The Joy of Life Margaret Werth, 2002-11-05 Werth weaves together complex analyses of these paintings and others by Manet, Gauguin, Seurat, Cezanne, and less well known artists with a consideration of their critical reception, literary parallels, and the social and cultural milieu. She moves from artistic concerns with tradition and avant-gardism, decoration and social art, composition and figuration to contemporary debates over human origins and social organization.--BOOK JACKET.

Painting as Model Yve-Alain Bois, 1993-05-04 Informed by both structuralism and poststructuralism, these essays by art critic and historian Yve Alain Bois seek to redefine the status of theory in modernist critical discourse. Warning against the uncritical adoption of theoretical fashions and equally against the a priori rejection of all theory, Bois argues that theory is best employed in response to the specific demands of a critical problem. The essays lucidly demonstrate the uses of various theoretical approaches in conjunction with close reading of both paintings and texts.

Sister Brother Brenda Wineapple, 2008-03-01 Devoted, eccentric, and compelling, Gertrude and Leo Stein were constant companions, from childhood to adulthood, until, finally, they spoke no more. Americans, expatriates, and virtually orphans, they lived together for almost forty years, collaborating in one of the great artistic and literary adventures of the twentieth century. *Sister Brother* tells the story of that adventure and relationship. With a personality that drew people toward her?regardless of what they thought of her inventive, hermetic prose?Gertrude Stein dazzled and perplexed. Enigmatic, intelligent, and self-absorbed, Leo also dazzled but in his own way. One of the crucial figures in Gertrude's early years, he was the original guiding spirit of the famed salon at 27 rue de Fleurus, which continued for almost two decades. From her early days as a medical student to her first days in Paris, Gertrude was passionately driven toward the career in which she distinguished herself, demanding appreciation as an exceptional writer who knew precisely what she intended. This book shows how Gertrude slowly struggled with what became a unique voice?and why her brother spurned it. ø With its wealth of new and rare material, its reconstruction of Leo's famed art collection, and its array of characters?from Bernard

Berenson to Pablo Picasso?this biography offers the first glimpse into the smoldering sibling relationship that helped form two of the twentieth century?s most unusual figures.

A Journey Into Matisse's South of France Laura McPhee,2007-01-01 For more than 50 years the passionate pursuit of color led Henri Matisse to visit some of the most enchanting villages in southern France. Travelers and art lovers will delight in this mix of art, history, biography, and travel guide that covers southern France and explores the teal skies, emerald hills, red soil, and indigo seas beloved by the artist. The journey begins in Paris and then moves to the fashionable port of St. Tropez, the fishing village of Collioure, chic and voluptuous Nice, and the rustic refuge of Vence, and ends in the luxurious resort of Cimiez. The author identifies the villas and studios where Matisse lived and worked in each location and discusses how his art responded to the palette and ambience of each local landscape.

Matisse and Picasso Jack Flam,2008-08-04 Matisse and Picasso achieved extraordinary prominence during their lifetimes. They have become cultural icons, standing not only for different kinds of art but also for different ways of living. Matisse, known for his restraint and intense sense of privacy, for his decorum and discretion, created an art that transcended daily life and conveyed a sensuality that inhabited an abstract and ethereal realm of being. In contrast, Picasso became the exemplar of intense emotionality, of theatricality, of art as a kind of autobiographical confession that was often charged with violence and explosive eroticism. In *Matisse and Picasso* , Jack Flam explores the compelling, competitive, parallel lives of these two artists and their very different attitudes toward the idea of artistic greatness, toward the women they loved, and ultimately toward their confrontations with death.

