Marvel: What If . . . Marc Spector Was Host to Venom? (A Moon Knight & Venom Story) Mike Chen, 2025-07-22 Marc Spector and Venom engage in a battle of wills in the next adventure of an epic multiversal series reimagining iconic Marvel origin stories. So many worlds, so little time. Infinite possibilities, creating infinite realities. Long have I watched Marc Spector cheat death in the name of the Egyptian god Khonshu. But . . . what if Moon Knight was subsumed by a Venom from another universe? Marc Spector is used to voices in his head. He's used to waking up disoriented, unsure what his alters, Jake and Steven, might have been up to. He's used to having an Egyptian god command him as Moon Knight, his avatar of justice and revenge. What he's not used to: staring into the face of a literal out-of-body doppelgänger. Another Marc crash-landed from an alternate reality, begging for help? Yeah, that is a new one, even for him. But before he can really process anything beyond Khonshu's incessant alarm bells, it becomes clear this other Marc didn't travel solo. Some kind of alien—a symbiote named Venom—casts off its current host and begins to merge with Marc, forcing Khonshu away from his chosen champion and claiming Moon Knight for its own. The formerly stark white suit that struck fear into the hearts of criminals now looms as a jet-black shadow over friends and foes alike. Marc's lethal prowess, fueled by Venom's penchant for violence, carves a trail of chaos as they comb through the vigilante's torturous past. Yet a sliver of hope remains: Finally free of Venom's control, the other Jake and Steven regain consciousness to find themselves in a strange reality, without their Marc but with a strange bird-like god insisting that "they will do." Desperate, lost, and running out of time, the pair make a deal: become Khonshu's new avatar to track Venom's path of destruction, save this universe, and just maybe figure out a way back to their own.

Jung and Star Wars S.G. Ellerhoff, 2025-08-12 Jung and Star Wars is a comprehensive deep dive, analyzing the Star Wars phenomenon from the perspective of analytical psychology as a living mythology in our time. Drawing from Jungian perspectives, as well as the influence of both Joseph Campbell and James Hillman, this book examines the rich characters and history of the saga using concepts developed in the field of analytical psychology. It explores Disney's acquisition of Lucasfilm in 2012 and the concept of canon, as well as examining the Force and a number of iconic characters, including Yoda, Luke Skywalker, Darth Vader, Princess Leia Organa, and more. By coming to understand the psychological ground of its mythic aspects, we learn to see Star Wars as a grand narrative of the human condition. With Star Wars being ubiquitous in mainstream pop culture, this book will be of interest to both Jungian analysts and scholars, as well as academics in the fields of film studies and popular culture, offering a fresh and lesser-known perspective on depth psychology.

Why on Earth Vania Stoyanova, Rosiee Thor, 2025-02-04 What starts as a simple rescue mission for a crew of teen aliens to recover one of their own soon becomes an interstellar encounter no one will forget. Captain Iona is organizing an

impromptu retrieval for her brother, an undercover alien posing as a movie star. But her efforts go awry when a technical malfunction turns her heroic rescue into an unintentional invasion. With tales of disguised extraterrestrials stuck in theme parks, starship engineers hitchhiking to get home, and myth-inspired intergalactic sibling reunions, each story in this multi-author anthology explores the universal desire to be loved and understood, no matter where you come from. After all...aliens are just like us. Edited by beloved YA author Rosiee Thor and YA talk show host Vania Stoyanova, the anthology crosses genre bounds to bring in tropes from romance and contemporary adventure with stories from Alex Brown, Beth Revis, Emily Lloyd-Jones, Eric Smith, Julian Winters, Laura Pohl, Maya Gittelman, M. K. England, Rebecca Kim Wells, and S. J. Whitby.

