Here's a TCP server that echoes back everything that's written to it: **Twisted Documentation: Test-driven development with Twisted** Testing protocols without the use of real network connections is both simple and recommended when testing Twisted code. Even though there are many tests in Twisted that use the network, most good tests don't. The problem with unit tests and networking is that networks aren't reliable. **WebSockets — Twisted 25.5.0 documentation** Let's use Twisted to create a simple websocket server, and then build a web-browser based client to communicate with it. To begin with, we will need a folder with 3 files in it.
