Desconocida Buenos Aires. Historias de frontera Leandro Vesco,2021-11-16 Añoramos tradiciones de pueblos mínimos. Queremos perdernos en caminos salidos de una ficción. Necesitamos historias de frontera con el valor de lo simple. En esta segunda entrega de Desconocida Buenos Aires, Leandro Vesco logra que viajemos en el tiempo y nos lleva a lugares donde los almaceneros siguen anotando las deudas en libretas y las cartas a mano le ganan al mundo digital. La profundidad de las tierras bonaerenses nos muestra pueblos entrañables con habitantes rurales, que son los grandes protagonistas de estos parajes, además de los bodegones y pulperías. Las rutas crean un puente inmediato con la vida sana y natural, el atractivo infalible del descanso pleno. Solo tenemos que animarnos a la aventura que nos proponen las historias de frontera para reconectarnos con la esencia y el alma de campo.

El desperdicio Matilde Sánchez,2014-11-04 Un relato sobre la amistad y sobre cómo la inteligencia puede resultar un recurso insuficiente cuando va siendo mellada por la vida, con su carga de tragedia, indolencia y mezquindad. Una novela que se distingue por su maestría y por su originalísimo modo de narrar. El desperdicio cuenta la historia de Elena -Helen, Hélène, Lenu, Lena-, al principio estudiante llegada a Buenos Aires desde un pueblo del interior, más tarde profesora y brillante crítica, cabeza de un grupúsculo destacado en esos años de capillas literarias y célebres teóricos, sobre todo de discípulos del formalismo. En el agudo retrato, quedan plasmados su entusiasmo, su lucidez intelectual y su fama, que conquista mientras practica el deporte del amor y la cinefilia en blanco y negro. Con el transcurrir del tiempo y de la historia quedan atrás los años despreocupados y la decadencia se cuela tanto en la vida de Elena como en la de un país cuyo campo #el origen de su riqueza- se puebla de indigentes, habitantes de contenedores, cazadores de liebres.

Historias de mujeres con derechos Gerardo Raúl Mosquera, 2023-04-12 A pesar de los muchos logros de los movimientos feministas y de que, en general, la legislación resguarda los derechos de las mujeres, día a día somos testigos de cuánto camino nos queda por recorrer en cuestiones de género. Porque son ellas las más precarizadas, las que mayoritariamente sostienen los hogares monomarentales y las que sufren de las muchas formas de abuso y violencia del sistema patriarcal. Los relatos recopilados por Gerardo Mosquera en este libro, entonces, son los de sus protagonistas, pero también podrían ser los de cualquiera de las mujeres que, aún hoy, ven vulnerados sus derechos día a día. Por eso mismo, por su entrecruzamiento de historias reales con la legislación, *Historias de mujeres con derechos* (inspiradas en hechos reales) se erige como un documento imprescindible en la lucha por la igualdad de oportunidades y derechos para todos los miembros de la sociedad

