**Oposiciones. Maestro de Educación Primaria I** Antonia Ramírez García, Marcos Jurado Gómez, José Ramón Ruiz Suárez, 2021-01-28 El sistema de selección para el ejercicio de la docencia consta de diferentes fases reguladas por el Real Decreto 84/2018, de 23 de febrero, por el que se modifica el Real Decreto 276/2007, de 23 de febrero, por el que se aprueba el Reglamento de ingreso, accesos y adquisición de nuevas especialidades en los cuerpos docentes a que se refiere la Ley Orgánica 2/2006, de 3 de mayo, de Educación, y se regula el régimen transitorio de ingreso a que se refiere la disposición transitoria decimoséptima de la citada ley. Las fases en el proceso de oposición a este cuerpo son tres: fase de oposición, fase de concurso y fase de prácticas. Esta obra trata de cubrir el temario correspondiente a la fase de oposición, que se compone de dos pruebas de carácter eliminatorio: una primera prueba que será el examen escrito y una segunda prueba que será el examen oral. En esta fase se valoran los conocimientos específicos de la especialidad docente a la que se opta, la aptitud pedagógica y el dominio de las técnicas necesarias para el ejercicio de la profesión docente. Este manual recoge los veinticinco temas que integran el temario de oposiciones al cuerpo de maestros por la especialidad de Educación Primaria. Los temas se han redactado de tal forma que pueden ser empleados en cualquier Comunidad Autónoma, pues se ha tomado como referencia la normativa estatal para hacer referencia a los elementos curriculares. Asimismo, estos temas recogen una revisión teórica actualizada de las tendencias pedagógicas y psicológicas que sustentan las intervenciones educativas más

innovadoras en el aula. Del mismo modo, la experiencia de los autores como docentes y preparadores de oposiciones enriquecen estos planteamientos teóricos con ejemplos prácticos de situaciones reales producidas en el contexto escolar.(cont.)

*Incorporación con sentido pedagógico de TIC en la formación docente de los países del Mercosur PASEM*, En este estudio se busca proporcionar información sobre el estado actual del acceso y de los usos con sentido pedagógico de las TIC en la formación docente en los países beneficiarios del PASEM (Argentina, Brasil, Uruguay y Paraguay), así como aportar insumos para elaborar una propuesta de formación continua para fortalecer el uso pedagógico de las TIC en la formación docente. El estudio se enmarca en una preocupación creciente de las políticas educativas por la integración de las TIC en la formación docente en los últimos años, tanto por la centralidad de las nuevas tecnologías como estrategia de democratización del conocimiento, como por el rol fundamental que cumple la formación docente, inicial y en servicio, para el mejoramiento de la calidad educativa y las políticas de equidad. Ello se evidencia, entre otros documentos normativos, en las Metas Educativas 2021, un acuerdo de objetivos político-educativos de largo alcance para los gobiernos de la región, que se han propuesto la integración curricular de las TIC y la evaluación de su impacto, así como promover la capacitación de los profesores y difundir las prácticas innovadoras a nuevas audiencias. Si bien no se han planteado metas específicas para la formación inicial o en servicio, sí se subraya la necesidad de ampliar los saberes de los docentes y de organizar redes de conocimiento y de prácticas que apoyen la renovación pedagógica y curricular.

**El currículum de la Educación Física en la Reforma educativa** Jordi Díaz Lucea,1998 La inclusion de la Educacion Fisica como area comun para los alumnos en las etapas de la Educacion Primaria, Secundaria y el Bachillerato, hace necesaria, por una parte, la puesta al dia o reciclaje de aquellos profesionales dedicados al ambito educativo. Y por otra, la necesidad decrear una formacion inicial especializada para los maestros que tendran la responsabilidad de impartir el area en las escuelas de primaria. La presente obra pretende ser una aportacion en cuanto a formacion basica para la Reforma Educativa. Dirigida tanto a maestros especializados, profesores, licenciados y estudiantes de Educacion Fisica que, implicados en la responsabilidad de afrontar una nueva etapa educativa tanto del propio sistema en su conjunto como especifica del area, deseen tener al alcance una herramienta util en la que se recogen los principales postulados, estructura, finalidades, etc., de la nueva propuesta curricular. El contenido de la obra se estructura alrededor de siete grandes capítulos. A partir de los conceptos basicos sobre programacion y de su incidencia y de la estructura en el sistema educativo, siguiendo

por la especificación del modelo curricular adoptado por la LOGSE, se llega al área de Educación Física para realizar un exhaustivo análisis de su planteamiento en el nuevo sistema educativo. Se finaliza con el estudio y la forma de articular los elementos que confluyen en el diseño de las unidades didácticas. Esta obra, además de intentar proporcionar una formación amplia y general, pretende establecer las bases teóricas y dotar a los profesionales de los conocimientos y recursos adecuados para poder articular los diferentes factores del proceso de enseñanza-aprendizaje. En definitiva pretende dar las bases y los recursos para estructurar los elementos que constituy

Guía para auxiliares de conversación españoles en Suiza. Curso 2019 - 2020 Lázaro Melús, Carlos, Larraz Genovés, María Josefa, La labor de los auxiliares de conversación tiene el objetivo de mejorar la calidad de la enseñanza del español en sus centros educativos de destino, despertando en los alumnos la curiosidad y la motivación por el estudio de la lengua española, y sirviendo de modelo para su uso en situaciones comunicativas. Además, los auxiliares contribuyen a aportar una visión directa de la cultura y la vida actual en su país. Por otro lado, los auxiliares, que a su vez se encuentran en un proceso de aprendizaje de las lenguas alemana, francesa o italiana y las respectivas culturas, tienen la oportunidad de vivir una experiencia personal y profesional que les permitirá profundizar en el conocimiento de su sociedad y sus sistemas educativos.

La educación secundaria en la Unión Europea: estructuras, organización y administración. 1997 EURYDICE, 1997 This study examines the existing secondary education structures of the European Union member nations, the organization of education, teacher training, and the way in which secondary education is managed in Europe today. The three European Free Trade Association/European Economic Area (EFTA/EEC) countries (Iceland, Liechtenstein, and Norway) also are included in the study. The four chapters aim to facilitate an approach to the various issues confronting secondary education in the countries. Chapter 1 addresses the structure of secondary education, situates it within the education systems as a whole, and looks at the various branches and pupil mobility within the systems. Chapter 2 deals with the internal organization of secondary schools and aims to describe and compare the situation in various countries in terms of the way school time is organized, the subjects taught, and the types of assessment and certification used. This chapter also deals with pedagogical approaches to combating school failure. Chapter 3 focuses specifically on initial teacher training for secondary education. Chapter 4, on administration, addresses decision-making and gauges the extent to which this has devolved to regional and local levels, as well as to individual schools themselves, in areas such as the planning, structure and educational organization of secondary education and the management of teaching staff. (EH)

### **El Sistema de Formación Profesional en Cataluña** Esteve Oroval Planas, Ana Villarroya Planas, Sergio Afcha

Chávez,2008 Este estudio analiza la situación actual del sistema de formación profesional en Cataluña, considerando sus tres subsistemas y teniendo en cuenta, además, el entorno español y europeo en el que se enmarca dicho sistema. INDICE: Presentación. Educación, formación y crecimiento económico. Análisis del sistema de formación profesional en Cataluña en el contexto español e internacional. Políticas recientes de formación profesional. La formación profesional continua en la empresa. Conclusiones. Bibliografía.
