**The Wonder of Birds** Jim Robbins,2017-05-30 A fascinating investigation into the miraculous world of birds and the powerful—and surprising—ways they enrich our lives and sustain the planet Our relationship to birds is different from our relationship to any other wild creatures. They are found virtually everywhere and we love to watch them, listen to them, keep

them as pets, wear their feathers, even converse with them. Birds, Jim Robbins posits, are our most vital connection to nature. They compel us to look to the skies, both literally and metaphorically; draw us out into nature to seek their beauty; and let us experience vicariously what it is like to be weightless. Birds have helped us in so many of our human endeavors: learning to fly, providing clothing and food, and helping us better understand the human brain and body. And they even have much to teach us about being human in the natural world. This book illuminates qualities unique to birds that demonstrate just how invaluable they are to humankind—both ecologically and spiritually. The wings of turkey buzzards influenced the Wright brothers' flight design; the chickadee's song is considered by scientists to be the most sophisticated language in the animal world and a "window into the evolution of our own language and our society"; and the quietly powerful presence of eagles in the disadvantaged neighborhood of Anacostia, in Washington, D.C., proved to be an effective method for rehabilitating the troubled young people placed in charge of their care. Exploring both cutting-edge scientific research and our oldest cultural beliefs, Robbins moves these astonishing creatures from the background of our lives to the foreground, from the quotidian to the miraculous, showing us that we must fight to save imperiled bird populations and the places they live, for the sake of both the planet and humankind. Praise for *The Wonder of Birds* "A must-read, conveying much necessary information in easily accessible form and awakening one's consciousness to what might otherwise be taken for granted . . . The Wonder of Birds reads like the story of a kid let loose in a candy store and given free rein to sample. That is one of its strengths: the convert's view gives wide appeal to those who might never have known birds well."—Bernd Heinrich, *The Wall Street Journal* "Engaging, thoughtful . . . worthy of a place alongside David Attenborough's documentary *The Life of Birds* or Graeme Gibson's *The Bedside Book of Birds* . . . This offering will appeal to naturalists, anthropologists, linguists, and even philosophers as well as to lay readers."—*Library Journal* "In this deeply felt and well-supported argument for avians' value to humankind, science writer Robbins hits the full trifecta for engrossing and satisfying nature writing."—*Publishers Weekly* (starred review) "Using enchanting stories and rich historical references, Jim Robbins explores the role of birds on the evolution of human self-awareness."—Robert F. Kennedy, Jr. "It's one for the birds—what a wonderful book! It will give you wings."—Rita Mae Brown, New York Times bestselling author of *Rubyfruit Jungle* "The Wonder of Birds provides a great and well-timed gift: a portrait of the quiet miracles around us on each day of our ordinary lives."—Michael Punke, #1 New York Times bestselling author of *The Revenant* "Jim Robbins writes masterfully, with lucid prose and deep insight into the human psyche and natural world."—Peter Stark, author of *Astoria*

**Mozart's Starling** Lyanda Lynn Haupt, 2014-07-15 On May 27th, 1784, Wolfgang Amadeus Mozart met a flirtatious little starling in a Viennese shop who sang an improvised version of the theme from his Piano Concerto no. 17 in G major. Sensing a kindred spirit in the plucky young bird, Mozart bought him and took him home to be a family pet. For three years, the starling lived with Mozart, influencing his work and serving as his companion, distraction, consolation, and muse. Two

centuries later, starlings are reviled by even the most compassionate conservationists. A nonnative, invasive species, they invade sensitive habitats, outcompete local birds for nest sites and food, and decimate crops. A seasoned birder and naturalist, Lyanda Lynn Haupt is well versed in the difficult and often strained relationships these birds have with other species and the environment. But after rescuing a baby starling of her own, Haupt found herself enchanted by the same intelligence and playful spirit that had so charmed her favorite composer. In *Mozart's Starling*, Haupt explores the unlikely and remarkable bond between one of history's most cherished composers and one of earth's most common birds. The intertwined stories of Mozart's beloved pet and Haupt's own starling provide an unexpected window into human-animal friendships, music, the secret world of starlings, and the nature of creative inspiration. A blend of natural history, biography, and memoir, *Mozart's Starling* is a tour de force that awakens a surprising new awareness of our place in the world.

