**The A.G. Gaston Motel in Birmingham: A Civil Rights Landmark** Marie A. Sutton, 2014-11-04 Traveling throughout the South during the 1950s was hazardous for African Americans. There were precious few hotels and restaurants that opened their doors to minorities, and fewer still had accommodations above the bare minimum, to say nothing of the racism and violence that followed. But in Birmingham, black entrepreneur and eventual millionaire A.G. Gaston created a first-class motel and lounge for African Americans that became a symbol of pride of his community. It served as the headquarters for Birmingham's civil rights movement and became a revolving door for famous entertainers, activists, politicians and other pillars of the national black community. Author Marie Sutton chronicles the fascinating story of the motel and how it became a refuge during a time when African Americans could find none.

Black Titan Carol Jenkins, Elizabeth Gardner Hines, 2009-04-02 The grandson of slaves, born into poverty in 1892 in the Deep South, A. G. Gaston died more than a century later with a fortune worth well over \$130 million and a business empire spanning communications, real estate, and insurance. Gaston was, by any measure, a heroic figure whose wealth and influence bore comparison to J. P. Morgan and Andrew Carnegie. Here, for the first time, is the story of the life of this extraordinary pioneer, told by his niece and grandniece, the award-winning television journalist Carol Jenkins and her daughter Elizabeth Gardner Hines. Born at a time when the bitter legacy of slavery and Reconstruction still poisoned the lives of black Americans, Gaston was determined to make a difference for himself and his people. His first job, after serving in the celebrated all-black regiment during World War I, bound him to the near-slavery of an Alabama coal mine—but even here Gaston saw not only hope but opportunity. He launched a business selling lunches to fellow miners, soon established a rudimentary bank—and from then on there was no stopping him. A kind of black Horatio Alger, Gaston let a single, powerful question be his guide: What do our people need now? His success flowed from an uncanny genius for knowing the answer. Combining rich family lore with a deep knowledge of American social and economic history, Carol Jenkins and Elizabeth Hines unfold Gaston's success story against the backdrop of a century of crushing racial hatred and bigotry. Gaston not only survived the hardships of being black during the Depression, he flourished, and by the 1950s he was ruling a Birmingham-

based business empire. When the movement for civil rights swept through the South in the late 1950s and early 1960s, Gaston provided critical financial support to many activists. At the time of his death in 1996, A. G. Gaston was one of the wealthiest black men in America, if not the wealthiest. But his legacy extended far beyond the monetary. He was a man who had proved it was possible to overcome staggering odds and make a place for himself as a leader, a captain of industry, and a far-sighted philanthropist. Writing with grace and power, Jenkins and Hines bring their distinguished ancestor fully to life in the pages of this book. Black Titan is the story of a man who created his own future—and in the process, blazed a future for all black businesspeople in America.

**The African American Church in Birmingham, Alabama, 1815-1963** Wilson Fallin, Jr., 2017-09-06 This study, first published in 1997, attempts to fill a gap in the historiography of the African American church by analysing the role and place of the African American church in one city, Birmingham, Alabama. It traces the roles and functions of the church from the arrival of African Americans as slaves in the early 1800s to 1963, the year that the civil rights movement reached a peak in the city. This title will be of interest to students of nineteenth- and twentieth-century religious and social history.

To Serve the Living Suzanne E. Smith, 2010-02-25 In the “hush harbors” of the slave quarters, African Americans first used funerals to bury their dead and to plan a path to freedom. Similarly, throughout the long struggle for racial equality in the 20th century, funeral directors aided the cause by honoring the dead while supporting the living. Here is their story.

The African Methodist Episcopal Church Dennis C. Dickerson, 2020-01-09 Explores the emergence of African Methodism within the black Atlantic and how it struggled to sustain its liberationist identity.

*What Can and Can't be Said* Dell Upton, 2015-01-01 An original study of monuments to the civil rights movement and African American history that have been erected in the U.S. South over the past three decades, this powerful work explores how commemorative structures have been used to assert the presence of black Americans in contemporary Southern society. The author cogently argues that these public memorials, ranging from the famous to the obscure, have emerged from, and speak directly to, the region's complex racial politics since monument builders have had to contend with widely varied interpretations of the African American past as well as a continuing presence of white supremacist attitudes and monuments.--Book jacket.