Les Fauves Russell T. Clement,1994-05-25 This is the first comprehensive scholarly bibliography/research guide/sourcebook on the major French Fauve painters (Henri Matisse and Georges Braque are treated in separate Greenwood bio-bibliographies). It includes information on 3,120 books and articles as well as chronologies, biographical sketches, and exhibition lists. Each artist receives a primary and secondary bibliography with many annotated entries. Secondary bibliographies include details about each artists' life and career, relationships with other artists, work in various media, iconography, and more. Designed for art historians, art students, museum and gallery curators, and art lovers alike, this volume organizes the vast literature surrounding this fascinating, revolutionary, 20th-century art group. Genuinely new art is always challenging, sometimes even shocking to those unprepared for it. In 1905, the paintings of Matisse, Derain, Vlaminck and their friends shocked conservative museum-goers; hence, the eventual popularity of art critic Louis Vauxcelles's tag *les fauves*, or wild beasts by which these artists became known. Although it lasted only three or four years, Fauvism is recognized as the first artistic revolution of international consequence in the 20th century. It was based on the glorification of pure saturated colors and the free expression of primitivism. It was a dynamic sensualism; an equilibrium of passion and order, fire and austerity that could not last. By the end of 1908, Fauvism collapsed in the face of Cubism, which,

moreover, several Fauve artists helped to form.

Matisse and Decoration John Klein, 2018-01-01 A brand new look at the extremely beautiful, if underappreciated, later works of one of the most inventive artists of the 20th century Between 1935 and his death at midcentury, Henri Matisse (1869-1954) undertook many decorative projects and commissions. These include mural paintings, stained glass, ceramic tiles, lead crystal pieces, carpets, tapestries, fashion fabrics, and accessories--work that has received no significant treatment until now. By presenting a wealth of new insights and unpublished material, including from the artist's own correspondence, John Klein, an internationally acclaimed specialist in the art of Matisse, offers a richer and more balanced view of Matisse's ambitions and achievements in the often-neglected later phases of his career. Matisse designed many of these decorations in the innovative--and widely admired--medium of the paper cut-out, whose function and significance Klein reevaluates. Matisse and Decoration also opens a window onto the revival and promotion, following World War II, of traditional French decorative arts as part of France's renewed sense of cultural preeminence. For the first time, the idea of the decorative in Matisse's work and the actual decorations he designed for specific settings are integrated in one account, amounting to an understanding of this modern master's work that is simultaneously more nuanced and more comprehensive.

The Normalisation of Exceptional Counterterrorism Powers Marine Guéguin, 2025-06-30 This book investigates the framing of the terrorist threat in France from 2015 to 2020 as an 'exceptional' challenge which requires a 'special' public security response. The book examines how French political actors framed the terrorist threat in French political discourse from an exceptional challenge to a permanent, routine threat. It provides an in-depth critical discourse analysis of the French political narratives surrounding the activation of the 'état d'urgence' (state of emergency) following the 2015 Charlie Hebdo and Paris terrorist attacks, and traces this narrative until 2020. The study explores the securitisation-desecuritisation framework, showing how the normalisation of emergency powers reflects the ongoing (re)construction of terrorism within French political contexts. The work demonstrates the importance of threat framing and the securitisation of terrorism by considering the colonial legacies embedded in French counterterrorism (CT) policies. By investigating the intersection of CT political discourse, temporality, and colonial continuity, the book challenges traditional notions of exceptionalism in securitisation. It argues that the routinisation of counterterrorism measures highlights the impossibility of fully desecuritisating terrorism (re-establishing the status quo), revealing how these measures are deeply rooted in France's colonial past. This book will be of interest to students of Terrorism Studies, Critical Security Studies, French politics, and International Relations.

Albert Camus in the 21st Century, 2008-01-01 In the first decade of a new century, this collection of bilingual essays examines Camus's continuing popularity for a new generation of readers. In crucial respects, the world Camus knew has

changed beyond all recognition: decolonization, the fall of the Iron Curtain, a new era of globalization and the rise of new forms of terrorism have all provoked a reconsideration of Camus's writings. If the Absurd once struck a particular chord, Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth. Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus. Equally, once isolated because of his anti-Communist stance, Camus has been taken up by disaffected members of the Left, convinced that new forms of totalitarianism are abroad in the world. This volume, which ranges from interpretations of Camus's literary works, his journalism and his political writings, will be of interest to all those seeking to re-evaluate Camus's work in the light of ethical and political issues that are of continuing relevance today.

