**Sport in the Iberian Peninsula** Jerónimo García-Fernández, Moisés Grimaldi-Puyana, Gonzalo A. Bravo, 2022-11-03 This is the first book in English to offer an overview of the development of the sport industry in Spain and Portugal, examining the social, economic, cultural, and political impact sport has had in this region and on world sport more broadly. Drawing on sources in Spanish and Portuguese, the book presents important new perspectives and empirical material not previously available to English-speaking audiences. With a strong focus on management, development, economics, governance and law, set in a broader historical and socio-cultural context, the book explains the unique characteristics of the sport industry in the Iberian Peninsula. It takes a deep dive into Spanish and Portuguese football - in many ways the centre of gravity of Iberian sport - and into sport tourism, a hugely significant component of the broader economy of the region. The book also considers important emerging themes in Iberian sport, from the development of women's sport to the global profile of Cristiano Ronaldo and Rafael Nadal, and considers the wider influence of Iberian sport across the wider Hispanic diaspora. This is fascinating and illuminating reading for anybody with an interest in sport business and management, global sporting

cultures, international business, or Hispanic or Latin American studies.

**A Cultural History of Sport in the Medieval Age** Noel Fallows, 2022-08-31 A Cultural History of Sport in the Medieval  
Age covers the period 600 to 1450. Lacking any viable ancient models, sport evolved into two distinct forms, divided by class.  
Male and female aristocrats hunted and knights engaged in jousting and tournaments, transforming increasingly outdated  
modes of warfare into brilliant spectacle. Meanwhile, simpler sports provided recreational distraction from the dangerously  
unsettled conditions of everyday life. Running, jumping, wrestling, and many ball games - soccer, cricket, baseball, golf, and  
tennis - had their often violent beginnings in this period. The 6 volume set of the Cultural History of Sport presents the first  
comprehensive history from classical antiquity to today, covering all forms and aspects of sport and its ever-changing social,  
cultural, political, and economic context and impact. The themes covered in each volume are the purpose of sport; sporting  
time and sporting space; products, training and technology; rules and order; conflict and accommodation; inclusion,  
exclusion and segregation; minds, bodies and identities; representation. Noel Fallows is Distinguished Research Professor at  
the University of Georgia, USA. Volume 2 in the Cultural History of Sport set General Editors: Wray Vamplew, Mark Dyreson,  
and John McClelland

Reading Ancient Objects Inside Out: Greek Figure-Decorated Pottery in Portugal Rui Morais, Delfim Leão, Maria de Fátima Silva, Daniela Ferreira, David Wallace-Hare, 2024-12-12 Collected papers examine ancient Greek vases in Portugal through two approaches: scripta explores mythological, literary, and cultural themes, while eikon provides an iconographic analysis. The study includes vases from Myths, Gods and Heroes and others of historical importance, including non-figurative examples.

**Football and Fascism** Rahul Kumar, 2023-06-06 Football and Fascism. The Politics of Popular Culture in Portugal tells the hidden history of football and discusses its political, social and cultural foundations, during the longest running authoritarian regime in Europe. Theoretically grounded on Bourdieu’s field theory, and using a multi-scalar methodology, this award-winning research explores the political tensions between the nationalization of sports envisaged by the Portuguese “New State” and the integration of national football in a globalized urban popular culture. Mobilizing unexplored archival sources, and a wide array of primary materials, this groundbreaking work offers new insight on the administrative structures of the corporativist state, the making of an authoritarian cultural program, and the relation between state institutions and civil society. Besides broadening the scope of existing transnational histories of football, this study also puts into question the conventional geographies and political chronologies adopted in sports history. For his outstanding research, Rahul Kumar won the 2015 “Mário Soares Award - EDP Foundation” for best work in Portuguese history by researchers under 35 and received an honourable mention, also in 2015, in the “CES Award for Young Portuguese speaking Social Scientists”, attributed by the Centre for Social Studies of Coimbra University.
