**Pot, Inc.** Greg Campbell, 2012-04-03 Greg Campbell, coauthor of the bestselling *Flawless and Blood Diamonds*, presents a compelling, close-up investigation of a hot-button topic: America's schizophrenic attitude to the legalization of pot. Campbell, a suburban father whose biggest vice is a cold beer, seems like the last person who would grow weed in his basement. But his attitude changed in 2009, when his home state of Colorado led the nation in mainstreaming medical marijuana. Watching with fascination as above-board and financially thriving dispensaries popped up everywhere, Campbell wondered, "Why not me?" *Pot, Inc.* chronicles Greg's journey into DIY ganjapreneurialism, as he learns how to cultivate marijuana, examines America's often unduly harsh laws, and unearths ignorance about pot's centuries-old therapeutic value--ignorance the government is desperate to maintain. Along the way, he also gains a very personal insight into the drug's medicinal value that shapes his opinion about legalization.

*Marijuana Alternatives* Jordan Greenfield, 2024-12-09 In recent years, the conversation surrounding marijuana has evolved significantly. However, as more individuals turn to marijuana for

relief from stress, anxiety, pain, and other ailments, it is essential to consider the broader landscape of options available. This book aims to explore the various alternatives to marijuana, providing readers with a comprehensive understanding of these options and their potential benefits.

Remarkably, despite the new renaissance of MAPs usage, ca. 80 % of the world's population is relying on natural substances of plant origin, with most of these botanicals sourced from the wild state. This first volume and ultimately the series, provides readers with a wealth of information on medicinal and aromatic plants.

*Commodifying Cannabis* Bradley J. Borougerdi, 2018-11-19 Cannabis is a genetically diverse plant that has been commodified for a variety of different purposes by many cultures throughout world history. For thousands of years, people have used its fiber, seed, and flowers to make rope and cloth, rig ships, feed people and livestock, concoct medicines, and alter states of consciousness. Until the nineteenth century, though, most Europeans and Americans were unaware of drug varieties of cannabis. The British encountered them in India and created western-style medicines that sold throughout the Atlantic world by the 1840s, but negative associations with Oriental intoxication and degeneracy sullied the plant's reputation as a viable commodity. Now, after decades of transatlantic criminalization policies against cannabis in the twentieth century, it is making a comeback. In *Commodifying Cannabis*, Bradley J. Borougerdi traces the tangled histories of its use for fiber, medicine, and altered states of consciousness across the Atlantic world, focusing on the dynamic interplay between these three different cultural applications to explain why the plant has transformed so many times throughout history. The historical journey spans a vast geographical landscape and includes over three centuries of source material to illuminate the cultural foundations behind the myriad transformations cannabis has endured as a commodity in the Atlantic world.

The book is divided into three sections covering cannabis science, use in clinical practice, and regulations and standards. It includes practical information on dosing guidelines and dispensary insights, personal cannabis stories, and an in depth look at the nutritional benefits of cannabis and how to use it in daily life. From the Author: As a clinical nutritionist, I have been involved in the use of cannabis since 1981 while researching diabetes in India. Ayurvedic medicine listed cannabis as a beneficial herb with curing properties. In 1983, a Chinese medicine doctor in the Peoples Republic of China gave me a cannabis herbal supplement for sleep that he claimed Chairman Mao took regularly. Upon returning to the United States, no one would even talk to me about cannabis because of its Schedule I status. During an Antioxidants class taught for Everglades University, I included information on cannabis, but was restricted from including it in the course description. Cannabis: A Clinician's Guide unveils deceit on this herbal medicine used for thousands of years providing insight into the science behind its use and how to incorporate cannabis into daily life, especially for those suffering from neurological disorders, cancer, and mood disorders.
