*Knowing Where to Draw the Line* Mary Ann Manos, 2006-09-30 Many teachers in public schools find themselves increasingly unsure of what the law expects of them in the classroom. The general public and government regulators are holding them to higher and stricter standards of conduct, but their educational preparation has not kept up with the changing environment. *Knowing Where to Draw the Line: Ethical and Legal Standards for Best Classroom Practice* is an ideal guide for teacher education programs, offering a comprehensive account of the legal information that will arm teachers for legal survival in the classroom. Organized for both easy reference and thorough examination, *Knowing Where to Draw the Line: Ethical and Legal Standards for Best Classroom Practice* instructs teachers on how to deal with students, parents, administrators, and local communities, covering an exhaustive list of legal issues including: Sexual harassment, Discipline, Contract negotiations, Liability, and Medical Concerns. In addition, *Knowing Where to Draw the Line: Ethical and Legal Standards for Best Classroom Practice* highlights a number of court cases and uses hypothetical cases to further aid teachers in understanding these vital concerns.

**Where to Draw the Line** Anne Katherine, 2000-08-18 In *Where to Draw the Line*, the author of *Boundaries* takes the next step with a practical guide to establishing and maintaining healthy boundaries in many situations.

*Where Do We Draw the Line?* Reverend Fred Davis, 2023-03-07 The world lives like this life will go on forever and thinks they'll never die or stand in judgment before God. This world is living just like they were in Noah's days, seeing nothing wrong with living in sin, but Fred Davis wants to ask everyone. Where do we draw the line? On sin, and on living right, and on how the Bible teaches how we are supposed to be living. Especially in the last days and JUST before Jesus Christ returns for his people that are supposed to be watching and praying! Number one point is, no one will stand in your place on judgment day! How we live today will determine our destiny on judgment day.

**Where do we draw the line?** Alexandra Parker, Samkelisiwe Khanyile, Kate Joseph, 2019-03-29 Graffiti is a controversial subject and fraught with ambiguities and contradictions. However, the recent global success of artists such as Banksy, Melbourne's booming graffiti tourism, and the rise of the 'creative city' discourse, have blurred the lines between what some regard as vandalism and some as public art. As such, graffiti has increasingly become part of mainstream culture and in some countries has been promoted as a contributor to the urban environment. Thus, as practices and perceptions of graffiti shift,

so does our need to better understand the role of graffiti in our urban environments. Through a case study of the Maboneng precinct, this GCRO Occasional Paper investigates the contribution made by graffiti to tourism and public and private investment in the inner-city of Johannesburg. The paper uses visual and spatial analyses of graffiti in Maboneng's development. The research shows the extent to which the Maboneng precinct is branded through urban aesthetics, including graffiti, and demonstrates that graffiti contributes to placemaking by creating meaningful or identifiable spaces. The analysis reveals graffiti's aesthetic value in the urban environment: it signifies the redevelopment of Maboneng, distinguishes the area at a local level from surrounding spaces, and also projects a global aesthetic. Using this case study of Maboneng we hope to show how graffiti is leveraged in nurturing urban development, creative economies and tourism in the inner-city. The Occasional Paper is comprised of two parts. The first half of the paper aims to understand the role of graffiti in its urban context. A first section examines the history of graffiti, considering centuries-old traditions of markings on walls, the intersection of graffiti with the birth of hip hop culture and, in the South African context, the role of graffiti in anti-apartheid protest politics. A further section explores the spectrum of graffiti aesthetics, from text-based expressions to the murals of street art. A third section traces graffiti's complicated relationship to the urban environment, with changing perceptions of graffiti: as vandalism, or a mode of urban dialogue, or a form of outdoor gallery. The sections in this first half of the paper explore the transitions graffiti has made over time and highlight the fluid nature of graffiti, both in space and in the way that it is conceived. They illustrate how graffiti, once perceived as synonymous with urban blight and decay, vandalism and crime, has over time gained a more legitimate social status, for example through commissioned murals or the work of famed international artists, in the process raising the question of who decides the aesthetic of the urban environment and who has a right to participate in the production of urban space. In the second half of the paper, we focus on a case study of Maboneng, in the City of Johannesburg. Maboneng is an area of redevelopment in Johannesburg's inner city, established in 2009. The neighbourhood has transformed through investment in the public environment and the upgrading of dozens of buildings with a focus on the creative economy. Graffiti and street art are prevalent in the area and have contributed to the branding of the area as a creative space. Through a photographic essay and mapping, we analyse the spatial and visual elements of graffiti in Maboneng, exploring its various contradictions, themes, surfaces, and the media used to create it. The detailed mapping examines different types of graffiti, and their locality, density, scale and visibility. The case study shows, in detail, the relationship between graffiti and the local urban environment, but also how graffiti relates to larger processes of urban and economic development in the city.

*Vestments for All Seasons* Barbara Dee Bennett,2002-12-01 A complete guide to what clergy wear, including the various cloths, a brief history, and theology of each liturgical garment. Vestments—the robes, stoles or other items worn by clergy, or cloths used at the altar—not only add beauty to a worship service, but are visual clues to the liturgical season and to the tone of a particular service. The most beautiful and meaningful vestments are often those made for a particular priest, serving in a specific sanctuary. But many shy away from trying to sew vestments, which seem too complicated and difficult to make. In *Vestments for All Seasons*, Barbara Baumgarten demystifies the making of vestments—from designing and fitting patterns, to fabric and color selection, to putting on the finishing touches. She provides patterns and directions for producing special vestments for Advent and Lent, Easter, and Pentecost, and general instructions for designing and making vestments completely from scratch. A history of the development of vestments from Roman times to the present is included, as well as a full glossary describing the various vestments worn by clergy, bishops, deacons, and choir.

*New Trends in Computer Graphics* Nadia Magnenat-Thalmann,Daniel Thalmann,2012-12-06 New Trends in Computer Graphics contains a selection of research papers submitted to Computer Graphics International '88 (CGI '88). CGI '88 is the Official Annual Conference of the Computer Graphics Society. Since 1982, this conference has been held in Tokyo. This year, it is taking place in Geneva, Switzerland. In 1989, it will be held in Leeds, U. K. , in 1990 in Singapore, in 1991 in U. S. A. and in 1992 in Montreal, Canada. Over 100 papers were submitted to CGI '88 and 61 papers were selected by the International Program Committee. Papers have been grouped into 6 chapters. The first chapter is dedicated to Computer Animation because it deals with all topics presented in the other chapters. Several animation systems are described as well as specific subjects like 3D character animation, quaternions and splines. The second chapter is dedicated to papers on Image Synthesis, it particular new shading models and new algorithms for ray tracing are presented. Chapter 3 presents several algorithms for geometric modeling and new techniques for the creation and manipulation of curves, surfaces and solids and their applications to CAD. In Chapter 4, an important topic is presented: the specification of graphics systems and images using languages and user-interfaces. The last two chapters are devoted to applications in sciences, medicine, engineering, art and business.

**Surveying** Mimi Das Saikia,2010-10-30 The book details on the elementary methods of measurements like tapes and chains to the most advanced ones like remote sensing and photogrammetry. The book discusses types of surveying, advanced techniques evolved and the methodologies adopted to conduct surveys, in logical sequence. It systematically elucidates the concepts of land surveying, hydrographic surveying, compass surveying and so on, deriving the formulas through simple geometry, trigonometry and differential calculus. Besides, it educates the learner to handle measuring instruments, and teaches the ways to take the measurements accurately, in steps.
