**Carbonneau on Arbitration** Thomas E. Carbonneau, 2010-05-01 A companion to Carbonneau on International Arbitration: Collected Essays, the essays in this volume represent the majority of the author's scholarly writings on the topic of U.S. arbitration law. They reflect his three decades of experience as a law professor and as the Editor-in-Chief of the World Arbitration & Mediation Report (renamed Review) and the Journal of American Arbitration. Each one tackles an aspect of the debate about the role of arbitral adjudication in contemporary American society and provides an assessment of the evolution and content of the U.S. law of arbitration. In particular, Carbonneau on Arbitration: Collected Essays examines the work of the U.S. Supreme Court in arbitration and provides a critical, but balanced, assessment of that decisional law. The chapters of this volume represent the majority of the author's scholarly writings on international commercial arbitration over thirty years. The chapters address various major issues and themes of transborder arbitration law, including (1) the importance of courts in developing and maintaining a legal culture that is hospitable to arbitration, (2) arbitration as a complete legal system, (3) the increasing use of arbitration to resolve political or mixed political and commercial disputes, and (4) the "judicialization" of arbitration. Some of the chapters are of a recent vintage, while others were written a decade or two ago. Whatever their date of production, these essays are of continuing interest to practitioners in and scholars of the field.

Electronic Consumer Contracts in the Conflict of Laws Zheng Sophia Tang, 2015-10-22 The second edition of this highly recommended work addresses the interaction between conflict of laws, dispute resolution, electronic commerce and consumer contracts. In addition it identifies specific difficulties that conflicts lawyers and consumer lawyers encounter in electronic commerce and proposes original approaches to balance the conflict of interest between consumers' access to justice and business efficiency. The European Union has played a leading role in this area of law and its initiatives are fully explored. It pays particular attention to the most recent development in collective redress and alternative/online dispute resolution. By adopting multiple research methods, including a comparative study of the EU and US approach; historical analysis of protective conflict of laws; doctrinal analysis of legal provisions and economic analysis of law, it provides the most

comprehensive examination of frameworks in cross-border consumer contracts.