Tusk Love Thea Guanzon, Critical Role, 2025-07-01 A merchant's daughter who yearns for adventure gets more than she bargained for when she falls for a broodingly handsome stranger in this saucy romantasy from the New York Times bestselling author of *The Hurricane Wars*. "A true delight of a book! Spicy and heartfelt—this one is a winner all around." —Katee Robert, author of *Neon Gods* As the daughter of an ambitious merchant, Guinevere's path has been predetermined: marry into a noble house of the Dwendalian Empire, raise her family's station, and live quietly as a lordling's obedient wife. But Guinevere longs for a life unbounded by expectations, for freedom and passion and adventure. Those distant dreams become a sudden reality when her caravan is beset by bandits, leaving her guards slain and Guinevere stranded alone on the dangerous Amber Road. Her only chance of survival is to travel alongside Oskar, the aloof half-orc who saved her during the attack. Unlike Guinevere, Oskar's path is not so set in stone. With his mother dead and his apprenticeship abandoned, all that's left is a long, lonely walk to a land he's never seen to find family he's never met. The last thing he needs is a spoiled waif like Guinevere slowing him down—even if the spark between them sizzles with promise. Despite his cold exterior, Oskar is brave and thoughtful and unlike anyone Guinevere has ever met. And while Guinevere may be sheltered, she brings out a softness in him that he has never dared to feel before. As the flames of their passion grow, they realize that soon they'll need to choose between their expected destinations or their blossoming romance. Written by New York Times bestselling author Thea Guanzon at the behest of Critical Role's Jester Lavorre, *Tusk Love* brings the most romantic story on Exandrian bookshelves to life.

Turnaround James Lankford, 2025-04-08 “TURNAROUND is a powerful challenge from my friend Senator James Lankford to pay more attention to who we are, rather than just what we do. James’ practical leadership ideas will encourage you to live your faith and find impactful ways to serve our community and our great nation. Every chapter is packed with history, humor and inspiration to be part of our national turnaround.”—MIKE POMPEO “Senator James Lankford lives his faith with humility, grace, collegiality, and authenticity. In this book he adroitly puts his finger precisely on the key to change and revival in our country. The key is US. This book is both a challenge and a chance for us to reflect and act.”—TREY GOWDY “To turnaround our country we are tempted to spend our energy fighting darkness, but you can’t turn down darkness, you can only turn up light. In a dark room, you look for the light switch, not the dark switch. For some reason, that simple truth seems to escape us when we think about people and problems. If you want less darkness, turn up more light.” —Senator James Lankford Americans live in the greatest representative republic in the history of the planet which is defined each day by “We the People.” Everyday, the nation is US. When we look in our national mirror, if we don’t like what we see, we should do what it takes to improve our reflection. TURNAROUND is a journey book, filled with ancient truths, our modern division, personal faith, true stories, a case study on immigration politics, and a lesson about the bees that will kill you. The pages are a celebration of our freedom and a challenge to reconnect to our faith and do something significant with our lives. The stories are deeply personal and practical. TURNAROUND challenges us to step up and do something when we see the nation is drifting. We should not just allow cultural gravity to win. Each of us get the choice everyday to do the right thing, the right way. Let’s pray and get to work on our national turnaround.

Agile Workforce Planning Adam Gibson, 2021-01-03 As business priorities change and focus shifts to address arising issues, HR professionals need to be able to reorganize talent swiftly and plan for future needs to enable the business to succeed. It covers how to forecast organizational demand for people, resources and skills, analyze the gap between supply and demand and most importantly, how to fill this gap. This book explains how to use agile workforce planning to achieve this. Agile Workforce Planning is a practical guide for HR and organization development practitioners needing to align their staff, skills and resources with evolving company goals. This book also covers how to identify the skills needed in the workforce, where these skills are already available and when they're missing, how to decide whether to buy, borrow or build them. Agile Workforce Planning explains how to collect data to calculate and predict staff churn as well as how to use qualitative and quantitative demand modelling to forecast for future needs and provides strategies to address these including

lateral internal recruitment. There is also expert guidance on horizon scanning, scenario planning and how to secure stakeholder buy in and engagement for an agile workforce plan. Supported by case studies from companies including Apple, Coca-Cola, Procter & Gamble, NATO and the UK National Health Service, this is essential reading for HR and OD professionals needing to continuously align the talent and capabilities in their workforce with the overall business strategy

The Tao of Star Wars John M. Porter, M.D.,2011-03-08 The Star Wars series contains, for some, a philosophical basis. The Tao of Star Wars uses the motifs from the Star Wars series to explain the basic tenets of Taoism. Although some of these concepts are relatively familiar, such as acceptance, patience and simplicity, their nuances as they apply to Taoism are invigorated utilizing the Star Wars motifs The Tao Te Ching, after the Bible, is the most translated book in the world. Its reputed author, Lao Tzu, lived about 2600 years ago. Faced with a corrupt, competitive, egocentric society, which had lost its way (sound familiar), he left society riding upon an ox. He felt that society had lost the Tao and that was the cause of the decline of the civilization. Humans have always had an insatiable hunger for spiritual guidance and recently westerners have had a rekindled interest in the Tao. Perhaps it is because we see the same problems today that Lao Tzu saw in his day.