Pablo Picasso Mary Ann Caws, 2013-06-01 What is a face, really? Its own photo? Its make-up? Or is it a face as painted by such or such painter? That which is in front? Inside? Behind? And the rest? Doesn't everyone look at himself in his own particular way? With these words, Pablo Picasso described the revolutionary methods of painting and artistic perspective with which he challenged the ways people and the world were defined. His life was a similarly complex prism of people, places, and ideologies that spanned most of the twentieth century. Acclaimed scholar Mary Ann Caws provides in Pablo Picasso a fresh and concise examination of Picasso's life and art, revisiting the themes that occupied him throughout his life and weaving these themes through his crucial close relationships. Caws embarks on a global journey to retrace the footsteps of Picasso, giving biographical context to his work from *Les Femmes d'Alger* through *Guernica* and analyzing the changes and inconsistencies in his oeuvre over the course of the twentieth century. She examines Picasso's attempts to balance various viewpoints, artistic strategies, lovers, and friends, positing the central figures of the Harlequin, the clown, and the acrobat in his art as emblematic of his actions. Gertrude Stein, Max Jacob, Apollinaire, Jean Cocteau, André Breton, Salvador Dalí, Paul Eluard, and Roland Penrose all make appearances in these pages as Caws examines their influence on Picasso. Caws also delves into Picasso's tumultuous relationships with his lovers Dora Maar, Françoise Gilot, and Jacqueline Roque to understand their effects on his art. A compelling and original portrait, Pablo Picasso offers a lively exploration into the personal networks that both challenged and sustained Picasso.

Musicology and Dance Davinia Caddy, Maribeth Clark, 2020-08-27 Long treated as peripheral to music history, dance has become prominent within musicological research, as a prime and popular subject for an increasing number of books, articles, conference papers and special symposiums. Despite this growing interest, there remains no thorough-going critical examination of the ways in which musicologists might engage with dance, thinking not only about specific repertoires or genres, but about fundamental commonalities between the two, including embodiment, agency, subjectivity and consciousness. This volume begins to fill this gap. Ten chapters illustrate a range of conceptual, historical and interpretive

approaches that advance the interdisciplinary study of music and dance. This methodological eclecticism is a defining feature of the volume, integrating insights from critical theory, film and cultural studies, the visual arts, phenomenology, cultural anthropology and literary criticism into the study of music and dance.

The Routledge Companion to Literature and Art Neil Murphy, W. Michelle Wang, Cheryl Julia Lee, 2024-03-11 The Routledge Companion to Literature and Art explores the links between literature and visual art from classical ekphrasis through to contemporary experimental forms. The collection's engagement with diverse literary and cultural artifacts offers a comprehensive survey of the vibrant interrelationships that currently inform literary studies and the arts. Featuring four sections, the first part provides an overview of theoretical approaches to art and literature from philosophy and aesthetics through to cognitive neuroscience. Part two examines one of the most important intersections between text and image: the workings of ekphrasis across poetry, fiction, drama, comics, life and travel writing, and architectural treatises. Parts three and four consider intermedial crossings from antiquity to the present. The contributors examine the rich intermedial experiments that range from manuscript studies to infographics in graphic narratives, illuminating the vibrant ways in which texts have intersected with illustration, music, dance, architecture, painting, photography, media installations, and television. Throughout this dynamic collection of 37 chapters, the contributors evolve existing critical debates in innovative new directions. The volume will be a critical resource for advanced undergraduate and graduate students, as well as specialist scholars working in literary studies, philosophy of art, text and image studies, and visual culture. The Introduction and Chapters 10, 14 and 37 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution (CC-BY) 4.0 license.
