25 Lies Twentysomethings Need to Stop Believing Paul Angone,2021-03-02 Your twenties are your defining decade, the time in which you are setting the course for the rest of your life it. You don't want to look back later and realize you ended up somewhere you never intended to go in the first place. How do you block out all the lies, half-truths, and supposed-to's constantly assaulting you from articles, social media posts, and well-meaning friends and family? How do you find something real, something true, something infused with purpose and meaning? Funny, vulnerable, and to the point, this book exposes the false beliefs that can derail your current happiness and future impact, like - having big dreams is naïve - success just happens - everyone else is experiencing the success you were supposed to - when you fail you're a failure - and many more This story-driven book shows you that you're not alone in your insecurities and second-guessing, then shows you how to replace the lies with the truth--that you can live a life of purpose, earn a good paycheck, leave a legacy, and have fun doing it.

**Not Good Enough** James Robert Moore,2025-06-25 A delightful, entertaining and sexy debut. Matt Cain. After his boyfriend of nine years betrays him, Charlie's carefully constructed world crumbles. At thirty-something, he's never navigated London's queer scene alone - and he's terrified. No relationship experience, no dating app knowledge, and absolutely no idea what he's supposed to do next. But sometimes devastating endings force beautiful beginnings. As Charlie stumbles through awkward first dates and a new flat share, he discovers there's more to life than being someone's other half.

The queer community he never dared explore beckons, promising friendship, adventure, and maybe even love. If only he can silence the nagging voice telling him he's Not Good Enough. A heartwarming, story about finding yourself when life forces you to start again – because it's never too late to come out of your second closet and embrace who you truly are.

The Encyclopedia of Film Composers Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.
