The Essence of Rumi John Baldock,2005-10-11 Get drunk on Love, for Love is all that exists. Unless you make Love your business, you will not be admitted to the Beloved.' (Divan-i Shams-i Tabriz 455:A1:54) The thirteenth-century saint Jalaluddin Rumi has been called the greatest mystical poet of any age, and his work compared to that of Dante and Shakespeare. Over a period of 25 years he composed over 70,000 verses of poetry on the subjects of divine love, mystic passion and ecstatic illumination. Rumi was also a master story-teller, as this comprehensive exploration of his work so rewardingly reveals. Primarily an introduction to Rumi and the path of self-surrender, it is arranged in such a way that it guides the reader from the poet's outer, historical world to the inner, spiritual essence of his teaching. The Essence of Rumi offers us the opportunity to overcome the limitations of our human view of the world and transform our sensory eye into the poet's all-seeing Ocean of Reality.

The Nature of the Sufi Path Anab Whitehouse,2018-11-06 The material in The Nature of the Sufi Path consists of 70 commentaries on a book entitled Sufism: A Short Introduction by Professor William C. Chittick. Many, if not most, of the paragraphs that comprise the 163 pages (preface plus text) of Professor Chittick's book contain problems, errors, misleading statements, and/or incorrect understandings concerning Islam, in general, and the Sufi path, in particular. This is both surprising and disturbing since the author is someone who, apparently, enjoys a considerable reputation in North America -- and, perhaps, elsewhere in the world -- as an expert on, and scholar of, the Sufi mystical tradition. I do not claim that what I say in this book is a definitive, exhaustive, 'incapable-of-being-improved-upon' treatment of the Sufi path. Rather, my hope is that the present book might move a person closer to the truth concerning the nature of that path than Professor Chittick's

aforementioned introduction to Sufism does and, as such, would represent an improvement over his work.

‘1’: the Ultimate Foundation of Nature Orest Bedrij, 2015-11-10 ***** BACK COVER TEXT ***** 1: The Ultimate Foundation of Nature may very well be the most important conceptual breakthrough in the prediction, validation, and unification of physics. It provides solutions to challenges posed by the greatest minds of all time. Eugene Wigner of Princeton University, 1963 Nobel laureate in physics, stated, The full meaning of life, the collective meaning of all human desires, is fundamentally a mystery beyond our grasp . . . We have no right to expect that our intellect can formulate perfect concepts for the full understanding of inanimate natures phenomena. Max Planck from the University of Berlin, 1918 Nobel laureate in physics, declared, Science cannot solve the ultimate mystery of nature. And it is because in the last analysis we ourselves are part of the mystery we are trying to solve. In 1: The Ultimate Foundation of Nature, we suggest that you have in your hands the solution for the ultimate mystery of nature that has no explanations in terms of deeper principles. It is based on the laws of physics, the unchanging frame of reference, the 1, predicting, validating, and unifying different laws and theories in a seamless, all-embracing theory of everything. Some Earlier Reviews on Books by Orest Bedrij By integrating spiritual validations with scientific evidence, placing one upon the other in verification after verification, Orest Bedrij arrives at an amalgam of the one single fundamental concept: 1 . . . a holy vision of you, the nature of God, and the theory of everything. Dr. Tibor Horvath, SJ, Professor Emeritus, University of Toronto; Founder/General Editor, Ultimate Reality and Meaning This book is an important stepping-stone to a quantum jump in evolution, a world of oneness, which is in the making under our very eyes. May this book inspire leaders to catch up with the sages of our times, who are revealing to us the fundamental oneness of humanity and all creation. Dr. Robert Muller, Chancellor of the United Nations University for Peace; Former Assistant Secretary General of the United Nations Here is a manual for raising the human dimension and struggle to its cosmic significance. Its encyclopedic scope and depth is the product of a lifetime of dedicated study. Orest Bedrij brings fresh light to the Divine disguise in time . . . The book turns into the coinage of everyday parlance. Dr. Glen A. Olds, Former President of Kent State University; US Ambassador to the UN Economic and Social Counsel Cover design by Andrew Patapis

Garden of the Sufi: Insights Into the Nature of Man Jim Aghevli, 1999-03 Over the centuries, religion has inspired some of civilization's most beautiful poetry, and certain Persian Muslims, the Sufi, have created intricately wrought poems celebrating peace and harmony. The world is a beautiful garden of mystery when viewed through the eyes of the Sufi. Each poem, most from the 1200's, is clearly and fully explained in its historical, religious, political, and spiritual context. Written to propagate tranquility and harmony through a better understanding of an important religion and its impact on literature, *Garden of the Sufi* is a lavishly thorough exploration of Sufi poetry and philosophy.

Nature and the Human Soul Bill Plotkin, 2010-10-04 Addressing the pervasive longing for meaning and fulfillment in this time of crisis, *Nature and the Human Soul* introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us. Depth psychologist and wilderness guide Bill Plotkin presents a model for a human life span rooted in the cycles and qualities of the natural world, a blueprint for individual development that ultimately yields a strategy for cultural transformation. If it is true, as Plotkin and others observe, that we live in a culture dominated by adolescent habits and desires, then the enduring societal changes we so desperately need won't happen until we individually and collectively evolve into an engaged, authentic adulthood. With evocative language and personal stories, including those of elders Thomas Berry and Joanna Macy, this book defines eight stages of human life — Innocent, Explorer, Thespian, Wanderer, Soul Apprentice, Artisan, Master, and Sage — and describes the challenges and benefits of each. Plotkin offers a way of progressing from our current egocentric, aggressively competitive, consumer society to an ecocentric, soul-based one that is sustainable, cooperative, and compassionate. At once a primer on human development and a manifesto for change, *Nature and the Human Soul* fashions a template for a more mature, fulfilling, and purposeful life — and a better world.

