Musical Theatre Education and Training in the 21st Century Jessica O'Bryan,Scott D. Harrison,2024-09-17 Musical Theatre Education and Training in the 21st Century presents a wide range of viewpoints on the musical theatre profession. It brings together research from the UK, US, Australia, and beyond, providing an essential resource for educators, students, and all those involved in training for musical theatre. The research draws on best practice from creatives, producers, practising artists, and the academy to reveal a multiplicity of approaches and educational pathways for consideration by performers, educators, institutions, and the profession. The book goes beyond the key elements of performance training in singing, dancing, and acting to explore adjacent creative and business skills, along with some of the more recent and challenging aspects of the profession such as diversity of representation both on and off stage, building safe working environments, and managing mental and physical health and wellbeing. The authors incorporate information from over 100 interviews with everyone from emerging performers to leading professionals, and explore the practicalities of pre-professional training, skills development, and curricular design, alongside the broader attributes required in preparation for the profession. This book offers vital insights into how musical theatre practitioners can best be prepared to make their way in the field now and in the future.

Super Ways to Jumpstart the School Year! Michael Gravois,1999 Provides suggestions for activities to help new classes get acquainted, along with letters to parents, seasonal bulletin boards, and clip art.

Casting the Art of Rhetoric with Theater and Drama Adrienne E. Hacker Daniels,2025-06-12 Casting the Art of Rhetoric with Theater and Drama: Taking Center Stage explores rhetoric and theater as they relate to one another, developing the understanding of rhetoric as theory and praxis. This book addresses rhetorical themes and cultural resonances, as well as the oft overlooked symbiosis of rhetoric and theater. Rather than addressing audiences as either observers of rhetorical artifacts or theatrical performance, this work demonstrates the intersection of the two, which strengthens theatrical events and their cultural significance. Overall, the volume showcases the many ways in which an understanding of the relationship between rhetorical and poetic theories can benefit dramatic convention and the breaking thereof.
