**The Oxford Anthology of Roman Literature** Peter E. Knox, J. C. McKeown, 2013-10-31 Though the wonders of ancient Roman culture continue to attract interest across the disciplines, it is difficult to find a lively, accessible collection of the full range of the era's literature in English. The Oxford Anthology of Roman Literature provides a general introduction to the literature of the Roman empire at its zenith, between the second century BC and the second century AD. Two features of this extraordinarily fertile period in literary achievement as evidenced by this anthology are immediately and repeatedly clear: how similar the Romans' view of the world was to our own and, perhaps even more obviously, how different it was. Most of the authors included in the anthology wrote in Latin, but as the anthology moves forward in time, relevant Greek texts that reflect the cultural diversity of Roman literary life are also included, something no other such anthology has done in the past. Roman literature was wonderfully creative and diverse, and the texts in this volume were chosen from a broad range of genres: drama, epic, philosophy, satire, lyric poetry, love poetry. By its very nature an anthology can abbreviate and thus obscure the most attractive features of even a masterpiece, so the two editors have not only selected texts that capture the essence of the respective authors, but also have included accompanying introductions and afterwords that will guide the reader in pursuing further reading. The presentations of the selections are enlivened with illustrations that locate the works within the contexts of the world in which they were written and enjoyed. The student and general reader will come away from this learned yet entertaining anthology with a fuller appreciation of the place occupied by literature in the Roman world.

**Marino Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross** Peter Lock, 2016-05-06 This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this, his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide-reading of other sources especially of William of Tyre, and, for events after 1184 on

the Eracles, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout, the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe.
