Compraventa internacional de grandes aeronaves civiles. María José Castellanos Ruiz,2017-06-15 La presente monografía es el primer estudio que se realiza sobre la compraventa internacional de grandes aeronaves civiles desde una perspectiva multidisciplinar y de forma tan completa. Se trata de un análisis de todos los aspectos que se ven involucrados en el negocio jurídico de la compraventa internacional de grandes aeronaves civiles. La investigación que realiza su autora parte de la premisa de la dificultad del objeto de estudio, la aeronave, que aporta una especialidad muy particular al régimen jurídico del contrato de compraventa, precisamente la aeronave es la que exige que la autora no se haya ceñido a estudiar los aspectos estrictamente de Derecho Internacional Privado, sino que, también, haya analizado cuestiones de Derecho Administrativo, en concreto, la normativa existente en materia de seguridad aeronáutica, y de Derecho Mercantil, como el tratamiento del Convenio de Ciudad del Cabo, del Registro Mercantil de Aeronaves y de la matriculación de las mismas. La perspectiva Internacional privatista es el centro de gravedad de la monografía. Desde este punto de vista, la autora explica el régimen jurídico europeo de la competencia judicial internacional y la ley aplicable en relación con el contrato internacional de compraventa de aeronaves civiles. teniendo en cuenta la importancia de Estados Unidos en el sector aeronáutico, como productor de aeronaves civiles -Boeing-, esta perspectiva la completa la autora con el análisis de la normativa de ese estado, poniendo de relieve las diferencias existentes entre ambos ordenamientos, el europeo y el estadounidense.

Curso de derecho internacional público Elizabeth Salmón,2015-10-01 Manual en el que se evidencia los principales

problemas y tensiones del derecho internacional público contemporáneo desde una perspectiva humanista, dinámica y compleja. Este libro constituye una útil herramienta para introducirse al estudio de esta especialización del Derecho, pues facilita la comprensión de los principales problemas y tensiones del derecho internacional público contemporáneo. Además identifica los sujetos del derecho internacional y aborda su historia, el proceso de formación de sus normas internacionales y el difícil reto de su aplicación en el plano nacional e internacional. La autora presenta casos que han marcado la jurisprudencia internacional y que deberían servir para generar preguntas y debates acerca de los temas que acompañan. Este manual es producto de su trabajo en las aulas de la Facultad de Derecho de la Pontificia Universidad Católica del Perú (PUCP) a lo largo de varios años de enseñanza.

Lecciones de Derecho Internacional Público Jonatán Cruz Ángeles,2025-09-04 Las Lecciones de Derecho Internacional Público. Teoría y Práctica pretenden ser una herramienta útil que responda a las necesidades reales de los estudiantes, combinando explicaciones claras y sintetizadas con esquemas, imágenes y casos prácticos -tanto clásicos en esta materia como de actualidad-. De esta manera, los lectores pueden aplicar la teoría a distintos contextos relacionados con su vida cotidiana, lo que facilita enormemente el proceso de enseñanza y aprendizaje. Las claves de comprensión al final de cada capítulo, así como las preguntas de repaso y los ejercicios tipo test con respuestas incluidos en la obra, son otro aspecto clave. Todos estos recursos están diseñados para reforzar los conocimientos adquiridos, comprobar la comprensión de los temas y estimular el pensamiento crítico y la reflexión autónoma del estudiante, proporcionando una evaluación continua y efectiva. Una de las innovaciones más destacadas es la incorporación de códigos QR vinculados directamente a las copias oficiales de los tratados depositados en la Secretaría General de Naciones Unidas y documentos relacionados, lo que ofrece un acceso rápido a la información y fomenta el uso de herramientas digitales. Asimismo, el contenido del manual está diseñado específicamente para adaptarse al número de sesiones del plan de estudios de la asignatura Derecho Internacional Público en un Grado adaptado al Plan Bolonia. Este detalle permite que el profesorado pueda integrarlo fácilmente en sus lecciones sin necesidad de hacer ajustes, y asegura que los estudiantes trabajen con un material perfectamente organizado.

Derecho internacional público Víctor M. Sánchez,2010 Este libro ofrece una exposición clara, sistemática y crítica de las dinámicas jurídicas propias del Derecho internacional público. Pensado y escrito para estudiantes de grado o licenciatura de Universidad, Derecho internacional público sirve también para cualquier lector deseoso de conocer mejor cómo se gobierna la globalización en curso. En su interior, junto con la exposición teórica de esta materia se analizan los debates clásicos y actuales sobre el recurso a la fuerza armada en las relaciones internacionales, la protección internacional de los derechos humanos, las reglas que ordenan la globalización económica, etc. A través de gráficos, cuadros y sinopsis bien

seleccionados, los autores incrementan el valor pedagógico de la obra.

Dirección y gestión de empresas del sector turístico Inmaculada Martín Rojo, 2020-09-03 El turismo es un sector que cada día crece más a nivel mundial; así, en el año 2019 viajaron por el mundo más de 1.400 millones de personas, según datos de la Organización Mundial del Turismo. Concretamente, en 2019 España recibió 82,7 millones de turistas, siendo el segundo país del mundo en número de turistas y el país turístico más competitivo del mundo según el World Economic Forum. Para mantener esta posición de liderazgo en un entorno cada vez más global y competitivo, hay que apostar por la profesionalización del sector y por la innovación, creando nuevos productos turísticos y nuevas formas de gestión de las empresas turísticas acordes con las nuevas demandas. Esta sexta edición, manteniendo una estructura similar a las anteriores, continúa analizando la economía y la administración de empresas haciendo especial referencia a las organizaciones turísticas, la gestión de los diferentes tipos de empresas turísticas según su actividad, el crecimiento y la internacionalización del sector y la creación de empresas turísticas, así como las principales organizaciones e instituciones del sector, pero también introduce nuevas problemáticas que han surgido en los últimos años y se actualizan las ya existentes. En esta línea se estudia la gestión de viviendas de uso turístico como nueva modalidad de alojamiento extrahotelero; el turismo MICE (meetings, incentives, congress and events), dado que España ocupa el tercer puesto a nivel mundial en la celebración de congresos internacionales; la importancia de la creatividad, la innovación y la tecnología en el sector turístico, y la gestión sostenible de empresas y destinos turísticos. Con contenidos y metodología teórico-prácticos, cada capítulo se compone de un marco conceptual, preguntas de debate, problemas y lecturas recomendadas. De este modo pretende ser un manual adaptado tanto a profesionales que desean actualizar sus conocimientos, como a estudiantes universitarios e investigadores en Turismo.
