Quicklet on James Dashner's The Maze Runner Peg Robinson, 2011-12-20 ABOUT THE BOOK “Out there’s the Maze,” Newt whispered, eyes wide as if in a trance. “Everything we do—our whole life, Greenie—revolves around the Maze. Every lovin’ second of every lovin’ day we spend in honor of the Maze, tryin’ to solve somethin’ that’s not shown us it has a bloody solution, ya know? And we want to show ya why it’s not to be messed with. Show ya why them buggin’ wals close shut every night. Show ya why you should never, never find your butt out there.” “All is an illusion” is the core message emanating from James Dashner’s novel, *The Maze Runner*, which hitches a young adult (YA) science-fiction fantasy plot to a premise reminiscent of *The Prisoner* or an old *Twilight Zone* episode. Children trapped in a manipulative experiment, with their memories of their past lives wiped clean, struggle to escape to a seemingly elusive freedom. The *Maze Runner* series is violent, dark, and edgy, with a similar allure to that of *The Hunger Games*. According to IMDb, in their article on *The Maze Runner*, a movie based on the novel is in development, and is scheduled for release in 2013. MEET THE AUTHOR Peg Robinson holds a BA in Religious Studies from the University of California at Santa Barbara, and has partially completed an MA/PhD in Mythological Studies from Pacifica Graduate Institute. She holds a certificate in copy editing from Media Bistro. Her publishing career started in 1998, on winning a place in Simon and Schuster's *Star Trek: Strange New Worlds* competition. Her novelette *Tonino and the Incubus* qualified for the 2007 Nebula Awards. She has worked as a content provider, copy writer, informational writer, copy editor, and developmental editor. EXCERPT FROM THE BOOK Thomas, a boy of about sixteen, arrives in a mysterious compound in the middle of a Maze. He’s without any memories of his prior life, without friends or family. He meets the residents of the Maze—other teenaged boys who, like him, have found themselves in this unexplained place, pitted against deadly foes and struggling to find escape from their prison. Thomas finds himself wishing to become one of the Maze Runners for whom the story is named: the best, fastest, bravest, strongest, and most resourceful of the boys. Maze Runners go out daily to explore the maze, trying to learn its secrets and find a way out. His goals are challenged, though, by rivals within the compound known as the Glade, and by the dangers and difficulties of the world itself.

Novelistic Inquiries into the Mind Grzegorz Maziarczyk, Joanna Klara Teske, 2016-09-23 *Novelistic Inquiries into the Mind* traces the multiple relations between the mind and the contemporary novel. The contributors here examine various types of narrative fiction, ranging from the postmodern novels of J. M. Coetzee and Ian McEwan through the experimental prose of Leslie Scalapino to the popular fiction of James Dashner and Christopher Moore. On the one hand, they investigate novelistic representations of various mind-related issues, including different states of consciousness, Alzheimer’s disease, thought experiments and formation of the self. On the other, by analysing and evaluating in these contexts such narrative devices as unreliable narration, development of conceptual networks or multimodal integration of verbal and non-verbal semiotic resources, they exemplify the multiplicity of techniques whereby the novel can explore the intricacies of mental processes. Taken together, the essays collected here demonstrate the potential of the novel as genre for representing the mind. In its exploration of the problems involved in the linguistic construction of reality, the cognitive function of art and the uncertain status of consciousness, the contemporary novel thus reflects the mind’s urge to understand itself, as well as possible meanings of its own perceptions, creations and projections.