A Manager's Guide to Using the Force Michael J. Urlick,2021-04-13 By examining leadership theories, this book will help you become at one with the Force to be the best leader possible. The author explores evidence-based leadership and management practices from the unique perspective of the Jedi, making actionable recommendations you can implement in your organization.

Star Wars and the Hero's Journey Valerie Estelle Frankel,2021-03-29 The original Star Wars trilogy famously follows Joseph Campbell's model for the hero's journey, making Luke Skywalker's story the new hero quest for a modern age. With the nine-plus film saga complete, however, new story patterns have emerged as the hero's journey is imagined over and over for characters of different ages, genders, and backgrounds. The prequels offer the plot arc of the villain's journey through Anakin. Leia and Padme, while damsels in the men's story, break out to undergo their own ordeals. The heroine's journey is exemplified by Rey and Jyn. Obi-Wan, Yoda, and Vader must accept the loss of power and fade into spirit guardians, perpetuating the lifecycle. By the sequel era, the original trio become mentors to the younger generation and finally must do the same. Meanwhile, the Mandalorian explores a different form of the quest as he transforms from immature warrior to patriarch. This book tracks the journeys of over 20 characters throughout the franchise.

Star Wars and Philosophy Strikes Back Jason T. Eberl, Kevin S. Decker,2023-01-05 Should droids be free? Should clone troopers? What political and ethical ideas ground resistance and rebellion? What's wrong with the way women are portrayed in Star Wars? Does Han Solo have a philosophical worldview? Was Galen Erso responsible for the destruction of Alderaan? Should you eat Baby Yoda? "This is the Way." In *Star Wars and Philosophy Strikes Back*, the Way wends through entirely new adventures in the Star Wars galaxy far, far away: not only the films of the Skywalker saga, but also *Rebels*, *The Bad Batch*,

Rogue One, Solo, and The Mandalorian. Like the creators of these films and television series, the authors in this book harness the magical mix of humor, action, empathy, characterization, adventure, and fan service that constitutes Star Wars. In addition to thorny metaphysical questions about the nature of time and free will, this volume highlights the staggering cultural impact of George Lucas's universe. The newest Star Wars narratives tackle ethnicity on alien worlds and how love and sex with a droid like L3-37 would work ("It works"). The connections between the Separatist Freedom Movement and the struggle for social justice in the USA in the 21st century are brought to light. And philosophical second looks at Rian Johnson's The Last Jedi prove there is much more to this controversial entry in the Skywalker saga. Thirty-six philosophers, both sages and scoundrels among them, examine the full range of deep questions throughout the Star Wars chronology—from The Phantom Menace to The Rise of Skywalker and beyond. "They have spoken."

Relativism and the Foundations of Liberalism Graham Long, 2011-10-04 Moral relativism is often regarded as both fatally flawed and incompatible with liberalism. This book aims to show why such criticism is misconceived. First, it argues that relativism provides a plausible account of moral justification. Drawing on the contemporary relativist and universalist analyses of thinkers such as Harman, Nagel and Habermas, it develops an alternative account of 'coherence relativism'. Turning to liberalism, the book argues that moral relativism is not only consistent with the claims of contemporary liberalism, but underpins those claims. The political liberalism of Rawls and Barry is founded on an unacknowledged commitment to a relativist account of justification. In combining these two elements, the book offers a new understanding of relativism, and demonstrates its relevance for contemporary liberal thought.

Fighting Fake News! Teaching Critical Thinking and Media Literacy in a Digital Age Brian Housand, 2021-09-03 Educators have long struggled to teach students to be critical consumers of the information that they encounter. This
