Drawing on the Austrian School of economics, the book includes writings on the monetary policy of the European Central Bank and the economics of pandemics, economic cycles, Japanization and deflation, the crisis of classical liberalism versus anarchocapitalism, market socialism and nationalism, and the relations between efficiency and ethics. Geld, Bankkredit und Konjunkturzyklen Jesús Huerta de Soto, 2011-01-01 In dem vorliegenden Werk analysiert der Autor kritisch die ökonomischen und rechtlichen Grundlagen unseres aktuellen Bank- und Kreditsystems. Diesem ist ein hoher Grad an Staatseingriffen und Regulierungen eigen. So hat sich das Finanzsystem zur Achillesferse moderner Volkswirtschaften entwickelt.

Money, Bank Credit, and Economic Cycles Jesús Huerta de Soto, 2009 Can the market fully manage the money and banking sector? Jesus Huerta de Soto, professor of economics at the Universidad Rey Juan Carlos, Madrid, has made history with this mammoth and exciting treatise that it has and can again, without inflation, without business cycles, and without the economic instability that has characterised the age of government control. Such a book as this comes along only once every several generations: a complete comprehensive treatise on economic theory. It is sweeping, revolutionary, and devastating -- not only the most extended elucidation of Austrian business cycle theory to ever appear in print but also a decisive vindication of the Misesian-Rothbardian perspective on money, banking, and the law. The author has said that this is the most significant work on money and banking to appear since 1912, when Mises's own book was published and changed the way all economists thought about the subject. Its five main contributions: A wholesale reconstruction of the legal framework for money and banking, from the ancient world to modern times; An application of law-and-economics logic to banking that links microeconomic analysis to macroeconomic phenomena; A comprehensive critique of fractional-reserve banking from the point of view of history, theory, and policy; An application of the Austrian critique of socialism to central banking; The most comprehensive look at banking enterprise from the point of view of market-based entrepreneurship. Those are the main points but, in fact, this only scratches the surface. Indeed, it would be difficult to overestimate the importance of this book.

De Soto provides also a defence of the Austrian perspective on business cycles against every other theory, defends the 100% reserve perspective from the point of view of Roman and British law, takes on the most important objections to full reserve theory, and presents a full policy program for radical reform. It could take a decade for the full implications of this book to be absorbed but this much is clear: all serious students of these subject matters will have to master this treatise.

**Franquismo S.A.** Antonio Maestre, 2025-04-09 En España, como en el resto del mundo, los bienes o deudas económicas se heredan, pero la culpa y la responsabilidad moral, no. La llegada de la democracia a nuestro país supuso un cierre en falso del abismo entre vencedores y víctimas de la Guerra Civil y la represión franquista. En la actualidad la cuestión de la memoria histórica forma parte de nuestro debate público: la polémica sobre El Valle de los Caídos y la exhumación del cadáver del dictador, el cambio de nombre de las calles que homenajeaban a criminales franquistas, la apertura de las fosas comunes... Sin embargo, el fondo de la cuestión va más allá: ¿cuál es la responsabilidad moral de las élites que se lucraron al calor del franquismo? ¿Son legítimos los patrimonios transmitidos a sus herederos? Ilustres nombres de la oligarquía empresarial y política que se enriquecieron con la represión, la corrupción o las íntimas relaciones con la dictadura franquista siguen ocupando hoy cargos de responsabilidad en consejos de administración, administraciones públicas o fundaciones de todo tipo sin que la sociedad exija una sanción o una compensación. En Franquismo S.A. Antonio Maestre nos obliga a realizar una revisión crítica de la historia empresarial de las grandes sagas familiares que componen las élites de este país. Porque la mayor resistencia a la reparación histórica no es cultural, política o moral. Es económica. Incluye nuevo Prólogo: La alianza imperturbable entre capital y fascismo.