The Infinite Glade James Dashner, 2025-09-09 *THE INFINITE GLADE* is the explosive finale of *The Maze Cutter* trilogy—and the epic conclusion to *The Maze Runner* saga. War has finally ignited. The Remnant Nation is done waiting. Their mission: destroy the Godhead and everything she stands for. But as Sadina and the islanders fight to protect the Goddess—who claims to be their only hope for Evolution’s survival—the battle reveals unfathomable truths leaving behind devastation that will change the islanders' future forever. Determined to save their friends, Isaac and Ximena—along with Old Man Frypan and Jackie—struggle to find their way back to the others when two strangers intercept them, throwing everything they thought they knew about the Cure into doubt. Following the strangers into the unknown, Frypan unearths the shocking truth behind the Cure and the secrets so many have died to protect. But what they uncover is only the beginning. The descendants must decide between risking their lives and the safety of those they love back home to expose the painful truth behind the maze trials, or walk away from history’s darkest secrets and let the truth remain buried in the Glade forever.

Some science fiction films, television programs, and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language, though due attention is given to international authors whose works have been frequently translated into English. The texts are designed to be helpful to numerous readers, ranging from students first encountering science fiction to experienced scholars in the field.

STEAM Meets Story Gloria D. Campbell-Whatley, Diane Rodríguez, Jugnu Agrawal, 2021-06-11 This innovative STEAM guide will help general and special education teachers to increase effective instruction with adolescents (grades 5-10). The authors show teachers how to link STEM concepts with popular fiction and film selections as a catalyst to launch student interactions, discussions, projects, and investigations. This approach will promote problem solving and reasoning skills by initiating the scientific process, rather than simply presenting established facts. The book includes a wealth of lesson plans that connect abstract STEM ideas to realistic experiences that students encounter. Sample lessons call on students to produce drawings and models that move STEM to STEAM. Grounded in popular film and some of the most-read young adult books, the text includes teaching strategies found to be effective with traditionally underserved students and those with disabilities. Book Features: Standards-based STEM lessons interrelated and interwoven with writing, reading, speaking, and other skills. Practical ideas and hands-on activities for engaging adolescents in both traditional and virtual environments. Guidance for working with diverse populations, such as students with different abilities, culturally and linguistically diverse students, translingual students, and transnational students. Templates, handouts, and lessons linked to Star Wars, The Giver,

The Immortal Life of Henrietta Lacks, Harry Potter, To Kill a Mockingbird, Star Trek, The Matrix, Holes, and more.

The History of Science Fiction Adam Roberts, 2016-08-04 This book is the definitive critical history of science fiction. The 2006 first edition of this work traced the development of the genre from Ancient Greece and the European Reformation through to the end of the 20th century. This new 2nd edition has been revised thoroughly and very significantly expanded. An all-new final chapter discusses 21st-century science fiction, and there is new material in every chapter: a wealth of new readings and original research. The author's groundbreaking thesis that science fiction is born out of the 17th-century Reformation is here bolstered with a wide range of new supporting material and many hundreds of 17th- and 18th-century science fiction texts, some of which have never been discussed before. The account of 19th-century science fiction has been expanded, and the various chapters tracing the twentieth-century bring in more writing by women, and science fiction in other media including cinema, TV, comics, fan-culture and other modes.

Science Fiction, Fantasy and Horror Film Sequels, Series and Remakes Kim R. Holston, Tom Winchester, 2018-01-12 Science fiction, fantasy and horror movies have spawned more sequels and remakes than any other film genre. Following Volume I, which covered 400 films made 1931-1995, Volume II analyzes 334 releases from 1996 through 2016. The traditional cinematic monsters are represented--Dracula, Frankenstein, the Wolf Man, a new Mummy. A new wave of popular series inspired by comics and video games, as well as The Lord of the Rings trilogy, could never have been credibly produced without the advances in special effects technology. Audiences follow the exploits of superheroes like Captain America, Iron Man, Spider-Man and Thor, and such heroines as the vampire Selene, zombie killer Alice, dystopian rebels Katniss Everdeen and Imperator Furiosa, and Soviet spy turned American agent Black Widow. The continuing depredations of Jason Voorhees, Freddy Krueger and Michael Myers are described. Pre-1996 movies that have since been remade are included. Entries feature cast and credits, detailed synopsis, critics' reviews, and original analysis.
