Stravaganza: City of Stars Mary Hoffman,2011-02-01 Georgia is an ordinary girl, living in London with her mother, stepfather, and bully of a stepbrother, and coping with the difficulties of growing up. But her life takes a sudden change when she buys a tiny figurine of a winged horse, and suddenly finds herself swept up into the world of the Stravagante. The tiny horse becomes her magical time-travel talisman and transports her to Remora, the Talian parallel to the city of Siena, Italy. There she meets Lucien, the Stravagante we first met in City of Masks, and many other fascinating people who are in the midst of preparing for the Stellata, the annual horse race run each year in the city. Of Stars and Men Zdenek Kopal,2017-10-02 The twentieth century has been a remarkable epoch in the affairs of men, and this is no less true of astronomy, at once the oldest and most modern of the sciences. Sky watchers at the beginning of the century measured positions and predicted celestial motions in faithful but uninspired homage to the Muse Urania; nowadays, their descendents call on all the resources of modern science to probe the nature and evolution of a bewildering range of celestial objects. Man has even set out to call personally on his nearest neighbours in space. Professor Zdenek Kopal has lived and practised astronomy throughout this efflorescence of his subject. Born in Czechoslovakia just before the

outbreak of the Great War, and educated in the classical European tradition, he knows well the days when scholars commanded such respect that astronomical congresses would be visited by Heads of State. Yet within his own lifetime, he has himself been recruited to play an important role in scientific preparations for a manned Moon landing. He has known and worked with some of the most highly respected practitioners of Modern Astronomy: Russell, Shapley, Urey in the United States, Eddington in Britain. His fine eye for detail, coupled with his strong sense of history, enable him to unfold through his personal recollections the development of his subject across the social changes of two world wars. Inspired by his grandfather, who would think nothing of walking sixty miles to theatrical performance, the young Kopal acquired a Wanderlust that has taken him in his career more than a dozen times round the world. He has visited the most ancient observatories, observed solar eclipses in Japan and Java, helped to establish new institutions in Iraq and India, and commuted for many years between the Old and New Worlds. He has toiled in every corner of his chosen vinyard: as observer, outstanding theoretician, populariser, editor and teacher. During his thirty years as Professor of Astronomy at Manchester, he

When Music Takes Over in Film Anna K. Windisch, Claus Tieber, Phil Powrie, 2023-05-02 This open access collection deals with musical moments in film as one of the most pivotal and compelling issues of current film music research. Musical moments as defined by Amy Herzog occur when a musical number inverts the normal relationship between the image track and the soundtrack in a film in such a way that what we see is determined by what we hear. As one potential approach, this definition provokes a variety of perspectives to investigate the disruptive potential of these moments and numbers as a creative device in the production of audiovisual narratives. In this sense, the book responds to a need for an anthology that introduces students as well as scholars of cinema, musicology, media studies and cultural studies more broadly, to recent

discourses in film music scholarship. The volume includes contributions by early career researchers as well as by established experts in the fields of musicology, film studies, media studies, and cultural studies, promoting cross-disciplinary collaboration in film music research.

The City of Musical Memory Lise Waxer, 2002-10-29 A social history of salsa in Colombia. Winner of the ASCAP Deems Taylor Award for Popular Music Books (2002) Winner of the Society for Ethnomusicology's (SEM) Alan P. Merriam Prize (2003) Salsa is a popular dance music developed by Puerto Ricans in New York City during the 1960s and 70s, based on Afro-Cuban forms. By the 1980s, the Colombian metropolis of Cali emerged on the global stage as an important center for salsa consumption and performance. Despite their geographic distance from the Caribbean and from Hispanic Caribbean migrants in New York City, Caleños (people from Cali) claim unity with Cubans, Puerto Ricans and New York Latinos by virtue of their having adopted salsa as their own. *The City of Musical Memory* explores this local adoption of salsa and its Afro-Caribbean antecedents in relation to national and regional musical styles, shedding light on salsa's spread to other Latin American cities. Cali's case disputes the prevalent academic notion that live music is more real or authentic than its recorded versions, since in this city salsa recordings were until recently much more important than musicians themselves, and continued to be influential in the live scene. This book makes valuable contributions to ongoing discussions about the place of technology in music culture and the complex negotiations of local and transnational cultural identities.

City of Song Michael A. Figueroa, 2022 Modern Jerusalem, a city central to Jewish, Muslim, and Christian religious imaginaries and the political epicenter of the Israeli-Palestinian crisis, is to put it mildly a highly contested space. More surprising, perhaps, is that its musical landscape not only reflects these rifts but also helped to define them as the ancient city transitioned to modernity during the twentieth century. In *City of Song: Music and the Making of Modern Jerusalem*, author Michael A. Figueroa argues that musical renderings of Jerusalem have been critical to the formation of Israeli political consciousness. The book demonstrates how Israeli songwriters helped to shape their public's territorial imagination--creating images of a city at once heavenly and earthly, that dwells in longing, that must not be forgotten, that compels one to

bereave the dead, that represents the fulfilment of prophecy, and that is the site of immense cultural diversity. The dynamic history of its representation in lyrics and music helps dispel any notion that the Israeli-Palestinian crisis is timeless, intractable, and based on static, essential identities; while there are continuities across historical divides, radical change constantly transpires. *City of Song* combines analyses of musical meaning, political discourse, and public performance over the long twentieth century (1880s-2010) to reveal how the Israeli-Palestinian crisis' territorial fixation on Jerusalem has been constructed, historically contingent, and subject to artistic intervention in modernity. Through a musical history of Jerusalem, Figueroa introduces a novel, humanities-centered approach to one of the world's most contested cities, and one of the defining cultural and political questions of our era.
