters and academic culture; the second section offers personal accounts of hunting by academics; and the third portrays hunting from an explicitly academic point of view, whether in terms of value theory, metaphysics, or history. Combined, these essays render hunting as a culturally rich, deeply personal, and intellectually satisfying experience worthy of further discussion. A foreword is provided by Robert DeMott, the Edwin and Ruth Kennedy Distinguished Professor at Ohio University in Athens, Ohio. He is a teacher, writer, critic, and internationally respected expert on novelist John Steinbeck.

Court Politics, Culture and Literature in Scotland and England, 1500-1540 Jon Robinson, 2017-11-30 The focus of this study is court literature in early sixteenth-century England and Scotland. The author examines courtly poetry and drama in the context of a complex system of entertainment, education, self-fashioning, dissimulation, propaganda and patronage. He places selected works under close critical scrutiny to explore the symbiotic relationship that existed between court literature and important socio-political, economic and national contexts of the period 1500 to 1540. The first two chapters discuss the pervasive influence of patronage upon court literature through an analysis of the panegyric verse that surrounded the coronation of Henry VIII. The rhetorical strategies adopted by courtiers within their literary works, however, differed, depending on whether the writer was, at the time of writing the verse or drama, excluded or included from the environs of the court. The different, often elaborate rhetorical strategies are, through close readings of selected verse, delineated and discussed in chapter three on David Lyndsay and chapter four on Thomas Wyatt and Thomas Elyot.
