Historia del teatro español Angel Valbuena Prat,1956 En la presente obra nos mueve un doble propósito. Destacar a la vez nuestra dramática como valor nacional y universal, y perfilar obras y personalidades que encarnan los grandes motivos de la problemática literaria, y de la significación cumbre de un género o una época. Más de treinta años dedicados al estudio de la Literatura Española, y especialmente de su teatro; el paralelo con otras culturas y otras formas artísticas, y las experiencias vividas en el mismo mundo de la escena -- que como en el Pedro de Urdemalas cervantino es el gran mundo del teatro--Mucho libro y mucha anécdota hechos vida, deseamos se reconcentren en las setecientas páginas de este volumen. Obra de amor, acaso aún más que de erudición, como lo ha intentado ser nuestra crítica, desde el primer libro publicado, y el aprovechamiento de la coyuntura feliz de un momento español y una moda hispana que, como en otros casos de la Historia Universal nos brinda ahora con una serie de fecundas posibilidades. Junto a la muchas veces callada vena de poeta de la generación del 27, nuestro camino lo vemos firme y ahincado en la verdad eterna del drama nacional español. - Introducción.

Memorias cronológicas sobre el origen de la representación de comedias en España (año de 1785) José Antonio de Armona y Murga,Charles Davis,J. E. Varey,2007 Una nueva edición de la primera historia sistemática del teatro en España. Esta nueva edición de las Memorias cronológicas de José Antonio de Armona ofrece por primera vez un análisis pormenorizado de las fuentes documentales empleadas por el autor, que constituyen su aportación más fundamentlos estudios teatrales. La obra de Armona es la primera historia sistemática del teatro en España, desde el final de la Edad Media hasta su propia época. Aunque incluye una visión general de la literatura dramática del Siglo de Oro, se centra principalmente en los aspectos institucionales del teatro. En su calidad de Corregidor de Madrid, le correspondía a Armona el cargo de Juez Protector, máxima autoridad de la administración de los teatros públicos y los actores, y la mayor parte de sus Memorias se dedica a este tema. Habiendo reflexionado sobre su experiencia como Protector y los problemas planteados por conflictos jurisdiccionales en este ámbito, Armona examinó sus orígenes y evolución mediante extensas investigaciones

en los archivos municipales de Madrid, reuniendo y recopilando una nutrida colección de documentos que aclaran múltiples aspectos de la historia teatral. Por tanto, sus Memorias están estrechamente relacionadas con la documentación municipal publicada en tomos anteriores de las Fuentes para la Historia del Teatro en España, y deben situarse en este contexto. Diccionario Akal de Teatro Manuel Gómez García,1998-01-02 Este libro pretende comprender el conjunto de las artes y ciencias del espectáculo, trascendiendo lo que pudiera ser específicamente teatral desde un criterio restrictivo, para abarcar también ámbitos como el circo y la danza. Sus referencias biográficas y terminológicas totalizan más de 20.000 palabras o locuciones, agrupadas en torno a numerosos conceptos y en particular a los siguientes: actor, argot teatral, autor, baile, comedia, director, drama, escenario, espectáculo, iluminación, interpretación, movimientos espirituales, música, personaje, público, puesta en escena, teatro, texto, tragedia y vestuario. Caracterizada por el rigor en su elaboración, la obra centra su análisis en el conjunto de la escena mundial a lo largo de la historia, si bien se presta especial atención al teatro español, y particularmente a nuestros autores, actores y directores contemporáneos.

Historia del teatro moderno: Los inicios de la nueva objetividad Ricard Salvat,1981

Propriety and Permissiveness in Bourbon Mexico Juan Pedro Viqueira Albán,1999 The eighteenth century in New Spain witnessed major changes: among these, one of the most significant was the adoption of French customs among the upper groups of society in response to the spreading ideas of the Enlightenment. In addition, New Spain's economy and culture were also changing radically. The spread of these French-inspired ideas and customs soon reached the rest of urban society. These new ideas, it has been assumed, brought a relaxation of social customs. But Viqueira Alban takes this assumption, and raises the question: Was it really a period of relaxation of social customs, in this age of growth without development? He discovered that the movement of rural workers and their families to urban centers created a concern within the church and government hierarchy about the threat of disorder, leading to the need for new social restraints. By the end of the eighteenth century, New Spain was characterized by a very rich, agitated, and varied social life. This book explores the history of Mexico City in the eighteenth century, focusing on society, social classes, elite culture and popular culture. Propriety and Permissiveness examines how the elite culture in Mexico City attempted to create more space between themselves and the masses. Their anxiety about their status encouraged laws and practices that enforced social space. Bullfighting, the theater, street diversions, and the game of pelota (called jai-alai in the United States today) are all examined as part of the culture of this period. This new text is ideal for colonial Latin American survey courses, courses on the history

of Mexico and Latin American literature, and courses on the popular culture and social history of Latin America.

Encyclopedia of Latin American Theater Eladio Cortés, Mirta Barrea-Marlys, 2003-12-30 Latin American culture has given birth to numerous dramatic works, though it has often been difficult to locate information about these plays and playwrights. This volume traces the history of Latin American theater, including the Nuyorican and Chicano theaters of the United States, and surveys its history from the pre-Columbian period to the present. Sections cover individual Latin American countries. Each section features alphabetically arranged entries for playwrights, independent theaters, and cultural movements. The volume begins with an overview of the development of theater in Latin America. Each of the country sections begins with an introductory survey and concludes with copious bibliographical information. The entries for playwrights provide factual information about the dramatist's life and works and place the author within the larger context of international literature. Each entry closes with a list of works by and about the playwright. A selected, general bibliography appears at the end of the volume.

Concise Encyclopedia of Latin American Literature Verity Smith, 2014-01-14 The Concise Encyclopedia includes: all entries on topics and countries, cited by many reviewers as being among the best entries in the book; entries on the 50 leading writers in Latin America from colonial times to the present; and detailed articles on some 50 important works in this literature—those who read and studied in the English-speaking world.

World Encyclopedia of Contemporary Theatre Arthur Holmberg, Carlos Solorzano, 2014-06-03 The second volume of the World Encyclopedia of Contemporary Theatre covers the Americas, from Canada to Argentina, including the United States. Entries on twenty-six countries are preceded by specialist introductions on Theatre in Post-Colonial Latin America, Theatres of North America, Puppet Theatre, Theatre for Young Audiences, Music Theatre and Dance Theatre. The essays follow the series format, allowing for cross-referring across subjects, both within the volume and between volumes. Each country entry is written by specialists in the particular country and the volume has its own teams of regional editors, overseen by the main editorial team based at the University of York in Canada headed by Don Rubin. Each entry covers all aspects of theatre genres, practitioners, writers, critics and styles, with bibliographies, over 200 black & white photographs and a substantial index. This is a unique volume in its own right; in conjunction with the other volumes in this series it forms a reference resource of unparalleled value.