Monitorear la sostenibilidad de la bioeconomía/Monitoring the sustainability of the bioeconomy Food and Agriculture Organization of the United Nations, 2023-08-21 Este informe, se centra en cómo monitorear la sostenibilidad de la bioeconomía y describe cómo desarrollar dos sistemas de monitoreo; flujos cualitativos de biomasa de los principales productos básicos agrícolas y su sostenibilidad y circularidad, y el análisis de sectores de base biológica dentro de la economía en general. Ambos se complementan para obtener un análisis exhaustivo de la sostenibilidad de la bioeconomía y proporcionar una base sólida para evaluar la circularidad en los flujos de biomasa y el desarrollo intersectorial de la bioeconomía. El documento examina el ejemplo de Uruguay para la soja, el arroz, la ganadería, la silvicultura (coníferas y no coníferas) y la pesca y la acuicultura y analiza la sostenibilidad de los productos básicos como la pulpa de eucalipto (silvicultura), la carne vacuna (ganadería), la soja (cultivos), leche en polvo (productos lácteos) y pesca. También analiza la participación de la bioeconomía dentro de la economía nacional y analiza su sostenibilidad. El informe se basa en los Principios y criterios aspiracionales para una bioeconomía sostenible desarrollados por el Grupo de trabajo internacional sobre bioeconomía sostenible liderado por la FAO, que proporcionan una plantilla de seguimiento útil que podría guiar a otros países y regiones y vincularse con los Objetivos de desarrollo sostenible. This publication focuses on how to monitor the sustainability of the bioeconomy and describes how to develop two monitoring systems; qualitative biomass flows of major agricultural commodities and their sustainability and circularity, and analysis of bio-based sectors within the wider economy. Both complement each other to obtain a comprehensive analysis of the sustainability of the bioeconomy and to provide a solid basis for assessing the circularity in biomass flows and cross-sectoral development of the bioeconomy. The study provides an example in Uruguay, for soybean, rice, livestock, forestry (coniferous and non-coniferous) and fisheries and aquaculture and analyses the sustainability of core products such as Eucalyptus pulp (forestry), beef (livestock), soybeans (crops), milk powder (dairy products) and fisheries. It also looks at the share of the bioeconomy within the national economy and analyses

its sustainability. The Aspirational Principles and Criteria for a sustainable bioeconomy developed by the FAO-led International Sustainable Bioeconomy Working Group provide a useful monitoring template that could guide other countries and regions and link to the Sustainable Development Goals.

Monovolumen intensivo porcino Fernando Garófalo, 2011 "... la mayoría de los puntos que conforman las inquietudes del sector de productores que van hacia el confinamiento, fueron tenidos en cuenta dentro del tratamiento en este material. Siendo el resultado la presentación de alternativas positivas para los productores. Compartiendo nuestras experiencias y avanzando en forma planificada. Las posibilidades para el despegue productivo existen, como así también el desarrollo de los insumos por nuestra gente y en el país, todos los sectores acompañados y generando en conjunto una visión diferente de producir y negociar, es la forma de lograr el lugar donde la carne de cerdo debe estar en el concierto nacional."

Historias mínimas de mujeres enormes María del Rosario Gallardo, 2024-10-01 Historias mínimas de mujeres enormes es principalmente un relato, con un gran número de historias de mujeres que han vivido en Villa Concepción del Tío y han prestado servicios a la comunidad. En algunos casos las hemos visto transitar nuestras calles; otras, en cambio, desde su hogar han tenido que sobrellevar sus vidas con las herramientas con las que contaban, y algunas han tenido que hacer frente a las distintas necesidades y afrontar problemas de salud, pérdidas y duelos. Todas han sido ejemplos para destacar por su labor y resiliencia ante las circunstancias. Esta es una obra cargada de matices, recuerdos, vivencias y comentarios desde una época remota hasta la actualidad.

Desconocida Buenos Aires. Escapadas soñadas Leandro Vesco, 2020-12-09 Soñamos con una escapada que nos desconecte de todo. Soñamos con la naturaleza. Soñamos con la libertad. En esta tercera entrega de Desconocida Buenos Aires, Leandro Vesco nos vuelve a conectar con la magia de lo simple: rutas con kilómetros de verde relajante, largas siestas bajo los árboles, el contacto con animales de campo y los sabores de la comida casera y fresca. A través de historias de pueblos y personajes que parecen de otro tiempo, nos traslada a esos espacios de la provincia que nos esperan con los brazos abiertos para aliviarnos el estrés. Lleno de recomendaciones expertas, este libro reúne actividades al aire libre, visitas locales imperdibles (que van desde pulperías, almacenes y bodegas hasta cascos antiguos, templos y museos), variados hospedajes y mucho más. La invitación está hecha. Solo hace falta abrir estas páginas para hacer las escapadas soñadas que tanto nos merecemos.