Francis Alÿs. The Nature of the Game Gerard-Jan Claes ,Stéphane Symons, 2023-09-15 In 1999, a short video of a solitary boy kicking an empty bottle up a hill in Mexico City became the first instalment of Children's Games, a series of works by artist Francis Alÿs (b. Antwerp, 1959). The ongoing project, which now numbers around thirty-five works, has gradually given shape to an extensive collection of videos of children at play. For almost twenty-five years, Alÿs and his collaborators Félix Blume, Julien Devaux, and Rafael Ortega have been travelling around the world to document the distinctive ways in which children interact with each other and their physical environment. They have gone from remote villages in the Democratic Republic of the Congo, Afghanistan, Venezuela, and Nepal to the mountains of Switzerland and metropolises like Hong Kong and Paris, but have also visited the war-torn city of Mosul in Iraq, the border between Mexico and the United States, and the strait of Gibraltar that divides Africa and Europe. The resulting images are standing proof of the seriousness of play and of children's stunning powers of resilience in the face of conflict. This volume provides a multidisciplinary perspective to the many layers of Children's Games. It includes an interview with Francis Alÿs and Rafael Ortega, a series of essays by well-known scholars and art critics, curatorial statements, and a logbook related to the presentation of Children's Games at the Venice Biennale of 2022.

The laws of Human nature Unity of Universal love ,2023-12-22 Introduction A life of Healing, a life of Health, A life worth living is a life of Wealth. I have practiced over 25 years as a chiropractor and I have learned that most people come to

me to treat their pain. I'm sure that most doctors and therapists have the same experience, people want to receive a treatment that will cure their illness. As I treat my patients I'm also analyzing how their problem was created. I'm looking at various factors like diet, lack of exercise, injurious repetitive movements or anything else that could provoke the problem. I'm trying to get the patient to take responsibility for their problem and help me with their treatment. It appears that I'm treating their physical illness but over the years I have come to a new realization, that a person's emotional, mental and spiritual side can also affect their health. The reality of the situation is that we can't separate an illness into a physical, emotional, mental or spiritual ailment, because everything works together. I now understand that attitudes play an essential role in our health and wellbeing. Attitudes have characteristics that are physical, emotional, mental and spiritual. In psychology attitudes are labeled as behavioral (physical), affective (emotional) and cognitive (mental). In this book attitudes have a spiritual side as well, attitudes will have a positive spiritual value or a negative spiritual value. Attitudes that bring people together and unite them has an energy with a positive spiritual value and attitudes that are divisive and cause separation has a negative value. If we have attitudes with a negative spiritual energy then they will cause illness; physical illness, mental illness and emotional illness. We need to adopt attitudes with a positive spiritual energy if we want to stay healthy and grow spiritually. Spiritual growth is there for all of us but we have to make the effort, no one can make us grow spiritually. Looking for someone to cure our ills is a short-term proposition, the long term cure is when we discover what is causing us harm and create a healthy lifestyle. The 7 Laws of Human Nature is a scientific philosophical study into the human consciousness, the 7 chakras and the human aura. We use theories to make sense about what we are observing in life, to explain ideas and interpret facts. The 1st chapter is the Theory of the Oneness of Universal Love, which will present 7 hypotheses. These hypotheses will present facts and suppositions of facts, which will be followed up by a theory. This is all happening on four energy levels; physical, emotional, mental and spiritual. Life on Earth has to have a reason, our lives aren't an accident and this book presents a logical theory on the how and why of life. This is a book on love and how love works in our lives. With Love and Devotion to All

Rumi's World Annemarie Schimmel, 2001-05-22 This book (previously published as *I Am Wind, You Are Fire*) celebrates the extraordinary career of Persia's great mystical poet, Rumi (1207-1273), through the story of his life, along with an enlightening examination of his ecstatic verse. Rumi lived the quiet life of a religious teacher in Anatolia until the age of thirty-seven, when he came under the influence of a whirling dervish, Shams Tabriz, and was moved to a state of mystical ecstasy. One of the results of this ecstasy was a prodigious output of poems about the search for the lost Divine Beloved, whom Rumi identified with Shams. To symbolize this search, Rumi also invented the famous whirling dance of the Melevi dervishes, which are performed accompanied by the chanting of Rumi's poems. Professor Schimmel illuminates the symbolism and significance of Rumi's vast output and offers her own translations of some of his most famous poems.

Dreaming into Knowing The Innernaut,2024-01-21 Dreaming into Knowing was written by a person who remains unnamed. You can call him the Innernaut, who like astronauts who travel the vast expanses of space in search of new understanding, is on a mission to do the same thing – only on the inner planes. His body does not come along. He travels in the landscapes of meditation and dreams. The Innernaut has been recording his dreams for twenty years, seeking the roots of the universe beyond the manifested appearance of life. After each dreaming episode, he makes conclusions and poses questions and instructions to help you find the way inward to personal experiences. As you do so, you may feel something akin to swimming in an unknown substance neither of the world nor outside of it. Let go into this substance and be taken up by it. If you succeed, you may find yourself delighted as you realize that you, too, are an Innernaut.