**Wild Edens** Joseph James Shomon, 1998 Africa's great game parks house thousands of the world's most incredible wildlife, including the elephant, rhino, zebra, and gorilla, but along with this beauty comes a desperate struggle for existence. This living legacy faces the possibility of becoming extinct because of ignorance and apathy. In *Wild Edens: Africa's Premier Game Parks and Their Wildlife*, longtime conservationist and seasoned African traveler Joseph James Shomon journeys through the wild African scene, revealing its magnificence and mystique, and wonderfully describes the game parks' location, ecology, and irreplaceable wildlife. From the summit of Kilimanjaro, Africa's highest mountain, the author surveys the marvelous Edens of East Africa, among the last Pleistocene-like concentrations of animals left in the world today. Descending, Shomon gives a firsthand account of the great sanctuaries, providing a knowledgeable escort on safari in the scrublands of Tsavo, where elephants are imperiled. He continues on to the Ark at Aberdares, where visitors can watch, under floodlights of a watchtower, rain forest animals come to feed; to the rain forests of Mount Kenya; and to the Serengeti and Mara Plains, with their great migrating herds besieged by predators and thwarted in their journeys by swollen rivers and flooded lakes. The journey continues through the Great Rift Valley and Olduvai Gorge to Lake Manyara with its tree-climbing lions; Ngorongoro Crater; Samburu and Meru, where the rhino is threatened; the waterways of Uganda; the Mountains of the Moon; the Kalahari Desert; and the wildlife sanctuaries of South Africa, ending the tour at the Cape of Good Hope. Shomon argues that the plethora of impersonal technology and excessive mechanization, as well as the world's focus on violence, social ills, and discord on our domestic front, consume the world's energies, leaving little interest for safeguarding and conserving Africa's wild edens. Shomon's engaging and informative text, complemented with attractive photographs and pen-and-ink drawings, encourages those interested in Africa and its wildlife to visit the cradle of our ancestral beginnings and to take an active role in its preservation and conservation.

The Dream Weaver Satyapal Anand,2011-10-20 Satyapal Anand's poetry is cerebral rather than emotional. It reveals many splendored splashes of color and sound. His poems reveal the essential mythopoeic self present in the poet himself as in all humanity. Again, his personae are all inside his poems. Here and now or there and beyond combine and create word collages. By authenticating effects of the vision and perceptions underlying them, his images give us new ways of seeing the world. There is a kind of double vision involved in it. His is the imagists faculty for seeing a thing at once precisely for itself and, at the same time, as part of a larger phenomenon. Many of his poems are dramatic monologues. In these the speaker does not speak in a vacuum. When he speaks or acts, it reflects the time, place, thought, social conventions, and general circumstances; but it also impinges upon political, philosophical, and religious shades of meaning that transgress the immediacy of the situation. Caroline Greene says that nothing extraordinary has happened in American poetry in the past half a century, and if an Urdu poet of the stature of Satyapal Anand chooses to bring his treasure house to the English speaking word, it is likely to change the entire scenario here. It is precisely because the poet recovers the extracultural, historic-mythological ground of humanity as a whole that the American poets have lost in localizing their poetry.

*Twin Peaks* Franck Boulègue, 2017-01-15 Few contemporary television shows have been subjected to the critical scrutiny that has been brought to bear on David Lynch and Mark Frost's *Twin Peaks* since its debut in 1990. Yet the series, and the subsequent film, *Fire Walk With Me*, are sufficiently rich that it's always possible for a close analysis to offer something new – and that's what Franck Boulègue has done with *Twin Peaks: Unwrapping the Plastic*. Through Boulègue's eyes, we see for the first time the world of *Twin Peaks* as a coherent whole, one that draws on a wide range of cultural source material, including surrealism, transcendental meditation, Jungian psychoanalysis, mythology, fairy tales, and much, much more. The work of a scholar who is also a fan, the book should appeal to any hardcore *Twin Peaks* viewer.

