Land of Extraction Rebecca R. Scott, 2024-03-12 Drawing on contemporary events, fictional accounts of fossil fuel apocalypse, and ethnographic work on the fracking and pipeline boom in West Virginia, this book explores how private property, a primary political economic and emotional structure of settler colonial capitalism, enables extractive industry, constrains individual agency, and impedes environmental justice--

Climate Change in Popular Culture James Craig Holte, 2022-06-17 An invaluable resource for general readers investigating climate change, this book examines the impact of climate change on popular culture and analyzes how writers and directors treat the disasters caused by climate change in their novels and films. *Climate Change in Popular Culture: A Warming World in the American Imagination* is the first study that includes analyses of both fiction and popular nonfiction works devoted to climate change. In addition, the book examines a number of classic works from the perspective of the growing field of climate change literature and includes a brief history of climate change science as well as basic scientific definitions, all intended for general readers. The text provides an introduction to the science, politics, and economics of climate change. It also includes both historical overviews and potential probable futures projected by leading climate scientists and environmental writers. In addition, the text looks at how such creative writers and directors as Margaret Atwood, John Steinbeck, Paulo Bacigalupi, Kim Stanley Robinson, T. C. Boyle, Michael Crichton, and Octavia Butler, among others, have used the disasters caused by climate change in their work.

Teaching Villainification in Social Studies Cathryn van Kessel, Kimberly Edmondson, 2024 In this collection, scholars from the United States, Canada, and Australia examine the concepts of villainification and anti-villainification in social studies curriculum, popular culture, as well as within sociocultural contexts and their implications. Villainification is the process of identifying an individual or a small group of individuals as the sole source of a larger evil. Anti-villainification considers the messy space in between individual and group culpability in order to help students develop a sense of responsibility to each other as humans in communities on this planet. Chapter authors examine topics related to U.S. politics, financial education, Holocaust education, difficult histories, apocalypse fiction, the Marvel Cinematic Universe, technology use, LGBTQ school experiences, rape culture, geographies of invasion, and the female body. Taken together, these inquiries into villainification offer thoughtful and powerful insights for teaching about historical wrongdoing in more nuanced ways, addressing the responsibility we all have to create a better world. Contributors: Heather P. Abrahamson • Danelle Adeniji • Erin C. Adams •

Rebecca C. Christ • Brandon Haas • Keri Helgren • Brittany L. Jones • Wayne Journell • Daniel G. Krutka • Melissa McQueen • Bryan Smith • Ryan M. Smits • Oren Baruch Stier • Amanda Thomson • Andrew Thomson • Bretton A. Varga Book
Features: Pushes the field of social studies to develop a more nuanced understanding of the villains of the past and present. Invites educators to become more thoughtful about not only curriculum but also the world around us. Helps readers to more deeply understand how easily forms of banal evil can touch our lives within and beyond the classroom, and what we might do about it. Examines how systemic forces can influence “average” individuals to cause or contribute to great societal harm. Includes teacher-friendly engagements with theory, using examples from middle and high school classrooms. Offers a wide range of contexts related to social studies education, including civics, economics, geography, and history. “Encourages educators and students in the context of social studies education to delve deeper into exploring the nuanced aspects of contemporary and historical forms of evil.” —From the Foreword by Michalinos Zembylas, professor, Open University of Cyprus

Ecocritical Geopolitics Elena dell'Agnese, 2021-05-26 What is the role of popular culture in shaping our discourse about the multifaceted system of material things, subjects and causal agents that we call environment? Ecocritical Geopolitics offers a new theoretical perspective and approach to the analysis of environmental discourse in popular culture. It combines ecocritical and critical geopolitical approaches to explore three main themes: dystopian visions, the relationship between the human, post-human, and nature and speciesism and carnism. The importance of popular culture in the construction of geopolitical discourse is widely recognized. From ecocriticism, we also appreciate that literature, cinema, or theatre can offer a mirror of what the individual author wants to communicate about the relationship between the human being and what can be defined as non-human. This book provides an analysis of environmental discourses with the theoretical tools of critical geopolitics and the analytical methodology of ecocriticism. It develops and disseminates a new scientific approach, defined as ecocritical geopolitics, to offer an idea of the power of popular culture in the realization of environmental discourse. Referencing sources as diverse as *The Road*, *The Shape of Water*, *Lady and the Tramp*, and TV cooking shows, this book will be of great interest to students and scholars of geography, environmental studies, film studies, and environmental humanities.

Moon of the Turning Leaves Waubgeshig Rice, 2023-10-10 #1 NATIONAL BESTSELLER Twelve years after the lights go out . . . An epic journey to a forgotten homeland The hotly anticipated sequel to the bestselling novel *Moon of the Crusted Snow*. In the years since a mysterious cataclysm caused a permanent blackout that toppled infrastructure and thrust the world into anarchy, Evan Whitesky has led his community in remote northern Canada off the rez and into the bush, where

they've been rekindling their Anishinaabe traditions, isolated from the outside world. As new generations are born, and others come of age in a world after everything, Evan's people are stronger than ever. But resources around their new settlement are drying up, and elders warn that they cannot stay indefinitely. Evan and his teenaged daughter, Nangohns, are chosen to lead a scouting party on a months-long trip down to their traditional home on the shores of Lake Huron—to seek new beginnings, and discover what kind of life—and what danger—still exists in the lands to the south. Waubgeshig Rice's exhilarating return to the world first explored in *Moon of the Crusted Snow* is a brooding story of survival, resilience, Indigenous identity, and rebirth.

Chippewa Child Life and Its Cultural Background Mary Inez Hilger, 1992 In the 1930s anthropologist Sister M. Inez Hilger traveled to nine reservations in Minnesota, Wisconsin, and Michigan to record traditional Chippewa (Ojibway) methods of raising children. Her intriguing study captures the essential details of Chippewa child life and provides a comprehensive overview of a fascinating culture. A new introduction by Jean M. O'Brien, assistant professor of history and American Indian studies at the University of Minnesota, assesses Hilger's contributions in this book, which was first published in 1951.-- Back cover.

The Last Exile Charles Durham, 1992-01-13 For Gabriel Dublanche, the outer turmoil of religious war and pestilence in France mirrored the base passion in his own soul: his desire for revenge against the man who murdered his best friend. So, with his beautiful wife, Celeste, Gabriel set sail for Canada, a distant, dark land of vast forest, of wild, primitive people, and of booming new cities. There, Gabriel would be brought face-to-face with an evil whose curse, it seemed, he could not escape. In a moment of blind fury, he would destroy his family's only hope for happiness.