Preserved Dean G. Lampros, 2024-03-26 A spirited look at how funeral homes impacted American consumerism, the built environment, and national identities. Funeral homes—those grand, aging mansions repurposed into spaces for embalming, merchandising, funeral services, and housing for the funeral director and their family—are immediately recognizable features of the American landscape, and yet the history of how these spaces emerged remains largely untold. In *Preserved*, Dean Lampros uses the history of this uniquely American architectural icon to explore the twentieth century's expanding consumer landscape and reveal how buildings can help construct identities. Across the United States, Lampros traces the funeral

industry's early twentieth-century exodus from gloomy downtown undertaking parlors to outmoded Victorian houses in residential districts. As savvy retailers and accidental preservationists, funeral directors refashioned the interiors into sumptuous retail settings that stimulated consumer demand for luxury burial goods. These spaces allowed for more privacy and more parking, and they helped turn Americans away from traditional home funerals toward funeral homes instead. Moreover, by moving into neighborhoods that were once the domain of white elites, African American funeral directors uplifted their industry and altered the landscape of white supremacy. The funeral home has tracked major changes in American culture, including an increased reliance on the automobile and the rise of consumer culture. Preserved offers an in-depth cultural history of a space that is both instantly familiar and largely misunderstood.

**Weary Feet, Rested Souls: A Guided History of the Civil Rights Movement** Townsend Davis, 1999-02-17 Weary Feet, Rested Souls is a valuable and beautiful road map to a landscape we must not forget.—Marian Wright Edelman, president of the Children's Defense Fund Thirty years after the Civil Rights Movement transformed America, Weary Feet, Rested Souls brings the landscape of this compelling period of history back to life. Logging 30,000 miles of research and more than 100 hours of interviews with Civil Rights veterans, Townsend Davis has written both a history of the struggle and an indispensable traveler's guidebook to Civil Rights in the Deep South. Ranging from Martin Luther King, Jr.'s childhood neighborhood to Philadelphia, Mississippi, where three Civil Rights workers were murdered, to Selma and Birmingham and scores of other sites, Weary Feet, Rested Souls is a uniquely inspiring and deeply commemorative guide to the Movement and its heroes.

*But for Birmingham* Glenn T. Eskew, 2000-11-09 Birmingham served as the stage for some of the most dramatic and important moments in the history of the civil rights struggle. In this vivid narrative account, Glenn Eskew traces the evolution of nonviolent protest in the city, focusing particularly on the sometimes problematic intersection of the local and national movements. Eskew describes the changing face of Birmingham's civil rights campaign, from the politics of accommodation practiced by the city's black bourgeoisie in the 1950s to local pastor Fred L. Shuttlesworth's groundbreaking

use of nonviolent direct action to challenge segregation during the late 1950s and early 1960s. In 1963, the national movement, in the person of Martin Luther King Jr., turned to Birmingham. The national uproar that followed on Police Commissioner Bull Connor's use of dogs and fire hoses against the demonstrators provided the impetus behind passage of the watershed Civil Rights Act of 1964. Paradoxically, though, the larger victory won in the streets of Birmingham did little for many of the city's black citizens, argues Eskew. The cancellation of protest marches before any clear-cut gains had been made left Shuttlesworth feeling betrayed even as King claimed a personal victory. While African Americans were admitted to the leadership of the city, the way power was exercised--and for whom--remained fundamentally unchanged.

*Racism in the United States* Meyer Weinberg,1990-05-21 This volume represents the most comprehensive book-length bibliography on the subject of racism available in the United States. Compiler Meyer Weinberg has surveyed a wide-ranging group of material and classified it under 87 subject headings, drawing on articles, books, congressional hearings and reports, theses and dissertations, research reports, and investigative journalism. Historical references cover the long history of racism, while the heightened awareness and activity of the recent past is also addressed in detail. In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color, Weinberg includes references dealing with sexism, antisemitism, economic exploitation, and similar forms of dehumanization. References are grouped under a series of subject headings that include Civil Rights, Desegregation, Housing, Socialism and Racism, Unemployment, and Violence against Minorities. Items which do not have self-explanatory titles are annotated, and virtually every section is thoroughly cross-referenced. Also included is one section of carefully selected references on racism in countries other than the United States. Unlike the remainder of the book, this section is not comprehensive, but rather provides an opportunity to view racism comparatively. The volume concludes with an author index. This work will be a significant addition to both academic and public libraries, as well as an important resource for courses in racism, sociology, and black history.