Cultures in Movement Martine Raibaud, Ionut Untea, Micéala Symington, 2015-02-05 The contributors to this volume encourage a re-thinking of the very notion of culture by examining the experiences, situations and the representations of those who chose – or were forced – to change cultures from the nineteenth century to the present day. Beyond a simple study of migration, forced or otherwise, this collective work also re-examines the model of integration. As recent entrants into new social settings may be perceived as affecting the previously-accepted social equilibrium, mechanisms encouraging or inhibiting population flows are sometimes put in place. From this perspective, “integration” may become less a matter of internal choice than an external obligation imposed by the dominant political power, in which case “integration” may only be a euphemism for cultural uniformity. The strategies of cultural survival developed as a reaction to such a rising tide of cultural uniformity can be seen as necessary points of departure for an ever-growing shared multiculturalism. A long-term voluntary commitment to make cultural boundaries more flexible and allow a more engaged individual participation in the process of defining the self and finding its place within a culture in movement may represent a key element for cultural cohesion in a globalized world.

Golden Drops of Comfort James A. Rousseau Jr., 2019-01-31 An invasion of supernatural “other worldly” beings has

exploded into this world with one purpose in mind. They have come to be used by God, Jesus Christ, to be a blessing to the inhabitants of a world that seems to be bent on bringing about its own destruction. They are so consumed and filled to overflowing with golden drops of the comfort of who they are that they are willing to sacrifice their own lives out of a love for us in order that we may see the love that Jesus Christ has for us. The question is, do we have eyes to see these “other worldly” beings who are all around us everyday? Maybe if we will look through the eye-gate of our heart we may see them more clearly. There is enduring “Kindness” looking for ways to pour out the golden drops of comfort of who she is upon us to help us in our time of need. There is the unending stamina of beautiful “Joy” bringing the golden drops of who she is and pouring this joy upon us in our time of need. Then we find the strength of “Gentleness” sharing her gentle touch of love upon a cold, hard, and cruel world. As these “other worldly” beings shower their golden drops of comfort upon us how will we receive them? Will we embrace them and allow them to introduce us to Jesus Christ, or will we seek to crucify them and have nothing to do with them? The choice is ours!

Far above them, the struggle against the mighty airships and their commanders continues, as Ashley, a rogue computer personality, once again joins forces with the Machiavellian trickster, Milo Haze, against the remaining rebellious survivors of humanity. Meanwhile, on Belvedere, a religious commune set in deep space, contact is made with Earth for the first time in years and an unexpected counter is thrown into the game. Milo Haze, Mark Two, is about to enter the equation.

**Small Works** John A. Donaldson, 2011-08-15 How can policymakers effectively reduce poverty? Most mainstream economists advocate promoting economic growth, on the grounds that it generally reduces poverty while bringing other economic benefits. However, this dominant hypothesis offers few alternatives for economies that are unable to grow, or in

places where economic growth fails to reduce or actually exacerbates poverty. In *Small Works*, John A. Donaldson draws on his extensive fieldwork in two Chinese provinces—Yunnan and Guizhou—that are exceptions to the purported relationship between economic growth and poverty reduction. In Yunnan, an outward-oriented developmental state, one that focuses on large-scale, urban development, has largely failed to reduce poverty, even though it succeeded in stimulating economic growth. Provincial policy shaped roads, tourism, and mining in ways that often precluded participation by poor people. By contrast, Guizhou is a micro-oriented state, one that promotes small-scale, low-skill economic opportunities—and so reduces poverty despite slow economic growth. It is no coincidence that this Guizhou approach parallels the ideas encapsulated in the scientific development view of China's current president Hu Jintao. After all, Hu, when Guizhou's leader, helped establish the micro-oriented state in the province. Donaldson's conclusions have implications for our understanding of development and poverty reduction, economic change in China, and the thinking behind China's policy decisions.