Alabama in the Twentieth Century Wayne Flynt,2004-10-10 A native son and accomplished historian does not flinch from pointing out Alabama's failures from the past 100 years; neither is he restrained in calling attention to the state's triumphs in this authoritative, popular history of the past 100 years.

**The African American Experience** Arvarh E. Strickland,Robert E. Weems Jr.,2000-11-30 Compared to the early

decades of the 20th century, when scholarly writing on African Americans was limited to a few titles on slavery, Reconstruction, and African American migration, the last thirty years have witnessed an explosion of works on the African American experience. With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history. This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed.

*The Harvard Guide to African-American History* Evelyn Brooks Higginbotham, 2001 This massive guide, sponsored by the W.E.B. Du Bois Institute for Afro-American Research at Harvard University and compiled by renowned experts, offers a compendium of information and interpretation on over 500 years of black experience in America.

*Magic City* Burgin Mathews, 2023-11-28 Magic City is the story of one of American music's essential unsung places: Birmingham, Alabama, birthplace of a distinctive and influential jazz heritage. In a telling replete with colorful characters, iconic artists, and unheralded masters, Burgin Mathews reveals how Birmingham was the cradle and training ground for such luminaries as big band leader Erskine Hawkins, cosmic outsider Sun Ra, and a long list of sidemen, soloists, and arrangers. He also celebrates the contributions of local educators, club owners, and civic leaders who nurtured a vital culture of Black expression in one of the country's most notoriously segregated cities. In Birmingham, jazz was more than entertainment: long before the city emerged as a focal point in the national civil rights movement, its homegrown jazz heroes helped set the stage, crafting a unique tradition of independence, innovation, achievement, and empowerment. Blending deep archival research and original interviews with living elders of the Birmingham scene, Mathews elevates the stories of figures like John T. "Fess" Whatley, the pioneering teacher-bandleader who emphasized instrumental training as a means of upward mobility and community pride. Along the way, he takes readers into the high school band rooms, fraternal ballrooms, vaudeville houses, and circus tent shows that shaped a musical movement, revealing a community of players whose influence spread throughout the world.

*Encyclopedia of African American Business History* Juliet E. K. Walker, 1999-11-30 Black business activity has been sustained in America for almost four centuries. From the marketing and trading activities of African slaves in Colonial America to the rise of 20th-century black corporate America, African American participation in self-employed economic activities has been a persistent theme in the black experience. Yet, unlike other topics in African American history, the study of black business has been limited. General reference sources on the black experience—with their emphasis on social, cultural, and political life—provide little information on topics related to the history of black business. This invaluable encyclopedia is the only reference source providing information on the broad range of topics that illuminate black business history. Providing readily accessible information on the black business experience, the encyclopedia provides an overview of

black business activities, and underscores the existence of a historic tradition of black American business participation. Entries range from biographies of black business people to overview surveys of business activities from the 1600s to the 1990s, including slave and free black business activities and the Black Wallstreet to coverage of black women's business activities, and discussions of such African American specific industries as catering, funeral enterprises, insurance, and hair care and cosmetic products. Also, there are entries on blacks in the automotive parts industry, black investment banks, black companies listed on the stock market, blacks and corporate America, civil rights and black business, and black athletes and business activities.

*Uplifting a People* Marybeth Gasman, Katherine V. Sedgwick, 2005 Philanthropy is typically considered to be within the province of billionaires. This book broadens that perspective by highlighting modest acts of giving by African Americans on behalf of their own people. Examining the important tradition of Black philanthropy, this groundbreaking work documents its history: its beginning as a response to discrimination through self-help among freed slaves, and its expansion to include the support of education, religion, the arts, and legal efforts on behalf of civil rights. Using diverse approaches, the authors illuminate a new world of philanthropy - one that will be of interest to scholars and students alike. Chapters review the contributions of such major figures as Booker T. Washington and Thurgood Marshall, and discuss the often-surprising practices and methods of contemporary African American donors.
